

CURRICULUM VITAE
Changjian Feng, Ph.D.

CURRENT POSITION

Professor of Pharmaceutical Sciences
College of Pharmacy
University of New Mexico
Albuquerque, NM 87131-0001
Tel: 505-925-4326 (O). Fax: 505-925-4549
E-mail: cfeng@unm.edu cfeng@salud.unm.edu

EDUCATION

- 1998 Ph.D. in Bioinorganic Chemistry, Institute of Coordination Chemistry, Nanjing University, China
Dissertation Title: Studies on cavity-like poly-aza compounds: 1. Synthesis and luminescent properties of asymmetric lanthanide cryptates; 2. Pulse radiolysis studies on kinetics of catalytic dismutation of superoxide radical by superoxide dismutase mimics.
Advisor: Prof. Qinhui Luo
- 1995 Master of Science in Inorganic Chemistry, Department of Chemistry, Central China Normal University
Thesis Title: Synthesis, characterization and anti-bacterial activity quantification of metal complexes of amino sugar Schiff base
Advisor: Prof. Zishen Wu and Prof. Zifeng Le
- 1992 Bachelor of Science, Central China Normal University, Major in Chemistry, Minor in Education

ACADEMIC APPOINTMENTS

- 2003 – 2005 Research Scientist, Department of Chemistry, University of Arizona, Tucson, AZ
2006 – 2012 Assistant Professor, College of Pharmacy, University of New Mexico, Albuquerque, NM
2012 – 2019 Associate Professor, College of Pharmacy, University of New Mexico, Albuquerque, NM
2019 – Professor, College of Pharmacy, University of New Mexico, Albuquerque, NM
2014 – Adjunct Professor, Department of Chemistry and Chemical Biology, University of New Mexico

PROFESSIONAL EXPERIENCE

- 1998–2000 Postdoctoral Fellow with Professor Yuanzhi Xu, Department of Chemistry, Zhejiang University, Hangzhou, Zhejiang, China
2000–2002 Postdoctoral Research Associate with Professor John H. Enemark, Department of Chemistry, University of Arizona, Tucson, Arizona

HONOR AND AWARDS

- 2020 P-1 Faculty Appreciation Award, UNM College of Pharmacy
2007 Young Investigator Award, Gordon Research Conference on Nitric Oxide
2000 Japan Society for the Promotion of Science Postdoctoral Fellowship (declined; accepted an alternative offer from the University of Arizona)
1999–2000 China Postdoctoral Science Foundation Postdoctoral Fellowship
1999 Asia-Pacific EPR Society Distinguished Service Award

RESEARCH INTERESTS

Our lab is interested in how metal ions play critical structural and functional roles in biological molecules. Our primary research focus is on regulation mechanism of nitric oxide synthase (NOS), a flavo-hemoprotein responsible for biosynthesis of nitric oxide (NO), a ubiquitous signaling and effector molecule in mammalian cell biology. We employ multidisciplinary approaches across the broad fields of chemistry/biochemistry, and physics (including laser flash photolysis, pulsed EPR, and site-directed mutagenesis). Molecular mechanisms of NOS regulation, once fully understood, are potentially key targets for development of selective new pharmaceuticals for treating a wide range of diseases that currently lack effective treatments.

MENTORING OF TRAINEES

I have made a commitment to training at all levels, including junior faculty (3), postdoctoral (7), graduate students (2 as primary mentor), Pharm.D. students (5), and high school students (2) mentees.

Faculty Mentee	Affiliation	Mentoring Program
Charles Melancon	UNM Department of Chemistry and Chemical Biology	Departmental mentoring committee
Gayan Rubasinghege	New Mexico Institute of Mining and Technology	NM INBRE
Yang Qin	UNM Department of Chemistry and Chemical Biology	NM INBRE

MEMBERSHIPS

American Association of Colleges of Pharmacy
American Chemical Society and its Inorganic Division and Bioinorganic Subdivision, Full Member
Society of Biological Inorganic Chemistry
American Heart Association
Nitric Oxide Society
Sigma Xi, Full Member
Chinese-American Chemistry Professor Association

GRANT REFEREE ACTIVITIES

Chair, French National Research Agency, Biochemistry of the Living Committee (2017-2019)
Macromolecular Structure and Function A Study Section (2018)
French National Research Agency, CE11 Panel on biochemistry, biophysics, molecular and structural biology (2016-2017)
External referee for the French National Research Agency (2014-2016)
Special Emphasis Panel/Scientific Review Group ZRG1 F04B-D (2014-2015)
AHA Proteins & Crystallography Committee 1 (2015-2017, 2013, 2011)
Referee for Italian Ministry of Health (2015-2017, 2014, 2013, 2010)
Ad hoc reviewer for NSF (2011)
Research Growth Initiative grants reviewer for University of Wisconsin (2009)

OTHER PROFESSIONAL ACTIVITIES

Editor, Special issue “*Nitric Oxide: Chemistry and Biology*”, *Frontier in Biosciences* (2018)
Editorial Board, *Frontier in Biosciences* (2017-present)
Managing Editorial Board, *Frontier in Biosciences* (2014-present)
Chair, Pathogen Session, *NM-INBRE 9th Annual Symposium*, March 27, 2011

