I am pleased to present New Mexico’s 2020 County Health Report Cards. The UNM Health Sciences Center compiles this annual report to provide policymakers and the public with a county-by-county snapshot of New Mexicans’ health status.

The report draws on data provided by our partners in the New Mexico Department of Health and County Health Councils. It also details the many activities conducted by HSC colleges, the UNM Health System and programs we operate in communities throughout the state.

These activities reflect areas of focus that in our view will lead to the greatest improvements in health status for New Mexicans. They include addressing the health care workforce shortage, child well-being, healthy aging and behavioral health and substance use disorder.

While these report cards highlight health care success stories, they also underscore serious ongoing challenges that continue to face many of our communities. I hope that the information presented here will be of assistance in helping to craft effective solutions.

With Warm Regards,

Paul B. Roth, MD, MS
Chancellor for Health Sciences
CEO, UNM Health System
Dean, UNM School of Medicine

UNM President Garnett S. Stokes seldom misses an opportunity to remind us that we must aspire to become the University for New Mexico. This vision is reflected in the growing responsiveness of UNM’s colleges and departments, who are working together to respond to the priority health and social needs of New Mexico communities.

The UNM Health Sciences Center is collaborating with Architecture and Planning, Engineering, Education, Law and Business in a program called HIVE (Health, Inclusion, Vibrancy & Equity). Working together, they address such needs as transportation for rural veterans; health, social and legal services at a homeless shelter; teacher training for rural public schools; family medicine resident training at the U.S./Mexico border; and providing safe and clean rest rooms at public parks.

The Health Sciences Center can be proud of the many initiatives linking campus and community, including such models as the Transdisciplinary Research, Equity and Engagement Center; the New Mexico Nursing Education Consortium; the New Mexico Poison & Drug Information Center and Project ECHO.

UNM’s Office for Community Health is continuing to build a community- and campus-based network of resources to better serve our state. We collaborate with all of the university’s colleges and hospitals to strengthen this resource. Health Extension Regional Officers (HEROs), Area Health Education Centers and our community health worker programs are other examples of the Health Sciences Center’s reach into our communities.

This year, we are also featuring the community-oriented research work generated by the Clinical & Translational Sciences Center and the nationally unique and growing Project ACCESS, which uses telemedicine technology to help rural hospital physicians remotely manage acute stroke and head injury, thereby sharply reducing the cost of preventable transports.

Sincerely,

Arthur Kaufman, MD
Distinguished Professor of Family & Community Medicine
HEROS IN YOUR COMMUNITY:
Sample Accomplishments

NORTHWEST
Helen Tso
— Worked with a coalition of organizations serving the Four Corners region to implement a food access program for “food desert” areas of the Navajo Nation.
— Mentored UNM pre-med students on mental and behavioral health and Navajo cultural beliefs.

NORTH
Juliana Anastasoff
— Collaborated with UNM Dept. of Psychiatry & Behavioral Sciences to bring national Mental Health First Aid training team to N.M., leading to 60-plus new MHFA instructors for the state.
— Developed and implemented a 10 credit-hour community health worker degree program approved for all UNM campuses that allows eligible students to qualify for federal financial aid.

NORTHEAST
Elaine Luna
— Developed standards, guidelines and requirements for state certification of community health workers as a member of the New Mexico Community Health Worker Certification Board.
— Cornerstone partner of the Rural Community Opioid Response Program in northern N.M.

SOUTHWEST
Alisha Herrick
— Helped primary care practices in southern N.M. enact safer opioid prescribing practices.
— Organized focus groups around community priorities in four quadrants of the state.

SOUTH
Marnie Nixon
— N.M. team lead for the Border Collaborative Improvement & Innovation Network to Reduce Infant Mortality, which develops and delivers training to community health workers on the topics of preconception and prenatal care.
— Chair of the Youth Health in Doña Ana County Working Group, which works to increase the number and scope of school-based health centers in the county and helped pass a bill to make health education a statewide high school graduation requirement.

SOUTHEAST
Evelyn Rising
— Campaigned to increase high school graduation rates and enrollment in post-secondary programs among African American and Latino high school students in her region.
— Worked with partners on reducing high teen pregnancy rates in southeastern N.M.

GUADALUPE
Chantel Lovato
— Helped develop an emergency response training for rural ranchers in her region.
— Contributed to implementation of a Community Schools grant for her eastern N.M. district.

COLFAX
Mark McDonald
— Worked to establish a halfway house for adults experiencing addiction in his region.
— Helped conduct community health assessment in Colfax County and the tri-state region.

BERNALILLO
Francisco Ronquillo (Albuquerque South Valley)
— Developed and implemented computer/health literacy classes for English- and Spanish-speaking older adults in the South Valley.
— Participated in creation of a family engagement policy in the Albuquerque Public Schools.

Toyese Oyeyemi (UNM)
— Developed and established intensive training for college-bound students of color to address health inequities in communities.
— Helped develop a specialized community health worker training program for survivors of abuse and assault through Central New Mexico Community College.

Lidia Regino (Albuquerque International District)
— With community direction, participated in the creation of a community health worker-managed neighborhood clinic in the International District serving immigrant families and others with high needs.
— Participated in creating and continues to provide recommendations on the implementation of, six recommendations for the most effective use of Mill Levy property tax funding by UNM Hospital.
UNM HEALTH SCIENCES CENTER FEATURED PROGRAM: The Clinical & Translational Science Center

The University of New Mexico Clinical & Translational Science Center (CTSC) helps transform scientific discovery into improved health by enabling high-quality clinical and translational research locally, regionally and nationally.

The CTSC has created a research ecosystem that provides critical services and training, develops and disseminates processes to support research and builds new partnerships. Taken together, these initiatives substantially grew the UNM Health Sciences Center’s research enterprise and its impact, building on local strengths and addressing New Mexico’s geographic and demographic needs.

Our community engagement platform enables bi-directional communication with communities and sharing of clinical and translational research with a wide array of stakeholders. We have implemented innovative strategies such as the Community Engagement and Research Core (CERC) and the Community Health Network (CHN) to increase access to clinical trials in communities around the state – with a focus on rural communities. For example, the CHN employs community health workers trained and hired from within the community who collaborate with community health specialists, enabling the CTSC to solicit community participation and input in health research.

The growth and cumulative impact of the CTSC’s community engagement activity is clear: the number of cumulative projects supported by the CERC grew from two in 2012 when it was formed to 21 in 2019. The percentage of underserved participants in research projects grew during the same period. Participants age 64 and older grew from five percent in 2015 to 23 percent in 2018. Native American participants increased from four percent in 2015 to 10 percent in 2018, and participants living in rural areas increased from one percent in 2015 to 14 percent in 2018. This growth is significant, because participant enrollment in studies must represent the entire population, with ample inclusion of underserved populations and the diseases that affect them.

The CTSC also spearheaded an institution-wide support unit for initial grant training, identification of grant opportunities, facilitating new interdisciplinary team formation and facilitating grant submissions.

We have had unprecedented success with Patient Protection and Affordable Care Act (ACA) funding opportunities from the Health Resources and Services Administration, the Agency for Healthcare Research and Quality, the Centers for Medicare and Medicaid Services (CMS) and the Patient-Centered Outcomes Research Institute (PCORI). Of 201 ACA-related grant applications submitted since 2012, 115 (57%) were awarded, for a total of $85 million.

These awards included PCORI grants totaling $11.3 million and CMS Innovation grants totaling $29.2 million. In addition to their fiscal impact, these awards have catalyzed new researcher and clinician teams with New Mexico communities, because many of the grants were obtained in collaboration with community partners. These projects have helped reduce high-dose opioid prescriptions by 11% in 2018 and increased hepatitis C treatment 10-fold between 2014 and 2018.

The CTSC will continue to play a key role in broadening access to rural care and addressing key health issues. Our community-engaged approach bolsters inclusion in research studies and will improve health among special populations.
A stroke is a medical emergency wherever it occurs, but people living in rural New Mexico are especially at risk, because they often live far from doctors with the expertise to diagnose and treat the condition in a timely fashion.

But thanks to ACCESS (Access to Critical Cerebral Emergency Support Services) Telemedicine, a nonprofit program operated by The University of New Mexico Hospital, stroke patients in rural hospitals throughout the state can receive state-of-the-art diagnoses of their conditions on the spot.

ACCESS Telemedicine, launched in 2015 with the help of a three-year $15.2 million grant from the Centers for Medicare and Medicaid Services, enables physicians in rural emergency departments to consult with specialists at UNM Hospital via a dedicated telemedicine connection. UNM doctors can review neuroimaging results and even interview the patients or their family members via a video link.

The program charges rural hospitals only for the consults they need, a significant savings over the 24/7 coverage provided by commercial stroke consult services. UNMH doctors also can determine when the best course for a patient is to remain in the local ER, rather than be flown to Albuquerque for surgical intervention.

In its first three years, the program served more than 4,000 patients and eliminated $24 million in annual medical costs, in part by avoiding unneeded emergency air transport, which can cost $40,000 per patient transfer. The program keeps more patients – and their families – in their home communities, which also benefits local hospitals.

ACCESS Telemedicine has gained the support of physicians in rural and community hospitals throughout New Mexico and won endorsement from insurers, who have found a way to reduce needless expense.

SELECTED UNM HSC ACTIVITIES

IN BERNALILLO COUNTY

Clinical Service

- Area Health Education Centers: financial assistance for student and resident rotations (allopathic medicine, family nurse practitioner, family practice, occupational therapy, pharmacy, physical therapy, physician assistant)
- Center for Life: integrative medicine courses; student, resident, faculty training
- College of Nursing: community outreach and student rotations
- College of Pharmacy: community clinical outreach and student rotations, free flu clinics, health fairs, health screenings, Vial of Life (emergency medical information kits), volunteer pharmacist clinician services for the homeless
- Comprehensive Cancer Center: cancer clinical trials
- Emergency Medicine: search and rescue
- N.M. Poison and Drug Information Center; poison prevention and medication safety
- Occupational Therapy: pro-bono client visits, social skills groups, team consultations for treatment foster care
- Office for Community Health: New Mexico Immunization Coalition; Got Shots Back-to-School immunization campaign, volunteer medical services for the homeless and uninsured
- Pediatrics: Para los Niños (child and adolescent sexual abuse clinical services)
- Pediatrics/Center for Development and Disability: autism programs, home and community-based transition services, Fetal Alcohol Syndrome Disorder clinic, FOCUS maternal-child and early intervention services, Milagro intensive outpatient program, medically fragile case management program, school-to-work transition activities, transition coordination, nurse-family home visiting
- Radiology: medical physics services for imaging facilities
- School of Medicine: community clinical outreach and student rotations (Dental Medicine, Internal Medicine, Obstetrics & Gynecology, Orthopaedics & Rehabilitation, Pathology, Pediatrics), Medical-Legal Alliance consultations
• Surgery: burn survivor gathering, Center for Healing in the Lower Extremity Program, N.M. Cancer Service, Smile Fest, UNM Cleft Palate Program

**Educational**

• Cell Biology & Physiology: public presentations and lectures
• Center for Life: massage events, holistic health exhibits
• Center for Native American Health/Institute for Indigenous Knowledge and Design: community outreach and presentations
• College of Nursing: Participation in the New Mexico Nursing Education Consortium to create opportunities for nursing education and the pediatric pulmonary clinic
• College of Pharmacy: Know Your Heart, Know Your Rhythm atrial fibrillation screening project, SURE Center - Consider New Mexico Project: Pharmacy-based naloxone education to increase community access
• College of Population Health: public health online trainings, student capstone projects Transdisciplinary Research, Equity and Engagement Center for Advancing Behavioral Health: Ignite for Equity presentations on healing trauma
• Comprehensive Cancer Center: Ventanilla de Salud
• Emergency Medicine: wilderness first aid course, car seat fitings
• Family & Community Medicine: PA clerkship
• Health Sciences Library & Informatics Center/Distance Services: public presentations, health fairs, conference presentations
• N.M. Poison and Drug Information Center: poison prevention and medication safety
• Office for Community Health: community health worker home visits and care coordination, New Mexico Immunization Coalition conference presentations on adult and infant immunizations
• Office of Diversity: health sciences admission test preparation programs, Dream Makers Health Careers Program for middle and high school students, Health Careers Academy, clinical rotations in rural and underserved areas of the state, Undergraduate Health Sciences Enrichment Program for high school students
• Office of Medical Educator Development: eLearning modules for medical educators and preceptors
• Pediatrics/Center for Development and Disability: conferences, provider education, community events, infant behavioral health community of practice: Project for New Mexico Children Who Are Deaf/Blind
• Psychiatry & Behavioral Sciences/Center for Behavioral Health: collaboration with New Mexico Area Health Education Centers for on-site and telehealth training on opioid use disorder screening, assessment and co-morbidities; Honoring Native Life youth suicide prevention programming; Tribal Trauma Informed Training; youth suicide prevention training (with New Mexico Department of Health)
• Sandoval Regional Medical Center: community outreach, health fairs, community events
• School of Medicine: Continuum of Care Project: developmental disability care training for health care providers and caregivers; public presentations (Internal Medicine, Neurosciences/Brain & Behavioral Health Institute, Obstetrics & Gynecology, occupational health, Orthopaedics & Rehabilitation, Pathology, Pediatrics, Psychiatry & Behavioral Sciences, Radiology, Surgery)
• Undergraduate Medical Education: Medicine in New Mexico series, Practical Immersion Experience
• UNM Hospital: shaken baby syndrome awareness and prevention, health fairs, injury prevention

**Health Extension Regional Officers (HEROs)**

• Black Health Resource Center
• Collaborative for Hispanic/Latino Health Equity
• Native American Collaborative for Community Health and Wellness

**South Valley Health Extension Office**

**Telehealth/Telemedicine**

• Envision New Mexico: Pediatrics/Adolescent Medicine
• Project ECHO: Albuquerque Area Southwest Tribal Epidemiology Center Partners in Good Health, antimicrobial stewardship, anxiety, behavioral health/substance use disorders, bone health, chronic pain and headache, community health worker continuing education, counselor series, crisis intervention training, HCV collaborative, endocrinology, family obesity prevention, general cardiology, Good Health and Wellness in Indian Country, hepatitis B, hepatitis C, HIV, integrated addiction/psychiatry, miner’s wellness, neuroplasticity, nurse practitioner/certified nurse midwife primary care, prevention of child abuse and neglect, reproductve health, rheumatology, seizures and spells, tuberculosis
• Psychiatry & Behavioral Sciences: community coalition and crisis response team-building for youth suicide prevention and postvention through telehealth consultation (sponsored by New Mexico Department of Health); crisis intervention training and case consultation to public safety personnel; Indian Health Service Center for Telehealth Excellence Project; mental health and the law training; peer and community support worker consultations for prevention, engagement, support services and Extensive case management

**Community Research**

• Clinical & Translational Science Center: studies of health care provision methods; potential diagnostic, prevention, and treatment methods for various health conditions; and research methods
• College of Pharmacy SURE Center: ENRICH Prenatal Alcohol Exposure prospective birth cohort study; ENRICH-2 Self-Regulation and Stress Reactivity in Infants with Prenatal Alcohol Exposure prospective birth cohort study; HEALTHy Brain and Child Development Study
• College of Population Health: Transdisciplinary Research, Equity and Engagement Center for Advancing Behavioral Health: Community, Scientific and Policy Advisory Committee member representation; Equity in Policy Institute Advisory Board member representation; Hurt People Hurt People: Ethnic Studies to Heal Student Trauma by Addressing the Mind, the Body and Spirit; Immigrant Well-Being Project; UndocuResearch: Mental health among Undocumented and Mixed Status Families of New Mexico; Shifting Narratives for Behavioral Health Justice: Assessment, Planning and Evaluation Unit: evaluation of SNAPs SA Coalition to Address Underage Drinking and Prescription Abuse and Misuse
• Comprehensive Cancer Center: community advisory board member representation
• Family & Community Medicine: Brief Overdose Prevention Training for Adolescents Released from Juvenile Detention to Reduce Opioid Overdose Deaths; Center for American Indian and Alaska Native Diabetes Translation Research; Center for American Indian and Alaska Native Health Disparities; Collaborative Hubs to Reduce the Burden of Suicide among American Indian & American Native Youth; Implementing Personal Health Records to Promote Evidence-based Cancer Screening; Models of Care for Pregnant Women with Opioid Use Disorder and Infants with Opioid Exposure; Native-Controlling Hypertension and Risks through Technology; Native Elder Research Center; Prevention of Teen Pregnancy through Screening and Brief Intervention in Primary Care
• Pediatrics: “Rhythm Study” - Genetic Testing and Phenotypic Characterization of Severely Obese Pediatric and Adult Volunteers
• Pharmaceutical Sciences: Environmental Contaminants and Immune Function on the Cheyenne River; Mother-to-Baby Perinatal Counseling Service & Research
• Prevention Research Center: N.M. Youth Risk and Resiliency Survey, Sexual Violence Prevention Statewide Coordination, Supplemental Nutrition Assistance Program N.M. Evaluation
• Psychiatry & Behavioral Sciences: Feasibility of an Early Detection Program for Early Psychosis on a College Campus, State-Targeted Responses for Opioid Use Disorder

**Volunteer Community Faculty in Bernalillo County (FY 2019)**
- School of Medicine: 617
- College of Nursing: 115
- College of Pharmacy: 144

**UNM Health Sciences Center Alumni Residing in Bernalillo County (FY 2019)**
- School of Medicine: 3,025
- College of Nursing: 3,310
- College of Pharmacy: 1,226
- College of Population Health: 177

**Patient care services (visits) provided by UNM Hospital to Bernalillo County residents (FY 2019)**

SELECTED UNM HSC ACTIVITIES IN MCKINLEY COUNTY

Clinical Service
- Area Health Education Centers: financial assistance for student and resident rotations (adult-gerontology acute care nurse practitioner, allopathic medicine, certified nurse midwife, family nurse practitioner, family practice, physical therapy, physician assistant, psychiatric and mental health nurse practitioner)
- College of Nursing: community clinical outreach and student rotations
- Comprehensive Cancer Center: cancer care delivery, cancer clinical trials
- Neurosurgery: clinical consults
- Obstetrics & Gynecology: outreach clinics
- Pathology: clinical consults
- Pediatrics: outreach clinics (cardiology, genetics, neurology)
- Pediatrics/Center for Development and Disability: autism programs, fetal alcohol syndrome disorder clinic, home and community-based transition services, medically fragile case management program, school-to-work transition activities, transition coordination
- Surgery: cleft palate clinic

Educational
- College of Nursing: participation in the New Mexico Nursing Education Consortium to create opportunities for nursing education
- College of Pharmacy: community education events, flu shots, health fairs
- Comprehensive Cancer Center: cancer education and screening programs in tribal and rural communities, Ventanilla de Salud
- Family & Community Medicine: FCM clerkship, PA clerkship, residency program
- Neurosurgery: community education
- Obstetrics & Gynecology: clinical training
- Pathology: laboratory training, summer research experience
- Pediatrics: community outreach
- Pediatrics/Center for Development and Disability: community events, conferences, infant behavioral health community of practice, Project for New Mexico Children Who Are Deaf/Blind, provider education
- Psychiatry & Behavioral Sciences: Honoring Native Life youth suicide prevention programming; youth suicide prevention training (with New Mexico Department of Health)
- Undergraduate Medical Education: Practical Immersion Experience
- UNM Hospital Emergency Medicine: community education

Telehealth/Telemedicine
- Pediatrics/Center for Development and Disability: clinical and educational programs
- Project ECHO: Albuquerque Area Southwest Tribal Epidemiology Center Partners in Good Health, antimicrobial stewardship, bone health, chronic pain and headache, community health worker continuing education, counselor series, crisis intervention training, Good Health and Wellness in Indian Country, hepatitis C, HIV, miner's wellness, rheumatology, tuberculosis
- Psychiatry & Behavioral Sciences: community coalition and crisis response team-building for youth suicide prevention and postvention through telehealth consultation (sponsored by New Mexico Department of Health); crisis intervention training and case consultation to public safety personnel; Indian Health Service Center
for Telehealth Excellence Project; mental health and the law training; peer and community support worker consultations for prevention, engagement; support services and extensive case management

**Community Research**

- Clinical & Translational Science Center: study of a model for expansion of medication-assisted treatment in rural primary care; study of potential method to improve adolescent health
- College of Pharmacy: Environmental influences on Child Health Outcomes program; UNM Metal Exposure and Toxicity Assessment on Tribal Lands in the Southwest Superfund Research Program
- College of Population Health: Assessment, Planning and Evaluation Unit: evaluation of SNAPS SA Coalition to Address Underage Drinking and Prescription Abuse and Misuse; Transdisciplinary Research, Equity and Engagement Center for Advancing Behavioral Health: community advisory board representation
- Comprehensive Cancer Center: community advisory board member representation
- Prevention Research Center: N.M. Youth Risk and Resiliency Survey

SELECTED UNM HSC ACTIVITIES IN TAOS COUNTY

Clinical Service

• Area Health Education Centers: financial assistance for student and resident rotations (allopathic medicine, family nurse practitioner, pediatric nurse practitioner, pharmacy, physical therapy, physician assistant)
• College of Nursing: community clinical outreach and student rotations
• Emergency Medicine: search and rescue
• Internal Medicine: chronic kidney disease treatment outreach
• Office for Community Health: New Mexico Immunization Coalition: Got Shots Back-to-School immunization campaign and school-located flu clinics (with N.M. Department of Health)
• Pathology: community clinic
• Pediatrics: outreach clinics (genetics)
• Pediatrics/Center for Development and Disability: autism programs, Fetal Alcohol Syndrome Disorder clinic, home and community-based transition services, medically fragile case management program, school-to-work transition activities, transition coordination

Educational

• College of Nursing: participation in the New Mexico Nursing Education Consortium to create opportunities for nursing education
• College of Pharmacy: community education events, flu shots, health fairs
• College of Population Health: public health online trainings
• Comprehensive Cancer Center: Ventanilla de Salud
• Emergency Medicine: wilderness first aid course
• Family & Community Medicine: FCM clerkship, PA clerkship
• N.M. Poison and Drug Information Center: poison prevention and medication safety
• Pathology: hands-on lab tours
• Pediatrics/Center for Development and Disability: community events, conferences, infant behavioral health community of practice, Project for New Mexico Children Who Are Deaf/Blind, provider education
• Psychiatry & Behavioral Sciences: Honoring Native Life youth suicide prevention programming, youth suicide prevention training (with New Mexico Department of Health)
• Sandoval Regional Medical Center: community outreach
• Undergraduate Medical Education: Medicine in New Mexico series, Practical Immersion Experience

Health Extension Regional Officers (HEROs)

• Northern New Mexico Health Extension Office

Telehealth/Telemedicine

• Envision New Mexico: Pediatrics/Adolescent Medicine
• Pediatrics/Center for Development and Disability: clinical and educational programs
• Project ECHO: antimicrobial stewardship, chronic pain and headache, community health worker continuing education, counselor series, endocrinology, hepatitis C, integrated addiction/psychiatry, reproductive health
• Psychiatry & Behavioral Sciences: community coalition and crisis response team-building for youth suicide prevention and postvention through telehealth consultation (sponsored by New Mexico Department of Health); crisis intervention training and case
Consultation to public safety personnel; Indian Health Service Center for Telehealth Excellence Project; mental health and the law training; peer and community support worker consultations for prevention, engagement, support services and extensive case management

**Community Research**
- Clinical & Translational Science Center: study of health conditions among uranium miners; study of a model for expansion of medication-assisted treatment in rural primary care; study of potential method to improve adolescent health
- College of Population Health: Transdisciplinary Research, Equity and Engagement Center for Advancing Behavioral Health: UndocuResearch: Mental health among Undocumented and Mixed Status Families of New Mexico
- Prevention Research Center: N.M. Youth Risk and Resiliency Survey, Sexual Violence Prevention Statewide Coordination and Technical Assistance Program
- Psychiatry & Behavioral Sciences: State-Targeted Responses for Opioid Use Disorder

Every effort has been made to make the information in this report as accurate and up-to-date as possible. We regret any omissions or inaccuracies. (“N.A.” = information not available at press time.) Comments, additions or corrections may be sent to: Molly Bleecker at mbleecker@salud.unm.edu.
Outreach activities include clinical service, education, telehealth, telemedicine, and community research. Map reflects the county where activities occurred and the number of individuals served by the activities. Activity participants might not be residents of the county in which the activity occurred. UNM Health System clinical encounters are not included in the counts. Map not updated for January 2020 report.
