

# Dungarvin

## ABSTRACT

Dungarvin provides a variety of individually tailored services and supports under the Medicaid Home and Community Based Waiver. The organization was founded in St. Paul Minnesota in 1976 by Tim and Diane Madden. It has since grown to employ over 4,000 people who provide support to over 4,000 individuals across 14 states. Services and support are offered to those with intellectual and developmental disabilities, mental health, behavioral challenges, traumatic/acquired brain injury, and significant medical challenges. Dungarvin's mission is "Respecting and responding to the choices of people in need of supports."

## BACKGROUND

While backpacking in Ireland in the 1970s, Tim Madden was stranded, cold, and alone. A police officer found him and provided for a bus to take him to his destination, Madden Castle. Tim was so moved by the generosity of the police officer, as well as the hospitality of the townsfolk, that he decided to name his new organization after the town in Dungarvan. He wasn't sure if he could legally use the name, so he changed the spelling to Dungarvin.

While in college, the Maddens volunteered at a camp for the developmental disabled, and were employed at a large intermediate care facility for individuals with developmental disabilities (ICF/MR)

## CORE SERVICES

**Intellectual & Developmental Disabilities**  
**Mental Health**

## COMMUNITY QUESTIONS

**What are the eligibility requirements?**

*Must be on the DD waiver. Primarily, for those with developmental disabilities*

**Is health insurance and/or Medicaid billed for services?**

*Medicaid is typically billed for services. Private pay is billed at the same cost as Medicaid. Private insurance is not accepted. 95% of funding is through the DD Waiver.*
