

Unenrolling an Android Device

To unenroll your device, you must first remove your device from Company Portal, then uninstall the Company Portal application.

First, remove your device in the app.

1. Open Company Portal and from Devices, select **your Android device**.
Device Details display.
2. Tap the **3 vertical dots** in the top right.
3. Tap **Remove Device**.
4. Select **OK** when asked to confirm in the Remove this device window.

Now uninstall the app from your device.

5. Press and hold the **Company Portal app icon**.
6. Select **Uninstall**.
7. Select **OK** when asked to confirm if you want to uninstall the app.
8. A confirmation message displays, **Uninstalled Company Portal**, the app is uninstalled and your work profile is removed from your device.
