

Enrolling a macOS Device

Microsoft Intune helps organizations manage access to their internal applications, data, and resources. Intune's Company Portal app lets you enroll and manage your devices. Review the [Device Compliance Requirements](#).

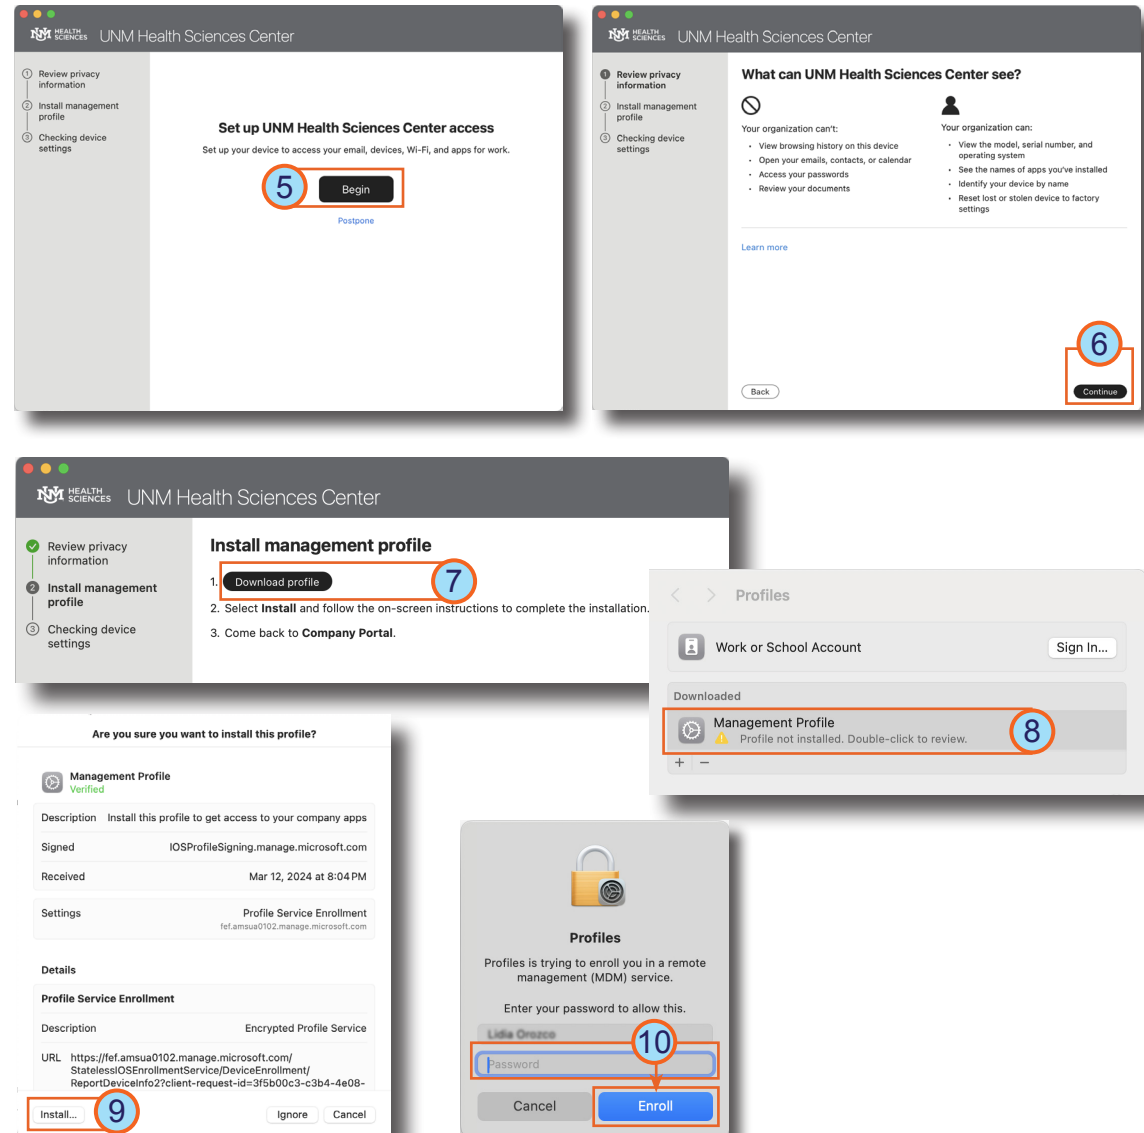

Follow the instructions below to enroll your device.

1. Go to [Enroll My Mac](#) to download the Company Portal app. Follow the installer guide through the steps to install the Intune Company Portal software.
2. In addition to the Company Portal app, another application downloads, **Microsoft AutoUpdate**. Allow it to update your Microsoft applications before moving onto the next step.
3. From the Applications tab in *Finder*, double-click and open the **Company Portal** app.
4. Sign into your HSC employee account. Please note you may be asked to authenticate through MultiFactor Authentication (MFA).

Enrolling a macOS Device

5. Once signed in, the Set up UNM Health Sciences Center access window displays. Click **Begin**.
6. Review the privacy information, then click **Continue**.
7. Click **Download profile**.
System Settings opens to Profiles.
8. Double-click the downloaded **Management Profile**. The confirmation window, *Are you sure you want to install this profile*, displays.
9. Click **Install...**
10. Enter your device password and click **Enroll**.

Enrolling a macOS Device

11. Next, return to **Company Portal** and allow it to check if your device meets compliance and security policy requirements.

 **Note:** You may have to make changes or updates and select **Retry** multiple times until requirements are met.

12. Next, select **BYOD-Global-macOS** in the Device category window and click **Done**.

13. Click **Done** when the You're all set! confirmation message displays.

You may experience variations based on your device. *If you experience difficulty enrolling your device, contact the Service Desk at 2-DATA (272-3282).*
