

Phil and Olga Eaton Sculpture Garden of Healing

The Phil and Olga Eaton Sculpture Garden of Healing will be a quiet oasis nestled within the hectic environment of the UNM Health Sciences Center campus.

True healing goes beyond conventional medical treatments. The integration of modern science, art, and nature has proven to be a powerful tool against devastating disease and illness. The Phil and Olga Eaton Sculpture Garden of Healing will be a testament to these healing principles.

The Presley LaFountain sculpture, *Generations*, will be the focal point of the *Trauma Memorial Garden*. Located in the plaza area adjacent to the new hospital Pavilion. The Trauma Memorial Garden is a special remembrance for those who have died in service to patients, and loved ones who died fighting for their life in the UNM Trauma Center. We invite you to help us remember those identified below and to propose others to be remembered. This is a Joint Program of the Departments of Surgery, Radiology, Orthopedics, Emergency Medicine, Neurosurgery, and Anesthesiology

Yes, I would like to contribute to the *Trauma Memorial Garden Sculpture* in the amount of _____.

"The influence of being part of the modern world and also a Native American Indian has been a source of strength that enables me to keep my own personal integrity in harmony with my art. I carve deliberately without detail...I want to interpret a whole spectrum of emotions."

- Presley LaFountain
