

Outreach Connections Content Subcommittee Minutes
9/26/08

The subcommittee—Pat Bradley, Gale Dutcher, Ellen Howard and Judy Rieke met on September 26, 2008 and recommends the following:

Documents will be imported into the Outreach Connections Wiki when possible.
A link should be provided for updates, if necessary, e.g. the project is ongoing.
This allows for the wiki user to immediately see the document and its content.
Links often do not work or become broken even, if they are on a robust system.
Formats that cannot be imported at this time can be linked to.
Wiki contributors will be notified, when the types of documents that can be imported changes.
