

Apple Mobile Email Setup

1. Tap Settings > Passwords & Accounts > Add Account.
2. Tap Exchange.
3. Type the information requested in the Email, Password, and Description boxes. You need to type your full email address in the Email and Username boxes; for example, {username@domain}.
4. Tap Next on the upper-right corner of the screen.
5. In the Server box, enter the server name HSCLink.health.unm.edu
6. In the Domain box, enter Health.
7. In the Username and Password boxes enter your email username and password and then tap Next.
8. Choose the type of information you want to synchronize between your account and your device, and then touch Save. By default, Mail, Contacts, and Calendar information are synchronized.
