Public Disclosure: Responses to Become Public Records. All materials submitted in response to this RFP become a matter of public record and shall be regarded as public record.
New Mexico Inspection of Public Records Act, Section 14-1-1 et seq., NMSA 1978 as Amended (“IPRA”) limits the UNMHS’s ability to withhold prequalification and bid data to trade secrets or records, the disclosure of which is exempt or prohibit pursuant to federal or state law.

**Confidentiality**: As a state institution, UNMHS is subject to the IPRA, so unless there is an exception under the law, documents in the University's possession are subject to review by any member of the public. One exception to this general rule is for trade secrets. Trade secrets are not subject to disclosure under an IPRA request. New Mexico law defines a "trade secret" at NMSA Sec. 57-3A-2. Please review the definition (or have your company attorney do so) and explain how the pages that you have marked as "Confidential" fall within New Mexico's definition of a trade secret.

PLEASE NOTE: The price of products offered or the cost of services proposed shall not be designated as proprietary or confidential information.

UNMHS will ignore markings of “CONFIDENTIAL” on proposal cover sheets or on every page. Vague designations and blanket statements regarding entire pages or documents are insufficient and shall not bind the UNMHS to protect the designated matter from disclosure. Do not mark your cover page confidential. Do not put the word “confidential” on every page. Do not identify pricing as confidential.

If you identify any portions of our proposal as confidential or as a trade secret, you agree, by submitting your proposal, that UNMHS’s sole obligation in connection with an IPRA request relating to your proposal is to provide you with notice of the IPRA request so that you may seek relief as you may deem appropriate. UNMHS reserves the right to reject any proposal not in compliance with this paragraph.

The UNMHS shall not in any way be liable or responsible for the disclosure of any records if they are not plainly marked “CONFIDENTIAL” or “PROPRIETARY” or if disclosure is required by law, regulation, subpoena, order of the court or other legal requirements that purports to compel disclosure, including without limitation, the IPRA.

It is the will of UNMHS to implement compliant and cost effective RCRA Hazardous Pharmaceutical, Non-Hazardous Pharmaceutical and Chemo waste management programs for all facilities. All Bidders capable of providing these services are asked to provide a comprehensive strategy to evaluate and implement such a program for all UNMHS facilities to include the following:

b. Pharmaceutical / Chemotherapeutic Waste Disposal Service
   i. Facility assessments
• Ability to conduct formulary analysis of RCRA hazardous and non-hazardous pharmaceuticals and all chemotherapeutic agents at the facility level.
• Initial and ongoing formulary analysis to include additional pharmaceuticals and chemotherapeutic agents.
• Determinations must be based on active and inactive preservative ingredients
• Identification of incompatible pharmaceutical wastes
• Ability to assess the compliance (EPA, DOT and OSHA) of current policies and procedures in place for the generation, storage, labeling and disposal of pharmaceutical waste focusing on waste storage areas, personnel training and written standard operating procedures
• Evaluation of EPA generator status requirements
• Bi-annual individual UNMHS facility assessments which will include a written report detailing any EPA, OSHA or DOT compliance issues related to the pharmaceutical and chemotherapeutic waste disposal programs at all individual UNMHS facilities.

ii. Training
• Specific and relevant training as needed, but at a minimum, annually for all facility personnel involved in the generation, transportation, storage and disposal of pharmaceutical and chemotherapeutic waste which meets all EPA, OSHA and DOT training requirements specific to the City of Albuquerque and State of New Mexico.
• Training will be, regulation specific, understandable for the targeted audience, relevant to the daily pharmaceutical and chemotherapeutic waste activities of all individual UNMHS facilities, documented with certificates of completion which must be received no later than 10 calendar days following the date of the training session. A copy of all training materials must be provided to the contact person at each individual UNMHS facility. This training must be performed on site at each of the individual UNMHS facilities.

iii. Containers
• DOT approved containers must be provided in good condition that are color coded and labeled to accept the various waste classifications at the facility level and prevent the commingling of incompatible pharmaceutical wastes
• DOT approved containers must be provided in good condition that are color coded and labeled so that employees at the facility level can separate RCRA regulated chemotherapeutic agents from non RCRA regulated chemotherapeutic agents.
• Adequate labeling of containers to assist facility personnel in the proper segregation of pharmaceutical waste.
• Metal stands must be provided for all containers used for the collection of RCRA and non RCRA regulated chemotherapeutic agents.
iv. Transportation, treatment and/or disposal

- All proposed transporters, transfer/storage/disposal facilities and incineration facilities for all the various pharmaceutical waste types are to be described in detail including:
  - Company name
  - Company address
  - EPA identification number
  - DOT number (for transporters)
  - Required state and/or federal permits
  - Proof of required insurance

v. Other Pharmaceutical and chemotherapeutic waste management requirements:

- An oral presentation should be provided to any individual UNMHS facility that makes this request.
- Vendor is required to assist in implementing a computerized labeling system for use in the hospital Pharmacy department based on a formulary analysis. This will enable all RCRA medications and those meeting NIOSH Hazardous Drug Criteria to be easily identified on a computerized label generated in the hospital pharmacy. All medications must be included in this labeling system.
- Vendor must guarantee that all waste medications are sent for incineration. RCRA medications including RCRA chemotherapeutic agents must be sent to a licensed EPA hazardous waste incinerator for disposal. All other non-regulated medications must be sent to a regulated medical waste (RMW) incinerator for disposal.
- Vendor must demonstrate that they can provide detailed training to all staff especially nurses and pharmacists on all three tours (day, evening and night shift) on the pharmaceutical and chemotherapeutic waste management programs. The training should enable all staff handling medications to easily determine the appropriate bin to use for the disposal of any medications they may handle. The training should also emphasize that no UNMHS facility uses drain disposal or land fill as a disposal option for any medication. Individual training certificates must be presented to the contact person at each UNMHS facility within 10 days of the training session for distribution to staff.
- Training should also include a description of all RCRA chemotherapeutic agents based on an ongoing formulary analysis being performed. Chemotherapeutic agents that are RCRA regulated must be collected separately and sent for disposal at a licensed RCRA hazardous waste incinerator. All other chemotherapeutic agents must be collected separately and disposed of at a licensed, regulated medical waste (RMW) incinerator.
- Vendor must implement an effective pharmaceutical waste management program that ensures all non-regulated medications such as:
  - Formulations with a Listed Active Ingredient that is Not the Sole Active Ingredient
o All non-RCRA Chemotherapeutic Agents
o Drugs Listed in Appendix VI of OSHA Technical Manual
o Drugs with LDS0s Less Than or Equal to 50 mg/kg
o Carcinogenic Drugs
o Combination Vitamin/Mineral Preparations with Heavy Metals
o Endocrine Disruptors
o DEA medications that have been rendered inactive and irrecoverable
o All other non-regulated medications are collected in bins or in another appropriate manner in all areas throughout the facility where they are generated. They must subsequently be sent for incineration at a regulated medical waste (RMW) incinerator. It is extremely important that this type of waste is classified and managed as non-RCRA since it could otherwise result in a change to the EPA generator status (CESQG, SQG, LQG) of an individual UNMHS facility.

vi. Vendor must provide annual refresher training on the pharmaceutical & chemotherapeutic waste management programs to all staff handling medications on all three tours (day, evening and night shift). Individual training certificates must be presented to the contact person at each UNMHS facility within 10 days of the training session for distribution to staff.

vii. Vendor must monitor the pharmaceutical and chemotherapeutic waste management programs at all UNMHS facilities and provide a bi-annual written report on the effectiveness of the program at all UNMHS hospitals after it has been successfully implemented. This written report will also include the detailing of any EPA, OSHA or DOT compliance issues related to the pharmaceutical and chemotherapeutic waste disposal programs at all individual UNMHS facilities.

viii. Assist individual UNMHS facilities by reviewing their current disposal practices of RCRA to include waste characterization, facility generator status, required EPA registration requirements based on generator status, storage area compliance, segregation compliance, packaging and labeling compliance.

ix. Provide on-site waste technicians who must provide daily pick up service of all RCRA and non RCRA pharmaceutical and chemotherapeutic wastes from facility wide patient care areas. All waste technicians performing this job must be provided with all required training to include RCRA hazardous waste training that is specific to his/her job description. A copy of all training certificates and a copy of the training material must be provided to the contact person at each UNMHS facility.

x. Vendor will provide emergency contact information for 24-hour pharmaceutical and chemotherapeutic emergency response. Service must be provided within 4 hours of vendor receiving request from UNMHS.

xi. Vendor must provide to their drivers or the drivers employed by any sub contracted vendor a list of all employees at each individual UNMHS facility who are current with DOT training requirements. The driver must then ensure
that only individuals from this list of DOT trained employees print and sign their names on manifests used to transport pharmaceutical and/or chemotherapeutic waste.

UNMHS reserves the right to negotiate with a successful Offeror (Contractor) provisions in addition to those stipulated in this RFP. The contents of this RFP, as revised and/or supplemented, and the successful Offerors’ proposal may be incorporated into the Contract. Should an Offeror object to any of the UNMHS Standard Terms and Conditions the Offeror must propose specific alternative language that would be acceptable to UNMHS. General references to the Offerors’ terms and conditions or attempts at complete substitutions are not acceptable to UNMHS and will result in disqualification of the Offerors’ proposal. Offerors must provide a brief statement of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording.

Any proposed changes to the terms and conditions attached to this RFP must be stated in Offerors’ proposal in a Section marked “TERMS AND CONDITIONS”. Offerors are cautioned that any changes to the terms and conditions that are NOT stated in the RFP response will not be entertained by UNMHS at a later date. Any provisions in any proposal, quotation, acknowledgment or other forms or contract documents applicable to the services that are inconsistent, or in conflict, with any provisions of this RFP or the resultant contract will be ineffective and inapplicable.

UNMHS reserves the right to reject a proposal on the basis the compromising language cannot be accepted by UNMHS. Any additional terms and conditions which may be the subject of negotiation will be discussed only between UNMHS and the successful Offeror and shall not be deemed an opportunity to amend the Offeror’s proposal.

Service Provider shall provide such other information, including a written report, as reasonably requested by Institution.

_Indemnity:_ Service Provider shall defend and hold Institution harmless from all claims, liabilities, damages, or judgments involving a third party, including Institution’s costs and attorney fees, which arise as a result of Service Provider’s failure to meet any of its obligations under this Purchase Order/Agreement.

   Note: Inclusion of data by students into the terms of the contract will depend upon the contract and may not be needed."

52. **PUBLIC INFORMATION.** All information, except that classified as confidential, will become public information at the time that the RFP is awarded. Confidential information must be marked “CONFIDENTIAL” in red letters in the upper right-hand corner of the pages containing the confidential information. Price and information concerning the specifications cannot be considered confidential. (UNMHS Purchasing Regulations 11.6.3.)

53. **PURCHASE ORDER/AGREEMENT.** Any resultant Purchase Order/Agreement shall be the sole and entire Purchase Order/Agreement between the parties; any documents incorporated into the Purchase Order/Agreement are listed explicitly on the front side of the Purchase Order/Agreement or are incorporated by implication by the terms of any resultant Purchase Order/Agreement. Any terms inconsistent with or in addition to any resultant Purchase Order/Agreement proposed by Seller are deemed rejected unless agreed to in writing by an appropriate University official.

54. **RELATIONSHIP OF PARTIES.** The parties and their respective employees are at all times acting as independent Offerors. Offeror will not be considered an employee of UNMHS for any purpose, including, but not limited to, workers’ compensation, insurance, bonding or any other benefits afforded to employees of UNMHS. Neither party has any express or implied authority to assume or create any obligation or responsibility on behalf of or in the name of the other party.

55. **RELEASE UNMHS REGENTS.** The Contractor shall, upon final payment of the amount due under the contract release Regents of the University of New Mexico Hospitals, their officers and employees and the State of New Mexico from liabilities, claims and obligations whatsoever arising from the contract. The Contractor agrees not to purport to bind the University of New Mexico Hospitals or the State of New Mexico to any obligation not assumed in the contract by the Regents of the University of New Mexico Hospitals or the State of New Mexico unless the Contractor has express, written authority to do so, and then only within the strict limits of that authority.
56. **REMOVAL OF OFFEROR’S EMPLOYEE(S).** UNMHS may request that Offeror’s employee(s) be removed from the work under the contract for cause. The UNMHS may immediately terminate, with written notice to Offeror, the services of any Contactor employee, if the University of New Mexico’s management believes in good faith that Offeror’s employee is unable to perform the services with reasonable skill. Offeror’s agreement may also be terminated if Offeror’s liability insurance coverage is modified or terminated.

57. **REQUEST AS AGREEMENT:** This Request for Proposal governs any offer and the selection process. Submission of an offer in response to this Request for Proposal constitutes acceptance of all this Request’s terms and conditions. The terms and conditions of the Request may not be modified, altered, nor amended in any way by any Offer. Any such modification, alteration, or amendment shall be a request for modification, alteration or amendment, which request shall be deemed denied unless specifically accepted in writing by UNMHS. Upon issuance of a Purchase Order, this Request shall be superseded, unless it is referenced on the front page of the Purchase Order, in which case it shall be deemed to be fully incorporated and integrated into the resultant contract.

58. **RETENTION OF RECORDS.** Contractor will maintain detailed records indicating the date, time and nature of services provided under the Agreement for a period of at least five years after termination of the Agreement and will allow access for inspection by the University of New Mexico Hospitals, the Secretary for Health and Human Services, the Comptroller General and the Inspector General to such records for verifying costs associated with provisions of services under the Agreement.

59. **RIGHT TO PROTEST.** The solicitation of the award of an RFP/Invitation for Bid (IFB) may be protested as per the UNMHS Purchasing Regulation 11, Protest Procedures, which may be found at the following UNMHS web site: [http://www.UNMHS.edu/~purch/reg11.pdf](http://www.UNMHS.edu/~purch/reg11.pdf).

60. **RIGHT TO WAIVE MINOR IRREGULARITIES.** The UNMHS Evaluation Committee reserves the right to waive minor irregularities. The UNMHS Evaluation Committee also reserves the right to waive mandatory requirements if all of the otherwise responsive proposals failed to meet the same mandatory requirements and the failure to do so does not otherwise materially affect the procurement. This right is at the sole discretion of the UNMHS Evaluation Committee.

61. **SCHEDULE DELAYS.** If after the award, the Seller becomes aware of possible problems that could result in delay in completion of the work on the agreed-to schedule; the Seller must immediately notify the Buyer or the designated representative. The initial notification of the delay may be verbal with a written confirmation, giving the probable cause and effect, with recommendations for alternate action. Nothing in this paragraph will be interpreted as relieving the Seller of its contractual obligations; however, failure to notify UNMHS promptly will be basis for determining the Seller responsibility in an otherwise excusable delay.

62. **SELLER’S EMPLOYEES AND AGENTS.** Seller shall have complete charge and responsibility for persons employed by Seller and engaged in the performance of the specified work. The Seller, its agents and employees state that they are independent contractors and not employees of the University. Seller, its agents and employees shall not accrue leave, retirement, insurance, bonding or any other benefit afforded to employees of the University because of any resultant Purchase Order/Agreement.

63. **SITE FAMILIARITY.** The Seller shall be responsible for thoroughly inspecting the site and work to be done prior to submission of an offer. The Seller warrants by this submission that the site has been thoroughly inspected and the work to be done and that the offer includes all costs required to complete the work. The failure of the Seller to be fully informed regarding the requirements of this Request will not constitute grounds or any claim, demand for adjustment or the withdrawal of an offer after the opening.

64. **SITE INSPECTION.** The site(s) referenced in this RFP are available for inspection. Arrangements may be made by contacting the individual listed on the cover sheet.

65. **STATE AND LOCAL ORDINANCES.** The Seller shall perform work under the resultant contract in strict accordance with the latest adopted version of all State and local codes, ordinances, and regulations governing the work involved. All materials and labor necessary to comply with the rules, regulations and ordinances shall be provided by the Seller. Where the drawings and/or specifications indicate materials or construction in excess of the code requirements, the drawings and/or specifications shall govern. The Seller shall be responsible for the final execution of the work to meet
these requirements. In the event of a conflict between various codes and standards, the more stringent shall apply.

