

Need clinical experience?

New Mexico Clinical Education Program (ClinEd)

June 5 - July 14, 2023

The ClinEd Experience

- Gain clinical experience working with rural or underserved populations.
- Learn how to identify and assess social determinants of health and health disparities in communities.
- Be more familiar with community-based research and community engagement practices and techniques.
- Be more confident in your readiness to apply to your program.
- Increase awareness of the urgent need for healthcare providers in our state.

Activities may include:

- Clinical shadowing in rural and/or underserved areas in NM. (dependent on COVID-19 restrictions)
- Exposure to telehealth models of care
- Research experience and community project development
- Session on Cultural Humility
- Enhance clinical skills

Eligibility

- Must be a New Mexico resident, or Navajo Nation resident with a valid SSN or ITIN (for payment purposes only)
- College student pursuing a health-related degree, or recent college graduate interested in a health career
- Have a 2.75 GPA or higher

Stipend upon completion of the program

**Application
Deadline**
April 7, 2023
