CLINICAL EXPERIENCE

University of New Mexico Hospitals
Albuquerque, NM

August 2006 to Present

Assistant Professor in the department of psychiatry at the University of New Mexico Hospitals. Neuropsychologist at the Center for Neuropsychological Services. Duties include neuropsychological assessments of individuals with various neurological and psychological disorders, including brain injury, multiple sclerosis, neoplasm, dementia, schizophrenia, stroke, human immunodeficiency virus and various psychological disorders. Supervise neuropsychology graduate students, predoctoral interns and neuropsychology resident. In addition, teach psychiatry residents.

Loyola University Medical Center
Maywood, IL

June 2004 to August 2006

Clinical assistant professor of neurology at Loyola University Medical Center. Neuropsychological assessments of children and adults with various neurological and psychological disorders, including traumatic brain injury, autistic spectrum disorders, learning disabilities, and attention deficit/hyperactivity disorder.

John H. Stroger, Jr. Hospital of Cook County
Chicago, IL

January 2004 to August 2006

Attending psychologist in the department of psychiatry. Neuropsychological and personality assessments of neurology, occupational medicine, neurosurgery, and psychiatric outpatients and inpatients. Working with referral issues of dementia, vascular disease, head trauma, substance abuse, metabolic and infectious encephalopathy, pseudodementia, and competency. Psychiatry department representative to the Neurosurgical Intensive Care Unit Multidisciplinary team, and the Neurology Department's New Patient and Seizures Clinics. Group therapist for Neurology Department's Huntington's Disease Support Group and Multiple Sclerosis Support Group. Psychiatry Department consultant to Emergency Services Department and the Ambulatory Screening (walk-in) Clinic. Individual psychotherapy case load of 1-2 patients per week and involved in the training of practicum placement students.

Chicago Neuropsychological Services
Chicago, IL

June 2003 to August 2006

Member of private practice group providing assessment of individuals with traumatic brain injury, attention-deficit/hyperactivity disorder, learning disabilities, and various other neurological disorders.

Chicago Neuropsychology Group
Chicago, IL

August 2002 to August 2006

Member of private practice group providing assessment of individuals with traumatic brain injury, epilepsy, human immunodeficiency virus (HIV), multiple sclerosis, neoplasm, dementia, stroke, attention-deficit/hyperactivity disorder, learning disabilities, and various psychological disorders.

Clinical Research Scientist

August 2002 to January 2004

Center on Outcomes, Research and Education (CORE)
Evanston Northwestern Healthcare
Evanston, IL

Part of a research team that conducted a study investigating objective and subjective neurocognitive problems associated with chemotherapy for breast cancer. Involved in preparation of materials submitted to the institutional review board (IRB), patient recruitment, neuropsychological testing, and scheduling of fMRI.

Neuropsychology Fellow

September 2000 to July 2002

Evanston Northwestern Healthcare
Evanston, IL

Assessment of inpatient and outpatient individuals with traumatic brain injury, epilepsy, multiple sclerosis, neoplasm, dementia, stroke, and various psychological disorders. Individual psychotherapy case load of 1-2 patients per week and involved in the training of practicum placement graduate students. Supervising Clinical Psychologists: Jerry Sweet, Ph.D., ABPP, and Aaron Malina, Ph.D., ABPP.

Neuropsychology Examiner

July 1999 to August 2000

The University of Chicago Hospitals (UCH)
Chicago, IL

Assessment of inpatient and outpatient individuals who presented with traumatic brain injury, epilepsy, multiple sclerosis, neoplasm, dementia, stroke, and various psychological disorders. Involved in the training of neuropsychology interns and practicum placement graduate students. Supervising Clinical Psychologists: Neil Pliskin, Ph.D., ABPP, and Joseph Fink, Ph.D., ABPP.

Neuropsychology Examiner

July 1999 to August 2000

The Neurobehavioral and Rehabilitation Network, Inc.
Chicago, IL

Outpatient assessment of individuals who presented to a private practice neuropsychologist with traumatic brain injury, dementia, stroke, and various psychological disorders. Supervising Clinical Psychologist: Robert Heilbronner, Ph.D., ABPP.

