A Premier Pharmacy Residency Program

Pharmacy residency experiences at the University of New Mexico Health Sciences Center are unique to most other programs. We provide our residents the opportunity to interact with one of the most diverse patient populations in the nation while training within an award-winning interdisciplinary healthcare setting. Additionally, UNM pharmacy residents have direct access to the knowledge and experience of nationally and internationally recognized practitioners - all within state-of-the-art facilities, situated in one of the most geographically beautiful and culturally rich regions of the nation.

A dynamic and enduring interdisciplinary collaboration between the University of New Mexico College of Pharmacy, and our colleagues across the UNM Health Sciences Center, results in an extraordinary 12-month ambulatory care experience. Our residents train with certified pharmacist clinicians who practice with prescriptive authority. This is one of the most advanced pharmacy practice models in the country, in which the resident earns patient contact hours toward a NM pharmacist clinician license.

**Extraordinary Opportunities**

UNM offers one of the few opportunities nationwide to train in an interdisciplinary clinic providing care to transgender individuals. Unique and innovative clinical rotations include diabetes and metabolic risk management for patients with HIV, pain management and outpatient nephrology.

Primary care experiences provide expert level training in diabetes and cardiovascular risk reduction.

A wide variety of teaching opportunities in large classroom and patient care lab settings, a teaching certificate program, and an academia elective effectively prepare interested residents for a career in higher education.

**Required Rotations**

- 2 months with RPD: Diabetes and CV Risk Reduction
- 2 months primary care in patients with HIV + Transgender health
- 1 month research

**Required Longitudinal Rotations**

- Diabetes/CV Risk Reduction Clinic, one ½-day per week
- Participation in Endocrinology teleECHO™ Clinic
- Teaching/Academia Experience
- Administration
- Research

**Electives**

- Academia
