

In the U.S. and around the world, people are not getting the care they need, when they need it, for complex but treatable conditions.

## Moving Knowledge, Not Patients

Through telementoring, ECHO builds capacity and creates access to high-quality specialty care serving local communities.

### Hub and spoke knowledge-sharing networks create a learning loop:

Community providers learn from specialists.

Community providers learn from each other.

Specialists learn from community providers as best practices emerge.
