

Indian Country HIV TeleECHO™ Clinic

Email IHSecho@salud.unm.edu
for more information

Project ECHO®, New Mexico HIV Education and Training Center (AETC), and the Indian Health Service (IHS) welcome you to participate in our monthly Indian Country HIV TeleECHO program. The curriculum is designed to help providers not familiar with HIV to become familiar and then proficient in the treatment and prevention of HIV in a primary care setting. We encourage members of the healthcare team to present cases for group discussion.

Sample Brief Lecture Topics:

HIV and Tuberculosis

nPEP & PEP to PrEP

New ART Agents and Combinations

Guidelines for Opportunistic Infections

STI Screening and Management

HIV Transmission among AI/AN

Indian Country HIV TeleECHO Clinic will:

- Increase provider knowledge and skills to provide up-to-date, evidence-based HIV prevention & treatment in your healthcare setting
- Create an HIV community of practice to share best practices relevant to our region

How to Participate:

- Email IHSecho@salud.unm.edu to join our email list.
- Join us on video via Zoom the 2nd Wednesday each month from 12-1pm MT
- Participate in brief lectures and presentations and inter-professional case discussions
- Complete brief online registration and evaluation forms to receive CME/CPE credits

Expectation of Participants

- All participants are asked to complete an on-line AETC PIF (Participant Information Form) once a year and an on-line evaluation for each session attended (for CME/CPE credit!).
- For confidentiality, HIPAA compliance, and professionalism, each participant is asked to introduce him/herself during each teleECHO session and present de-identified patient cases. TeleECHO sessions are not open to the general public or to patients.

The NMAETC is affiliated with the South Central AETC which is supported by a cooperative agreement from the Health Resources and Services Administration (HRSA) and is part of the Ryan White HIV/AIDS program.
