

Paramedic Program Handbook

Welcome from the Program Director

On Behalf of the faculty and staff, welcome to the University of New Mexico School of Medicine EMS Academy. The EMS Academy is one of the country's premier EMS education and training centers offering a Bachelor Degree in EMS, advanced medical training in Austere and Mountain Medicine, specialty courses in various EMS disciplines, and certificate courses supporting the community, particularly the rural areas of the state. The EMS Academy faculty comprises highly qualified professionals dedicated to advancing EMS through a commitment to quality education, and exceptional patient care.

I congratulate you for choosing EMS as a profession. EMS provides you with the opportunity to serve those most in need of assistance, while having the satisfaction of being a part of one of the most dynamic and exciting fields available. Helping people with empathy, and a high level of expertise will be your calling card. Many will call you a hero not because you can catch a ball or act in a movie, rather it will be because you saved the life of a mother, father or child. You will, quite literally, be the face of hope for the hopeless, peace for the tormented, and comfort for the terrified. I challenge you in your training and beyond, to act with integrity, empathy and compassion in this vital role of the EMS professional.

The purpose of this handbook is to provide information and policies covering all EMS Paramedic Courses at the EMS Academy. You may receive syllabi for individual EMS courses/blocks separately. We look forward to working with you throughout the program.

The UNM School of Medicine, EMS Academy reserves the right to make changes to any of the policies, procedures, codes, standards, requirements or services included in this handbook as it deems necessary, with the changes applicable to all students in attendance at the EMS Academy.

Pete LeBlanc, Program Director

Welcome from the Medical Director

Welcome to the EMS Academy. Our unique institution is part of the Department of Emergency Medicine in the UNM Health Sciences Center School of Medicine. Our faculty are local, regional and national leaders in EMS and EMS education. Collectively we are involved in all aspects of prehospital care including, but not limited to, education, medical direction, direct field care, research and system development. In every class you will benefit from this breath of expertise and experience.

You will be challenged to excel by our expert instructors and staff. In EMS we often enter our patient's lives at the worst possible times, and may ultimately be responsible for their outcome, so we must maintain the highest ethical, professional and academic standards. The reward, for those who are able to make it through, is an amazing opportunity to help our communities.

Student Resources

Students with Disabilities

Students with a diagnosed disability, who need accommodations for learning and/or testing, must maintain current documentation in the Office of Academic Resources and Support (OARS). OARS will guide students through the process of acquiring services and suggesting relevant accommodation formats, (e.g., laptop computer and printer instead of handwriting patient notes). An HSC advisory committee evaluates the necessity for and appropriateness of accommodation requests to assist students in meeting the technical standards necessary for earning the Paramedic training and Certifications. Our technical standards can be found in the UNM EMS Academy Policy book under Technical Standards for Admission, Continuation, and Completion certification. If you have been diagnosed with a disability that requires an academic adjustment, please contact:

Pam DeVoe, PhD, Director, OARS at 272-8972, pdevoe@salud.unm.edu, she will direct you to the appropriate offices: Joan Green, MA, Director, Accessibility Resource Center at 277-3506, JEGreen@unm.edu or Cheri Koinis, PhD, HSC liaison, at 272-5042, CKoinis@salud.unm.edu.

Supplemental Instructor (tutor) Program (Main Campus Only)

The Supplemental Instructor (SI) program provides instructional support for the Paramedic School Curriculum through facilitated group-learning sessions. The SI's work closely with the EMS Academy faculty members involved with instructing the Paramedic Class and is assigned to study sessions throughout the week to support the students in their paramedic education. Additional assistance and tutoring is available outside classroom hours by making an appointment directly with an SI.

Student Organization

The EMS Academy has a student organization through UNM called Students of Emergency Medical Services. This organization is open to all current students and alumni. The purpose of the organization is to provide a supportive community through mentorship and peer guidance for those students interested in pursuing an education in Emergency Medical Services. Students interested in joining should contact sems@unm.edu. The organizations website is: <https://unm-community.symplicity.com/index.php?tab=profile>.

Tuition and Fees

Students are required to pay to the UNM Bursar's office the current published tuition rate, EMS tuition differential and fees for all courses. To get a list of the current rates students can refer to the Bursar's office website: <https://bursar.unm.edu/tuition-fees/tuition-and-fee-rates.html>. The Bursar's Office sets University of New Mexico policy for tuition refunds, financial holds, delinquent accounts and other related issues.

