Instructions

**Applicant:** Check off the “Requested” box for each privilege requested. Applicants have the burden of producing information deemed adequate by the UNMMG Board for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving any doubts related to qualifications for requested privileges.

**Department Chair & Clinic Medical Director:** Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

Other Requirements

1. Note that privileges granted may only be exercised at UNMMG clinics that have the appropriate equipment, license, staff and other support required to provide the services defined in this document. Site-specific services may be defined in clinic or department policy.

2. This document defines qualification to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

Policies Governing Scope of Practice

**Medical Record Charting Responsibilities**
Clearly, legibly, completely, and in timely fashion describe each service the provider provides to a patient in the clinic and record relevant observations. Standard rules regarding authentication of, necessary content of, and required time frames for preparing and completing the medical record and portions thereof are applicable to all entries made.

**Periodic Competence Assessment**
Applicants must also be able to demonstrate they have maintained competence based on unbiased, objective results of care according to the Practice Oversight Committee’s existing quality assurance mechanisms and by showing evidence that they have met the continued competence requirements established by the state licensing authority, applicable to the functions for which they are seeking to provide at this clinic. In addition, continuing education related to the specialty area of practice is recommended/required as mandated by licensure.
