VIRTUAL CONFERENCE

IHS/Tribal/Urban Colposcopy Update and Refresher Course

This one-day virtual course will update the practicing colposcopist on developments related to the practice of colposcopy and the scientific underpinnings of pathophysiology of HPV and preneoplastic diseases of the female lower genital tract.

Local and internationally renowned speakers will address new national guidelines on screening for cervical cancer and management of abnormal results, inconsistency of follow-up among U.S. providers, variations in accessing preventive services by Native American populations and other topics that will keep those interested in lower genital tract disease current.

As in the past, there will be small-group case review sessions with discussion of colposcopic images.

Participants will:

- Describe the relative risks of various HPV genotypes in development of cervical cancer.
- Correctly use the 2019 ASCCP Guidelines to manage abnormal screening tests and biopsy results.
- Distinguish between the American Cancer Society's and U.S. Preventive Services Taskforce recommendations for cervical cancer screening and select appropriate guidelines for their patients.

ACCREDITATION

The University of New Mexico School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of New Mexico School of Medicine designates this live activity for a maximum of **7.00 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

THE MENTORSHIP

Learning to do colposcopy requires at least two educational components, a basic course and a period of hands-on mentorship or preceptorship. In the mentorship the fledgling colposcopist works side by side with an experienced colposcopist until a degree of competency is reached. If you are learning colposcopy for the first time, we encourage arranging the mentorship prior to taking this course.
