

Borgess Health, located in Kalamazoo, MI., is currently seeking qualified Medical Technologists or Medical Laboratory Technicians to work in our state of the art lab. Full-time and regular part-time (30 hrs. per week) third shift positions are available, as well as full time and regular part-time second shift positions.

Borgess' laboratories are a busy hospital-based referral laboratory performing over one million tests per year. Using state of the art equipment, our technologists and technicians work in an innovatively designed laboratory that offers a pleasant working environment. With the support of six pathologists, our medical technologists and technicians are part of a dynamic team that supports the healthcare mission of Borgess Health. Borgess' laboratory also offers a full spectrum of laboratory services, including blood bank, pathology, chemistry, therapeutic drug monitoring, hematology, serology, microbiology, virology and coagulation. The laboratory is fully accredited by the College of American Pathologists, the U.S. Department of Health and Human Services, the Center for Medicare & Medicaid Services and the Clinical Laboratory Improvement Amendments.

Borgess offers great benefits such as: matching 403B, low cost health care premiums, paid time off, tuition assistance, competitive wage, and discounted health and fitness center membership. Relocation reimbursement is also available.

To learn more or to apply on-line, please visit our website at: **www.careers.borgess.com**. Resumes can also be submitted to: jasoncook@borgess.com.

- Completion of a Medical Technology or Medical Laboratory Technician program and ASCP registry or registry eligibility required.
- Hospital laboratory and microbiology experience strongly preferred.
- At least one year of hospital experience as a Medical Technologist or Medical Laboratory Technician preferred.
