

COVID-19 Vaccination: Building Global Capacity

The Access to COVID-19 Tools (ACT) Accelerator's [Country Readiness and Delivery \(CRD\) workstream](#), Project ECHO, Boost, TechNet-21, and the COVID-19 Vaccine Equity Project invite you to join a series of video-conference-based capacity building webinars.

For national, regional, and global stakeholders - learn more about National Deployment and Vaccination Planning and Implementation (NDVP).

First session
Tuesday, February 9, 2021

[Register here](#)

For health workers- prepare for COVID-19 Vaccination.

First Session:
Tuesday, February 16, 2021

[Register here](#)

The one-hour learning sessions will be held on Tuesdays from 12:00 -13:00 CET. Interpretation into the UN official languages and Portuguese will be made available, as needed.

The sessions will provide an opportunity for stakeholders to ask questions and share lessons learned on key aspects of COVID-19 vaccine introduction and administration. The **COVID-19 Vaccination: Building Global Capacity Webinar Series** will build from and expand beyond the existing OpenWHO COVID-19 vaccine trainings:

[Orientation to national deployment and vaccination planning for COVID-19 vaccines](#)

This course is intended to help national and sub-national focal points in countries develop the NDVP and prepare for COVID-19 vaccine introduction.

[COVID-19 vaccination training for health workers](#)

This package provides the key information for health workers on how to safely and effectively administer COVID-19 vaccines.