Financial Aid

Our financial aid office will assist students in navigating the process for obtaining financial support for their medical education. Financial aid is not available for all students. A comprehensive Financial Aid Handbook is available in the SOM Financial Aid Office, All Financial Aid Offices are located in Room 130A of the Health Sciences Library & Informatics Center (HSLIC) (505)272-8008. Questions regarding financial aid should be directed to the SOM financial aid office. Website: <https://hsc.unm.edu/academicaffairs/financialaid/som/index.html>

Student Academic Records

The EMS Academy maintains an academic record for each student in accordance with FERPA and NMAC. The record contains recorded academic work, grades and narrative evaluations submitted by faculty for academic work completed. The file is available for student review during regular working hours (Monday-Friday 0800-1700) with advance request.

Statement of Non-Discrimination

The University of New Mexico Department of Emergency Medicine is committed to providing equal educational opportunity and creating and maintaining an atmosphere free from all forms of discrimination and harassment.

University of New Mexico policy and Federal and State law forbid unlawful discrimination on the basis of race, color, religion, national origin, physical or mental disability, age, sex, sexual preference, gender identity, ancestry, medical condition, or spousal affiliation in the provision of educational programs. Also, University policy and Federal and State law forbid sexual harassment. The University's Sexual Harassment Policy can be found at in the UNM Business Policy Manual, Policy #3780, online at <http://www.unm.edu/~ubppm/ubppmanual/3780.htm>.

The University of New Mexico's Office of Equal Opportunity (OEO) is where to go if you have a question, problem, or claim of discrimination or sexual harassment. The mission of OEO is to promote equal access and treatment for all and to promote an environment free of discrimination and inequity in accordance with University values and policies and with federal and state equal opportunity and affirmative action statutes and regulations

Any EMS student who has concerns about discrimination or sexual harassment may, if he or she chooses to, talk with his/her academic advisor, instructor, the EMS Academy Director and/or the Chair of the Department of Emergency Medicine. Students can also report their concerns directly to OEO. Under University of New Mexico policy, OEO is the only department on campus authorized to investigate a claim of unlawful discrimination or sexual harassment. OEO is located on the main campus at 609 Buena Vista NE; the telephone phone number is (505) 277-5251. Students can also access information on the OEO website, including how OEO responds to claims of discrimination and sexual harassment (OEO Claims Procedures) as well as Frequently Asked Questions about discrimination/sexual harassment. OEO's website is: <https://oeo.unm.edu/>.

Parking and Transportation Expenses and Liability

As a student, you will be expected to pay for parking and transportation expenses for all class related activities. Some clinical sites provide parking free of charge or at a discounted rate. The University assumes no responsibility for damage to any student's vehicle or injuries that may occur during transportation to and from class related activities.

Library Facilities

Health Sciences Center Library <https://hslic.unm.edu/>
(hours subject to change)
Monday - Thursday: 7am - 11pm Friday: 7 am - 6 pm
Saturday: 9:30 am - 6 pm Sunday: 12 noon - 11 pm

Library Info Desk: 505-272-2311

HSC IT Support: 505-272-1694

EMS Academy Committees

Promotions and Evaluation Committee (PEC)

The Promotions and Evaluation Committee (PEC) is comprised of faculty, staff, and administrators from around the UNM Health Sciences and Main Campus. Membership in this committee is by selection of the EMS Programs Director, for individuals that fill specific roles within the University. The PEC is responsible for tracking students' progress throughout the EMS Academy's offerings.

The Paramedic program student's progress will be evaluated by the PEC at the end of the first semester (phase 1), at the end of the second semester (Phase 2), and at program completion, for the purposes of recommending student promotion (advancement to the next semester, internship, and completion certification). Students' promotion evaluation will be based on successful completion of all academic and clinical requirements of the program, Faculty Assessment, and compliance with all Academy policies. Promotion to the next phase of the program is not automatic.

This committee also convenes regularly to evaluate the progress of the students enrolled in the Academy and to address any obstacles that are preventing a student from completing their program. This committee will also be convened periodically to make decisions in regards to imposing any corrective and/or adverse action in response to deficiencies in performance and professionalism.

In general all requests from students for leaves of absence, the imposition of corrective and/or adverse action, and student requests for deviations from the curriculum, are considered by the PEC.

