

RESOURCE DIRECTORY

**HOBBS New Mexico
Lea County**

Resource Directory Creation Instructions

Objective: Create a resource directory for health care providers at your clinic for the spring semester to assist in addressing the social needs of the patients.

Template: Use the provided template below as a starting point, adding information specific to the community. Note variations in resource availability.

Categories: You may only find one service for a category and three or more for other categories. Please list what you find. In small rural areas, locate the nearest services and provide their contact information.

Community Resources: Think broadly about patient resources, including faith-based community services such as Catholic Charities, Lutheran Services, and the Jewish Funders Network. You are not limited to the categories listed. Please add categories as appropriate for the clinic.

Details: Include any pertinent information, such as specific contact names or relevant details that healthcare providers should be aware of.

Health Care Providers: For dental, eye/vision care, please locate providers who accept sliding fee scale or reduced price such as Federally Qualified Health Centers or providers who accept Medicaid.

Dissemination: Discuss your plan for dissemination of the resource directory to ensure ongoing use within the clinic where you are completing your clinical experience. You might discuss this plan with your preceptor. Please be aware that your resource plan will be published on the UNM College of Nursing website for use by providers and others throughout New Mexico. You want to be as thorough and accurate as possible.

Sharing: Once complete, share the directory with your preceptor(s) so they have a comprehensive list of local services to better serve their patients. Please send a copy of your completed resource directory to Michael Kisner and Dr. Cogil.
