Outlook E-mail Views:

**OWA (Outlook Web Application) Client** –

1. **The OWA client:**
   - Will have the "Link View" only as an option to send a Phishing report.
   - When using this view the OWA client will have displayed a quick view of the potential Phishing email before allowing the user to send a report.

2. **The Outlook 2013 client:**
   - Will have the "Link View" and the "Report Phishing" button.
   - The user could use either option.
   - Outlook 2013 SP1 with KB9116349 installed.
