

IHS COMMUNITY HEALTH ECHO

1st and 3rd Tuesdays of each month

A twice-monthly virtual mentorship and peer learning educational program for community health representatives, health aides, health educators and public health nurses.

Interactive, case-based learning with an emphasis on working through real patient and system level challenges

Focused on skills and knowledge for community-level COVID-19 response

Builds a network of public health peers working in tribal communities around the country

Topics include:

- COVID-19 public health strategies
- Mental/behavioral health and resiliency
- Health communications
- Creating virtual health campaigns
- Occupational safety and health
- Cultural and community connectedness

90 minute TeleECHO™ session, twice per month

3pm ET / 2pm CT / 1pm MT / 12pm PT / 11am AK