66. STATE AND LOCAL ORDINANCES. The Offeror shall perform work under this contract in strict accordance with the latest adopted version of all State and local codes, ordinances, and regulations governing the work involved.

67. TAX SEGREGATION (CONSTRUCTION RELATED PROJECTS). In the performance of construction related services under this solicitation, the Seller agrees to work with and cooperate with the University’s Tax Cost Segregation Consultant. The University’s tax cost segregation consultant will be responsible for coordination, oversight and analysis of the effective application of New Mexico Gross Receipts Tax for each general Offeror involved with the construction projects at UNMHS. Such services of the segregation consultant will be performed in accordance with New Mexico Statutes and relative regulations governing the application of New Mexico gross receipts tax to tangible personal property acquisition made by UNMHS for various construction projects.

68. TERMINATION AND DELAYS. The University may by written notice stating the extent and effective date, terminate any resultant Purchase Order/Agreement for convenience in whole or in part, at any time. The University shall pay Seller as full compensation for performance until such termination: (1) the unit or pro rata order price for the delivered and accepted portion; and (2) incidental damages, not otherwise recoverable from other sources by Seller, as approved by the University, with respect to the undelivered or unaccepted portion of any resultant Purchase Order/Agreement provided compensation hereunder shall in no event exceed the total contracted price. Such amount will be limited to Seller's actual cost and may not include anticipated profits. The University shall not be liable for consequential damages. The University may by written notice terminate any resultant Purchase Order/Agreement in whole or in part for Seller's default if Seller refuses or fails to comply with the provisions of a resultant Purchase Order/Agreement or fails to make progress to endanger performance and does not cure such failure within a reasonable period. In such event, the University may otherwise secure the materials, supplies or services ordered, and Seller shall be liable for damages suffered by the University thereby, including incidental and consequential damages. If after notice of termination, the University determines Seller was not in default, or if Seller's default is due to failure of the University, termination shall be deemed for the convenience of the University. The rights and remedies of the University provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under a resultant Purchase Order/Agreement as used in this paragraph, the word “Seller” includes Seller and Seller’s sub-suppliers at any tier.

69. THIRD PARTIES. Nothing in this Agreement, express or implied, is intended to confer any rights, remedies, claims, or interests upon a person not a party to this Agreement.

70. TITLE AND DELIVERY. Title to the materials and supplies passed hereunder shall pass to the University upon acceptance at the FOB point specified, subject to the right of the University to reject. For any exception to the delivery date specified, Seller shall give prior notification and obtain approval thereto from the University's Purchasing Department. Time is of the essence and the Purchase Order/Agreement is subject to termination for failure to deliver on time.

71. WAIVER. The Contract shall contain a provision that states that no waiver of any breach of the Contract or any terms or conditions thereof shall be held to be a waiver of any other or subsequent breach; nor shall any waiver be valid, alleged or binding unless the same shall be in writing and signed by the party to have granted the waiver.

72. WARRANTIES. Seller warrants the goods and/or services furnished to be exactly as specified in any resultant Purchase Order/Agreement, free from defects in Seller's design, labor, materials and manufacture, and to follow any drawings or specifications incorporated herein and with any samples furnished by Seller. All applicable UCC warranties express and implied are incorporated herein.

73. WARRANTY: Please state the warranty for equipment to be supplied under this RFP. A copy of the warranty should be included in your submission.

74. WORKERS COMPENSATION. No workers compensation insurance has been or will be obtained by UNMHS on account of Seller or its employees or agents. Seller shall comply with the workers compensation laws with respect to Seller and Seller's employees and agents.
75. WORKMANSHIP/COOPERATION. All work shall be done in a neat, workman-like manner using acceptable equipment and methods consistent with that level of care and skill ordinarily exercised by members of the profession/trade and in accordance with sound professional/trade standards and ethical practice. The Seller will cooperate with the University and other contractors and coordinate their work involving other contractors through the University’s authorized representative.
