ReSpectacle was designed to be used by people who have no other means of getting life-changing vision correction. In most circumstances, however, we would expect a match from ReSpectacle to be better than no glasses at all.
 - Please visit their website and click "Browse" then enter the prescription given to you by your eye specialist. Browse through the selection of glasses and pick the pair that you like best, which also has a high match percentile. Numbers in green are the best, indicating the closest match to your prescription.
 - Multiple orders are allowed, but they ask that you start with one per person. This will help you gauge whether the prescription is a good fit before committing to multiple pairs. Please note that there is a sitewide limit to daily orders and systems are in place to detect unethical use of our service. There are also shipping and handling cost for glasses ordered.
