| 1. I can communicate effectively regarding patient care issues with a team of interdisciplinary health care practitioners.                  | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 2. I can effectively contribute input from my discipline to an interdisciplinary team for the development of a patient care treatment plan. | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 3. I can participate effectively in problem-solving with an interdisciplinary team.                                                         | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 4. I can refer a patient to the appropriate health care provider in a rural community.                                                      | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 5. I can identify the differences that exist between rural and urban health care systems.                                                   | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 6. I can identify the types of health problems requiring Interdisciplinary cooperation in order to achieve optimal care.                    | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 7. I can effectively utilize information and resources offered by other members of an interdisciplinary team.                               | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 8. I am comfortable using self-directed learning techniques. (for example, electronic databases, people resources, etc)                     | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 9. I am confident in gaining new information using self-directed learning activities.                                                       | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |
| 10. Participation in an interdisciplinary educational program is an extremely effective means of educating health professional students.    | 1                 | 2        | 3                  | 4       | 5                            | 6     | 7                         |

|                                                                                                                    | 1                 | 2        | 3                  | 4        | 5                        | 6        | 7                     |
|--------------------------------------------------------------------------------------------------------------------|-------------------|----------|--------------------|----------|--------------------------|----------|-----------------------|
|                                                                                                                    | strongly disagree | disagree | partially disagree | neutral  | partially agree          | agree    | strongly agree        |
|                                                                                                                    |                   |          |                    |          | <b>strongly Disagree</b> |          | <b>strongly Agree</b> |
| 11. I can interact effectively with patients from different cultures.                                              | <b>1</b>          | <b>2</b> | <b>3</b>           | <b>4</b> | <b>5</b>                 | <b>6</b> | <b>7</b>              |
| 12. I can identify specific cultural beliefs that may influence my health care of the patient.                     | <b>1</b>          | <b>2</b> | <b>3</b>           | <b>4</b> | <b>5</b>                 | <b>6</b> | <b>7</b>              |
| 13. I can effectively communicate health Information to a patient who does not speak a language that I understand. | <b>1</b>          | <b>2</b> | <b>3</b>           | <b>4</b> | <b>5</b>                 | <b>6</b> | <b>7</b>              |
| 14. I can be effective in resolving conflict with members of other health professions.                             | <b>1</b>          | <b>2</b> | <b>3</b>           | <b>4</b> | <b>5</b>                 | <b>6</b> | <b>7</b>              |
| 15. I am very interested in working in a rural area following graduation from my program.                          | <b>1</b>          | <b>2</b> | <b>3</b>           | <b>4</b> | <b>5</b>                 | <b>6</b> | <b>7</b>              |

16. I have a good understanding of the functional role\* of a:
