Committees

Academic Development & Professional Training
Focus areas include DEI content in the curriculum for transfer, training for faculty and staff (implicit bias, racial identity, etc.)

Workforce Development
Focus areas include the recruitment, retention, promotion of diverse HSC students, residents/fellows, staff and faculty, and leadership and personal development.

Community Engagement
Focus areas include enhancing communication channels with external and internal stakeholders to advance their needs and generate awareness of opportunities through HSC DEI and including partnerships with external and external stakeholders.

Culture & Climate
Focus areas include assessing campus DBI climate, and raising awareness and reducing frequency and severity of workplace bias across education, research and clinical spheres.
