

## **Health Care**

All MLS students are eligible to use the Student Health Center, located on Main Campus. The Center is a primary care facility offering general health care.

Injuries incurred during the MLS Program must be reported immediately (no matter how minor) to an instructor or to the immediate clinical supervisor, and an accident report form completed. Any student suffering injury during training on campus or at a clinical site and requiring health care should go to the Student Health Center for care. If the Student Health Center is closed, students should go to University Hospital Urgent Care facilities. Emergency injuries should be handled at the closest medical facilities.

Students and/or the student's insurance company are responsible for any cost of health services rendered to them while in the MLS program.
