Year in BSGP?	
How will the certificate program help you achieve your career goals?	
If you have a scholarly education project in mind, please describe it briefly:	
<p>For BIOM 525 and 530 to contribute to your CUST credit requirements, you need to provide a reflection on what you learned about presenting and teaching from what you remember observing from the speakers in these courses, as well as other speakers/instructors from your academic journey. This can include, but is not limited to, what worked well, what you learned not to do, and how you envision using this experience in your career moving forward, specifically when you teach for your BIOM 542 requirement.</p>	
Research Mentor: (Note: you must have agreement from your mentor to participate in the program.)	
How did you learn about the CUST program?
