

LEARNING ASSOCIATED WITH TEACHING MEDICAL STUDENTS AND RESIDENTS

LEARNING-FROM-TEACHING PLAN

This form documents the rationale and execution of your learning plan. You are encouraged to contact the Office for Continuous Professional Learning (HSC-CPL@salud.unm.edu) for a consultation regarding items 1-3, prior to implementing your teaching activity.

Your name _____ Date _____

1. Identify the gap in knowledge, competence, and/or performance as an educator that your learning plan addresses and the need to address that gap.

2. Describe how this learning project informs or improves your professional practice of teaching. Describe this in terms of new knowledge or a new strategy/practice you developed.

3. Describe what you did to complete this project, including the sources of education information to address your identified gap and why you chose these educational options or formats.

4. Describe the nature of the teaching activity where you applied what you learned.

5. In completing this learning project, please describe:

a. What you learned:

b. What you know or perceive about the impact of this learning project on your learners (students, residents, fellows):

c. The impact this learning will have on you or the system in which you work:

d. The barriers you encountered and how you overcame them:
