PROS

Postdoctoral Research Opportunities *in* Science

Baylor College of Medicine invites senior graduate students to apply for PROS.

THE PROS VIRTUAL EXPERIENCE WILL PROVIDE EACH PARTICIPANT THE OPPORTUNITY TO:

- Meet with prospective faculty mentors and current trainees in labs that match your research interests
- Discover the benefits of pursuing biomedical research in the Texas Medical Center—the largest medical complex in the world
- View extensive research resources that support greater than \$500 million in funded research annually
- Learn about our career development and postdoc support programs
- Chat with postdocs about their experiences and living in Houston – the nation's 4th largest and most diverse city
