

COMMUNITY ENGAGEMENT AND RESEARCH

SEMINAR SERIES

UNM HSC Domenici Center Room 3010

March 11, 2008

3:30-5:00 PM

Practical Applications of CBPR Principles to Clinical and Translational Research

Robert Williams, MD,MPH

Andrew Sussman, PhD

Gina Cardinali, MSW

Gina Urias-Sandoval, BA

Community Based Participatory Research is an approach to research that:

- engages researchers and community members equally in the research;
- employs local and cultural knowledge in an understanding of health;
- combines knowledge and action for community health improvement.

This seminar will provide examples of how to engage community and clinicians in:

- developing health research priorities
- planning and implementing community-based research
- reviewing and interpreting research findings

The emphasis will be on creation of partnerships in research.

This is the *second* in a four part seminar series, held the second Tuesday of the month. (Hold the dates)

The University of New Mexico School of Medicine, Office of Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education designates this educational activity for a maximum of 1.5 AMA PRA Category 1 Credit(s)TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Co-sponsored by: Center for Participatory Research within the Institute for Public Health, Department of Family and Community Medicine; in Collaboration with the Partnership Research Office, CTSC; Center for Native American Health/Native American Research Centers for Health (NARCH); RIOSNet; UNM/RWJF Center for Health Policy, VP Office for Community Health.
