

**Outreach Connections: Native Health Information  
Technology Subcommittee  
Notes on Meeting of November 8, 2007**

Present: Claire Hamasu, Scott Horlbeck, Janis Teal  
Notes by Janis Teal

The Technology Subcommittee met to address questions Scott was required to answer in setting up our wiki on the web as opposed to the prototype he had been developing on his laptop.

The subcommittee agreed

- Both contributors and users need to be aware of what copyright principles the site follows in order to guide their own participation in the site.
- Contributors must own the copyright to the material they post or it cannot be posted.
- Links to web sites are not affected by these guidelines.

Decision:

- Scott will use the Creative Commons non-commercial, share alike attribution to define the basic copyright on the wiki. <http://creativecommons.org/licenses/by-nc-sa/2.0/>
- Contributors may place subpages under more stringent restrictions, provided that the license is included within the body of the subpage.
