

To Anyone Submitting to DARPA:

DARPA has a new submission web site:

<https://www.tfims.darpa.mil/baa/>

The most important thing to know is the PI must create a separate account for each BAA he/she is replying to and per the web site itself, accounts are only issued to the Technical/Principal Investigator.

Proposals are created in two volumes and must be encrypted, per DARPA instructions. After the proposal is submitted (by the PI), PI receives an Email that says the account has been deactivated.

Please work with HSC Pre Award personnel to ensure the proposal is reviewed and approved before submission.