Medical Psychology Predoctoral Intern

July 1998 to July 1999

Duke University Medical Center

Department of Psychiatry
Medical Psychology Division
Durham, NC

Responsibilities included 75% time commitment to neuropsychology and 25% time commitment to cognitive-behavioral therapy. Neuropsychology rotation consisted of assessment of inpatient's and outpatient's who presented with various cognitive impairments including traumatic brain injury, epilepsy, multiple sclerosis, neoplasm, dementia, organ transplant, stroke, and various psychological disorders. Consulted to several multidisciplinary teams, including the traumatic brain injury, epilepsy, and physical rehabilitation teams. Supervising Clinical Psychologist: Patrick Logue, Ph.D., ABPP. Cognitive-behavioral therapy rotation consisted of providing psychotherapy to inpatient and outpatient adults, as well as being the co-leader of a dialectical behavior therapy outpatient group. Supervising Clinical Psychologist: Clive Robins, Ph.D., ABPP.

Neuropsychology Examiner

July 1995 to June 1998

St. Louis University Health Sciences Center
Department of Psychiatry
Neuropsychology Division
St. Louis, Missouri

Responsibilities included neuropsychological assessment of inpatient and outpatient adults, adolescents, and children presenting with head injury, dementia, attention deficit/hyperactivity disorder, psychological disorders, and a variety of physiologic disorders. Supervising Clinical Psychologist: Jeffrey Gall, Ph.D.

Psychological Trainee

August 1994 to June 1998

Psychological Services Center
St. Louis University
St. Louis, Missouri

As part of a clinical practicum, provided comprehensive outpatient psychological services to children, adolescents, and adults from a culturally diverse population. Presenting problems ranged from mild problems in living to psychosis. Supervising Clinical Psychologists: Joan Oliver, Ph.D., Lizette Smith, Ph.D., Jeffrey Gfeller, Ph.D., Michael Ross, Ph.D., ABPP.

Disability Determinations Evaluator

August 1995 to June 1998

Missouri Department of Elementary and Special Education,
Section of Disability Determinations (Contract)
Psychological Services Center
St. Louis University
St. Louis, Missouri

Conducted cognitive and personality assessments of individuals who were applying for disability

income from the State of Missouri. Clients ranged in age from 2.5 to 65 years, and presenting problems included child behavior disorders, developmental delays and disorders, cognitive deficits, unipolar and bipolar mood disorders, substance abuse and dependence, psychotic disorders, traumatic brain injury, and personality disorders. Supervising Clinical Psychologist: Phyllis Friedman, Ph.D.

Assistant Psychologist

October 1997 to June 1998

Washington University School of Medicine
Department of Psychiatry
St. Louis, Missouri

Responsibilities included the review of medical records, psychiatric interviews, family histories, and any other relevant information to determine best estimate of final psychiatric diagnoses for national multi-center study investigating the genetics of alcoholism. Supervisor: Theodore Reich, M.D.

Neuropsychological Examiner

November 1997 to June 1998

Sisters of Saint Mary's Rehabilitation Institute
St. Louis, Missouri

Comprehensive neuropsychological evaluation to both inpatient and outpatient individuals at physical/cognitive rehabilitation facility. Supervisor: Gerard Erker, Ph.D.

Therapist

January 1996 to May 1997

Jewish Center for the Aged
13190 S. Outer Forty Road
Chesterfield, Missouri

Provided individual psychotherapy to older adults. Supervisor: Pat Hoffman, Ph.D.

Neuropsychological Examiner

August 1993 to July 1994

830 N. Tejon, Suite 100C
Colorado Springs, Colorado

Neuropsychological assessment of geriatric and adult clients presenting with possible cognitive impairments due to head injuries, dementia, aging, psychological disorders, and a variety of physiologic disorders. Supervising Clinical Psychologist: Lin Moeller, Ph.D.

Assistant Psychometrist

August 1992 to June 1994

Community Corrections, Incorporated
5250 North Nevada Avenue
Colorado Springs, Colorado

Responsibilities included administration, scoring, and interpretation of psychological instruments given to incoming inmates. Supervisor: Peter Philbrick, M.A., L.P.C.
