

<b>Emergency Transport <u>Time Critical</u></b>	<b>Emergency Transport <u>Non-Time Critical</u></b>	<b>Routine Transport</b>
1) Lifeguard (helicopter) 2) PHI (helicopter) 3) TriState Care Flight (helicopter) 4) Rio Rancho Fire (ALS) 5) AAS (ground ALS or CCT)	1) Superior or AMR 2) AAS	1) Superior or AMR 2) AAS

The choice of transportation modality and service is *always* at the discretion of the sending physician. Especially for the time critical patients, consider the risks, benefits and costs of each service. If possible, discuss these issues with the patient and consider their input in your decision.

Program	Location (Closest)	Ambulance (A) Fixed-wing (F) Rotor Wing (R)	Anticipated response time to SRMC if available	Destination (in-state, out of state, max. radius;	Contact phone number	Critical Care Transport (Y/N)?