Admissions Committee

The admissions committee is comprised of faculty, staff and administrators from the Department of Emergency Medicine, or Satellite personnel as selected by the Paramedic Program Director or EMS Academy Director. The Admissions Committee evaluates applicants to the Academy's Paramedic programs and decides who will be admitted into each of the programs. Committee members differ between cohorts and satellites.

Required Training

HIPAA Training

The Health Insurance Portability and Accountability Act (HIPAA) requires all health care organizations to ensure privacy and security of patient information. UNM Health Sciences Center offers a HIPAA training course through the Online Training Center. You will need to log in to Learning Central to complete the training modules. Use of Internet Explorer is highly recommended. When you have completed your training, print out a copy of the certification that you have completed the course and bring it to the Academy Administrative staff.

Website: <https://learningcentral.health.unm.edu/plateau/user/login.jsp>

- From the left hand menu select Current Students | HIPAA Training
- Click on the link to the Online Training Center.
- Under Course Login enter your Social Security number.

UNM EMS Academy Paramedic Programs Handbook 2018

- Select My Courses to select courses and begin training.
- Select HSC HIPAA Clinical Student.
- Select HIPAA Compliance and Patient Confidentiality modules to complete required training.

Blood Borne Pathogens (OSHA Training) Requirement

All students are required to attend a Blood Borne Pathogen presentation (OSHA training) addressing universal precautions that should be observed to prevent contact with blood and other potentially infectious materials in the clinical setting. The training will be provided in your EMS course.

<https://learningcentral.health.unm.edu/plateau/user/login.jsp>. When you have completed your training, print out a copy of the certification that you have completed the course and bring it to the Academy Administrative staff.

- From the left hand menu select Current Students | Blood Borne Pathogens Training
- Click on the link to the Online Training Center.
- Under Course Login enter your Social Security number.
- Select My Courses to select courses and begin training.
- Select HSC HIPAA Clinical Student

Required Insurance and Documentation

Health Insurance

All students are required to subscribe to a comprehensive health insurance program that covers the major expenses of health care. Students may elect a health insurance plan available to students of the University of New Mexico if that is an option, or may purchase a comparable plan with another company. Proof of insurance coverage must be provided upon acceptance into the program and on an annual basis, or when a change of insurance occurs, to remain a student of record. Failure to carry coverage or provide proof of insurance will result in removal from the curriculum until such documentation is received by the EMS Academy. The Paramedic Program Director or EMS Academy Director reserves the right to request proof of medical insurance from any student, at any time during the paramedic program.

Blood / Body Fluid Exposure Needle-Stick: Insurance

Insurance coverage for body fluid and blood-borne pathogen exposure is mandatory for all School of Medicine students who are at risk, which includes all paramedic students. Coverage is provided through UNM Safety and Risk services, by a 3rd party vendor. Your coverage is included in your tuition or course cost.

Medical Care

Student Health and Counseling (SHAC)

SHAC is a comprehensive outpatient health care service for UNM students. SHAC is located on the main campus north of Johnson Center and across the mall from (east of) the Student Union Building (SUB). Limited patient parking is available behind Student Health & Counseling. Students may obtain parking permits from the SHAC Reception Area, Counseling Services, or the Pharmacy. SHAC provides medical care, counseling and therapeutic services, and health education. SHAC is open Monday through Friday from 8 am to 5 pm. (On Tuesdays, SHAC is closed from 8 to 9 am.)

Medical services include primary medical care by appointment and a Walk-in Clinic. Specialty consultations are also available in allergy, dermatology, internal medicine, nutrition, physical therapy, podiatry, psychiatry, and surgery. There are separate Women and Men's Health Services,

UNM EMS Academy Paramedic Programs Handbook 2018

plus an Allergy & Immunization Clinic which offers routine and travel immunizations. All patient information is held in strict confidence. Student Health and Counseling (SHAC) services are available to all currently enrolled UNM students. For information on health insurance and fees for services, please visit the SHAC website, listed below. For more information, call Student Health & Counseling at 277-3136. Website: <https://shac.unm.edu/index.html>

Immunizations

Consistent with the recommendations of the Centers for Disease Control, all EMS students are required to present proof of immunization or immunity to measles, mumps, rubella, polio, hepatitis B (along with Hepatitis B completion titer), and varicella. In accordance with CDC guidelines, students should also have boosters for diphtheria/tetanus (Td) or tetanus, diphtheria, pertussis (Tdap), as well as influenza. All of these immunizations and/or titers are available at the UNM Student Health & Counseling (SHAC) Immunization Clinic. A comprehensive list of requirements will be provided upon acceptance to the program. The EMS Academy Operations Specialist will track requirements, failure to complete requirements by the assigned deadline will result in dismissal from the course.

