*physicians for the whole family*

department of orthopaedics

## **Service Lines:**

The Department of Orthopaedics offers comprehensive care for a wide array of services including Children & Adults. The faculty members are committed to provide timely & patient oriented care. Access to care is our top priority. Specialty coverage includes all areas of the musculoskeletal system including the Spine.

Care is provided by fellowship trained Orthopaedic surgeons who have a wealth of experience, national & international reputation. Our off site clinics & the outpatient Surgery center make access convenient to the patient & the family. Please visit our website at [hsc.unm.edu/som/ortho](http://hsc.unm.edu/som/ortho) for further details.
