# DOMENICI CENTER FOR HEALTH SCIENCES EDUCATION

EDUCATION FOR THE FUTURE

## THE DOMENICI CENTER FOR HEALTH SCIENCES EDUCATION

The East and West buildings of the Domenici Center for Health Sciences Education officially opened for classes in January 2007. The Center was constructed through the generous support of NM taxpayers and federal funding.

The Northeast building houses the Leonard M. Napolitano Ph.D. Anatomical Education Center (human anatomy lab), a 50 seat classroom, and the Interprofessional Healthcare Simulation Center. It contains a mock community pharmacy, sterile/non-sterile compounding areas, simulated inpatient rooms, a drop in skills lab, examination rooms for assessment, simulation and procedure rooms and debriefing rooms.

Phase III will include a full range of classrooms and student support spaces.

## BUILDING HOURS

The complex is open 6:00 AM to 6:00 PM, Monday – Friday. HSC Students have 24 hour badge reader access to the Student Lounge in the East building and the seminar and group study rooms in the Northeast building with their Student ID badge.

After hours access is scheduled through [HSLICReservations@salud.unm.edu](mailto:HSLICReservations@salud.unm.edu) and must be arranged ahead of time. Room requestors will be responsible for checking a key out from the library. Questions about security should be forwarded to the HSLIC Facilities Services Manager.

## RESERVATIONS FOR COMMON SPACES

Student education is the first priority for the building. Guidelines for scheduling space in the Center were established by the Education Deans representing the College of Pharmacy, College of Nursing, and School of Medicine.

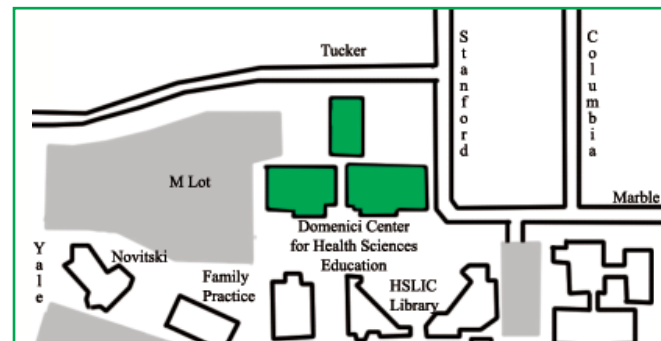

The 3rd floor of the West building is meeting space created for administrative functions and events.

All requests must be scheduled with 48 hours notice. Requestors should “browse for space” in the Event Management System (<https://ems.unm.edu/>) under HSC Domenici Center to see if space is open and send an email request to [HSLICReservations@salud.unm.edu](mailto:HSLICReservations@salud.unm.edu).

Include:

- Desired Date/Time
- Duration
- Instructor’s Name
- Course/Class/Meeting name
- Number of attendees
- Equipment needed (see Available Equipment)

*Please be advised that circumstances may arise when the University leadership, Regents, and/or the EVP may require a meeting room for critical university business at a date/time that conflicts with your meeting. If this occurs, you will be notified immediately and it will be your responsibility to find an alternate location for your meeting.*

## SPACE AVAILABLE

The Domenici Center complex contains over 100,000 square feet designed for a variety of HSC student and administrative uses.

## AVAILABLE EQUIPMENT

Wireless access is available throughout the buildings. Classroom #2112 is also equipped for UNM Interactive Television (ITV), video and web conferencing. Microphones are available for #1220 (auditorium) and #2112. The following rooms have a whiteboard, screen, projector and computer installed: #B102, #B112, #B116, #1220, #2112, #3010 and #2410. The auditorium and 2112 are equipped for lecture capture. Courtesy phones are located on each floor of all the buildings.

## SERVICES AND MANAGEMENT

The Health Sciences Library and Informatics Center (HSLIC) manages the Center and integrates services with HSLIC’s other programs in technology support, library services, informatics, and educational development.

**THE DOMENICI CENTER FOR HEALTH SCIENCES EDUCATION** was named in recognition of Senator Pete Domenici’s extraordinary contribution towards quality education and health care in New Mexico. Through his efforts in the US Senate, Senator Domenici made Phase I of this building possible.

**THE LEONARD M. NAPOLITANO PH.D. ANATOMICAL EDUCATION CENTER** was named in recognition of Leonard Napolitano an anatomist and a founding member of the SOM faculty in 1964. He was SOM Dean from 1972 to 1993 and largely credited with developing many of the school’s unique medical educational programs.