If you plan to obtain your immunizations and titers somewhere other than SHAC, please bring all of your records and labs to the SHAC Immunization Clinic. The SHAC nurses will complete your Immunization Requirements form. You are responsible for maintaining your records of immunization, and making sure current ones are on file with the EMS Academy Paramedic Program Administrator once you begin the Paramedic Program.

*SHAC services are only available to students enrolled in UNM for academic credit. Non-credit students will obtain the requirements through a provider of their choice.

EMS Academy Curriculum

Attendance

Student attendance is required at all scheduled classes, mandatory study sessions, labs, clinical assignments and internship. Students may be dropped from the course for excessive absences or tardiness of any kind. Refer to the Paramedic Program Tardy and Absentee Policy.

Course Grading

A	95-100%	C+	77-79%
A-	90-94%	C	73-76%
B+	87-89%	C-	69-72%
B	83-86%	D	65-68%
B-	80-82%	F	<65%

Students must maintain a minimum of a 73% in every course to be eligible for promotion to the next semester/clinicals and/or receive an end Program completion certification for licensure.

Paramedic Training

The EMS Academy's paramedic program prepares students to become leaders in EMS. The Program will prepare you to become a skilled clinician, a competent leader, and a teacher to others. The rigorous curriculum will prepare you to take the National Registry of EMTs paramedic-level examination, and you will meet New Mexico paramedic licensure requirements by the successful conclusion of the course. The EMS Academy is nationally accredited by the Committee on Accreditation for Allied Health Education Programs and our paramedic program and satellites range between approximately 1280 and 1500 hours

Program Objectives

At the completion of this program, we expect that you will be able to:

1. Adhere to the highest standards of professionalism in all duties as an EMS specialist.
2. Perform the roles and responsibilities of a paramedic within an EMS system.
3. Demonstrate a "patient first" attitude that consistently demonstrates selfless responsibility and compassion.
4. Demonstrate expertise in all of the required basic, intermediate, and paramedic competencies.
5. Integrate principles of the medical sciences with a systematic and thorough assessment to formulate a differential diagnosis, and develop and implement an effective management plan for all patients.
6. Perform as the team lead on any call, safely manage the scene, and direct good patient care.

Paramedic Program Goal

To prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician and/or Emergency Medical Responder levels.

Learning Domains/Satisfactory Progress

All students are expected to make satisfactory progress in all facets of the paramedic program. The cognitive, psychomotor and affective learning domains are continuously assessed. Students not making satisfactory progress may be provided coaching documents or corrective action plans and may be evaluated by the PEC for possible corrective or adverse action. Students must meet the following conditions to meet satisfactory progress in the program:

- Students must achieve/maintain a minimum grade of C (73%) in every course/block/high-stakes exams.
- Students must demonstrate competency in all practical skills. This will be demonstrated by periodic testing in-house, as outlined in the course syllabus or annex, and at the practical examinations.
- Students must maintain proper affective domain, as reinforced by the EMS Academy's professional conduct policy.
- Students must meet all clinical education requirements of the program to be eligible for a course completion certificate.
- Students must maintain current New Mexico EMS licensure at the EMT -B or EMT - I level throughout the program.
- Students must maintain a current card for CPR at the healthcare provider level.

Paramedic Clinical and Capstone Field Internship

Clinical Compliance requirements

Students are required to complete all requirements in each area to deem them eligible to complete clinicals and internship by the designated deadline. These include but are not limited to 10-Panel UA, NM Care Givers Criminal History Screening Program Background Check, required immunizations.

Clinical Experiences

Additional program standards, procedures and requirements apply to both hospital and prehospital clinical experiences, including the field experience and capstone field internship. These standards, procedures and requirements are covered separately in the clinical information manual or document which is updated regularly and is specific to the cohort. All clinical coordination, scheduling and assignment will be done by the respective Director/Asst. Director of Clinical Education. Students are not permitted to swap shifts or adjust their schedules without Director approval, additionally students are not able to request "time off" in the program missed shifts are subject to the Tardy and Absenteeism Policy.

