## Criteria for Organ Failure Based on Marshall Scoring System

| ORGAN SYSTEM   | SCORE |                       |                       |             |             |
|--|-------|-----------------------|-----------------------|-------------|-------------|
|  | 0     | 1                     | 2                     | 3           | 4           |
| Respiratory<br>(PaO <sub>2</sub> /FiO <sub>2</sub> ) | >400  | 301 - 400             | 201 - 300             | 101 - 200   | <100        |
| Renal<br>(Serum Creatinine,                          | ≤1.5  | >1.5 - ≤1.9           | >1.9 - ≤3.5           | >1.9 - ≤5.0 | >5.0        |
| Cardiovascular<br>(SBP, mm Hg)                       | >90   | <90, fluid responsive | <90, fluid responsive | <90, pH<7.3 | <90, pH<9.2 |
