Job Description

RN INPT

Position Code 511

FLSA Code:  N

Grade:       LT68

JOB SUMMARY

Work within the nursing process to provide direct nursing care to assigned patients. Provide clinical leadership for other staff and assume relief charge duties when designated. Serve as a role model to promote a positive work environment and quality patient care. Ensure adherence to Hospitals and departmental policies and procedures. Patient care assignment may include Neonate, Pediatric, Adolescent, Adult and Geriatric age groups.

ESSENTIAL FUNCTIONS- Essential and other responsibilities and duties may include but are not limited to the following:

PATIENT CARE - Deliver safe direct care to an assigned group of patients as required

POLICIES - Work within Hospitals, Nursing division and departmental policies

CARE PLAN - Work in collaboration with the healthcare team, implement and document individualized care plans incorporating age specific considerations, including discharge planning and patient/family teaching

TESTS AND PROCEDURES - Assist with special tests and procedures; ensure proper consent has been obtained
PARTICIPATION - Participate in orientation; upon successful completion of preceptor training assume precepting and evaluation responsibilities of new personnel

EMERGENCY MEASURES - Assist with or institute emergency measures for sudden, adverse developments in patients

MEDICAL RECORDS - Ensure that patient medical records contain necessary information

INQUIRIES - Answer telephones and triage calls as per departmental policy

MEDICATION - Administer medication, including IV medication, via the Seven Rights; document and communicate clinical findings

ENVIRONMENT - Maintain a safe, comfortable, and therapeutic environment for patients/families in accordance with Hospitals standards

DEVELOPMENT - Enhance professional growth and development through participation in educational programs, reading current literature, attending in-services, meetings and workshops

PATIENT SAFETY 1 - Follow patient safety-related policies, procedures and protocols

PATIENT SAFETY 2 - Demonstrate proactive approach to patient safety by seeking opportunities to improve patient safety through questioning of current policies and processes

PATIENT SAFETY 3 - Identify and report/correct environmental conditions and/or situations that may put a patient at undue risk

PATIENT SAFETY 4 - Report potential or actual patient safety concerns, medical errors and/or near misses in a timely manner
PATIENT SAFETY 5 - Encourage patients to actively participate in their own care by asking questions and reporting treatment or situations that they don't understand or may "not seem right"