Testing

Validated Testing is required by accreditation for all students in the paramedic program. The purpose of validated testing is to assess the student outcomes based on psychometric formulae which judge's entry level competence and uses practice analysis consistent with the national scope entry level for Paramedicine.

- Subject specific/block exams: Students must achieve a minimum overall score of 73 on the EMS Academy exams. Students may retest a maximum of 3 exams, failure of a 4th subject specific/block exam will result in referral to the PEC for dismissal from the program.
- End of Didactic Comprehensive exam (Administered before internship): Students must score at or above the UNM EMS Academy designated cut score (the students will be informed prior to taking the exam). Students may be allowed 1 retest
 - Attempt #1 FISDAP Readiness 3, program cut score 70%
 - Attempt #2 FISDAP Readiness 4, program cut score 73%
- End of Program Comprehensive exam (Administered after successful completion of all clinical and internship rotations): Students must score at or above the UNM EMS Academy designated cut score (the students will be informed prior to taking the exam). Students may be allowed 1 retest
 - Attempts #1 & 2 EMSTesting, cut score 73%
- Students will have two attempts to complete a psychomotor exam/ summative skills evaluation; the Paramedic Program Director may at their discretion allow a 3rd attempt for extenuating circumstances. Students who are entry level competent must be able to demonstrate and correctly complete 90% of the steps in evaluation.
- End of Program Psychomotor Comprehensive exam.
 - Attempts #1 & 2 completed by program personnel. Students who are entry level competent must be able to demonstrate and correctly complete 90% of the steps in evaluation.
 - Students will be debriefed on their failure and given the opportunity to review and practice for their retest.

Students not meeting these testing standards will be referred to the PEC for dismissal from the

UNM EMS Academy Paramedic Programs Handbook 2018
program.

Note: if the student does not satisfactorily complete the testing requirements, the student will be dismissed from the Paramedic program regardless of their academic performance prior to taking the validated test(s).

Completion of EMS Program and Certification/Licensure

To qualify for the EMS program completion certification that is required for Paramedic certification and licensure, the Paramedic Programs Director must certify that that all program requirements have been met. In addition the EMS Academy Medical Director must certify all student's medical competency to practice at the level of their training for state or national certification in accordance with the aforementioned standards. The Medical Director of the EMS Academy and Program Director have the right at any time to evaluate the medical competency of any student. This may include, but is not limited to, lab testing, supervised clinical setting evaluation, ride alongs or any other evaluation format they deem necessary to assure medical competency.

Paramedic students must complete the entire paramedic program within 2 years of beginning the program. After 2 years, if the student has not completed the program, the student must reapply for admission and, if accepted, repeat the entire Program and matriculate into the current catalogue year curriculum.

Successful completion of the paramedic program requires the PEC recommendation or program leadership approval of each student for completion certification, based on the student's performance in all aspects of the Paramedic Program.

Accountability to Employers

Confidentiality

The EMS Academy complies with the federal Family Educational Rights and Privacy Act of 1974 (FERPA). We cannot share non-public information, including grades, about you with any person without your written consent unless permitted by law.

Hours & Pay

The EMS Academy makes no guarantee as to the exact number of hours each week you will be engaged in class activities. The nature of paramedic training is such that, some days/weeks may require shorter or longer attendance than others. Any issues with accountability to your employer for release or paid time must be resolved between you and your employer.

Scope of Practice

Skills beyond the scope of practice of your current level of licensure may only be performed after EMS Academy staff has verified competency in specific skills and only under the direct supervision of a clinical preceptor during your approved clinical rotations. This applies to both hospital and prehospital clinical rotations. Performance of any skills outside the applicable scope of practice, level of licensure, or without appropriate supervision, is grounds for referral to PEC for possible dismissal from the program.

Additional Policies and Expectations

Other applicable policies to Paramedic Students include but are not limited to:

Course or Block syllabi

Course or block expectations are presented at the start of the course or block

UNM EMS Academy Policies Document

Policy on Technical Standards for Admission, Continuation and Graduation

Professional Conduct Policy

Professional Appearance Policy

Tardy and Absentee Policy

Professional Conduct and Test Ethics Policy

Bachelors Program Satisfactory Academic Progress Policy

Inclement Weather Policy

Drug and Alcohol Policy

UNM Health Professional Programs Due Process Policy

This policy governs student appeals

Paramedic Satellite Annexes

Students participating in a paramedic satellite course are subject to the respective annex for that satellite

All Applicable UNM and UNM School of Medicine Policies
