

DID YOU KNOW?

Accidents are the #1 cause of serious injuries and deaths to children – and they are **100% preventable!**

Serious childhood injuries often occur even when children are in the care of loving adults.

Injuries are the **leading cause of death** among people ages 1 – 44 in New Mexico, and lead to more deaths than all other diseases combined.

LEARN MORE AT EXPLORA

Explora Science Center and Children's Museum

Saturday, **November 12th**, 10 AM - 5 PM

1701 Mountain Rd NW, Albuquerque, NM 87104

Mention "Injury Prevention" for free entry on Nov 12th!

The UNM Health Sciences Injury Prevention Coalition and Community Partners are here to help!

Connect with us to learn how to protect your child and receive helpful tips and safety products.

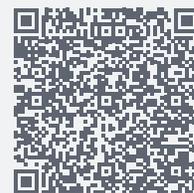

- **Burn prevention:** Come play and learn in Bernalillo County Fire Department's inflatable house!
- **Vehicle safety:** Learn how to install a car seat, and prevent dangerous heatstroke
