Accomplishments as Dean:

Two new doctoral programs, the Doctor of Nursing Practice (DNP) and PhD in Nursing were implemented and students admitted. The first class of PhD and DNP graduated May, 2016.

DNP program completed the CCNE accreditation site visit and received the maximum initial accreditation from CCNE, the national accreditation body. All accreditation standards were met.

Received funding to fund first two Jonas Nurse Scholars at ISU from Jonas Center for Nursing Excellence New York City, the only 2 Jonas Scholars in the state of Idaho.

The Research funding increased significantly in the school during my role as dean as well as the number of doctorally prepared faculty, including diverse faculty members.

Undergraduate curriculum was revised to decrease time to graduation and to allow traditional students to complete the bachelor's degree in 4 years and the accelerated students in 1 year.

NCLEX pass rates were consistently above the national pass rate during tenure as dean.

According to NurseJournal.org, School of Nursing ranked # 5 out of 442 nursing schools in the West.

Master's program according to Collegechoice.net ranked in the top 50 best online programs.

Changed title in university system from Associate Dean/Director to Dean School of Nursing