RESEARCH SUPPORT: CURRENT

1. NIGMS R01GM133973-01A1 8/1/2020 – 05/30/2024 \$1,269,589
Defining the conformational control of nitric oxide synthases by a multipronged approach
Defining the conformational aspects (statistics, dynamics, and energy landscape) that govern the obligatory electron transfer steps in NOS.
Role: Principle Investigator
2. 1P20GM130422-01A1 (sub-project ID 7962)
Integrative Molecular Analysis Core, UNM Center for Metals in Biology and Medicine
Enhancing molecular analysis research and formally integrating current UNM Health Sciences Center scientific resources, to foster research training and productivity for mentored investigators.
Role: Director
3. UNM COP Research Pilot Award 1/1/2020 - 12/31/2020 \$15,000
Investigating phosphoserine-incorporated nitric oxide synthases
Role: Principle Investigator

RESEARCH SUPPORT: COMPLETED

1. NIGMS R15GM081811-03 6/1/2016–5/31/2019 (NCE to 5/31/2020) \$454,377
Mechanism of Electron Transfer in Nitric Oxide Synthase
Studying electron transfer mechanism in NOSs.
Role: Principle Investigator
2. NIGMS R15GM081811-02A1 6/1/2012–5/31/2015 (NCE to 5/31/2016) \$332,200
Mechanism of Electron Transfer in Nitric Oxide Synthase
Studying electron transfer mechanism by focusing on a bi-domain construct of NOS.
Role: Principle Investigator
3. NCI 1R15CA173516-01A1 08/01/2013–07/31/2016 \$453,000
Novel Receptor-Targeting Theranostic Peptides for Prostate Cancer
Developing novel prostate cancer-specific theranostic gonadotropin-releasing hormone (GnRH) peptides targeting the GnRH receptors to improve the detection accuracy and enhance the therapeutic efficacy of human prostate cancer
Role: Principle Investigator
4. NSF CHE 8/15/2012–7/31/2014 \$200,000
Mechanism of Nitric Oxide Synthase Regulation by Interdomain FMN/Heme Docking
Studying NOS isoform regulation mechanism by focusing on full length NOS enzymes.
Role: Principle Investigator
5. AHA Grant-in-Aid 7/1/2012–6/30/2014 \$140,000
Control Mechanisms of Nitric Oxide Synthases
Studying how NOS activity is regulated by single and combined phosphorylations that are important in stroke intervention and outcome.
Role: Principle Investigator
6. NM-INBRE P20RR016480 5/1/2009–2/28/2014 \$562,500
Spectroscopic Study of Nitric Oxide Synthase
Investigating electronic and geometric structure of catalytically important NOS intermediates.
Role: Sub-Project (ID 8157) Principle Investigator
7. UNM HSC RAC Grant 4/1/2011–3/31/2012 \$15,000
Regulation of NOS by Alignment of the FMN and Heme Domains
The goal is to study mechanism of NOS regulation by interdomain FMN/heme alignment.
Role: Principle Investigator
8. AHA Grant-in-Aid 7/1/2009–6/30/2011 (no-cost extension to 6/30/12) \$140,000
Structural Spectroscopic Studies of Nitric Oxide Synthases
Investigating structural and functional relationship of nitric oxide synthase isoforms by a combined magnetic circular dichroism (MCD) and electron paramagnetic resonance (EPR) approach.
Role: Principle Investigator
9. NHLBI R21HL091280 1/1/2008–12/31/2009 (no-cost extension to 12/31/11) \$405,000
Regulation of Nitric Oxide Synthase through Formation of the Output State

Investigating mechanism of NOS regulation through determining electron transfer kinetics in the NOS output state of full-length NOS isoforms.

Role: Principle Investigator

10. NIGMS R15GM081811 8/1/2007–7/31/2010 \$225,000
Mechanism of Electron Transfer in Nitric Oxide Synthase
Investigation of electron transfer mechanism in truncated NOS construct, a model of the NOS output state.
Role: Principle Investigator
11. NIGMS 3R15GM081811-01S1 9/1/2007–7/31/2010 \$24,972
Upgrade of a laser flash photolysis spectrometer to spectral mode
Role: Principle Investigator
12. UNM COP Research Pilot Award 1/20/2017- 12/31/2017 \$10,000
Developing new strategies for incorporation of spin label into nitric oxide synthase
Role: Principle Investigator
13. UNM HSC Equipment Funding 12/2008 \$23,980
Purchase of an electrochemical analyzer, which is used to conduct real-time measurements of redox-reactive species (including nitric oxide (NO), glucose, oxygen, H₂O₂, and H₂S).
Role: Principle Investigator
14. UNM HSC Signature Program 12/2008–12/2009 \$10,000
Mechanism of Arsenic-Induced Atherosclerosis through Endothelial Inflammation
Studying mechanistic role of endothelial inflammation in arsenic-induced atherosclerosis.
Role: Principle Investigator
15. PhRMA Research Starter Grant 1/1/2007–12/31/2008 \$60,000
Mechanism of Intrinsic Regulation of Electron Transfer in Endothelial and Neuronal Nitric Oxide Synthases
Elucidation of mechanism of electron transfer processes in constitutive nitric oxide synthase.
Role: Principle Investigator
16. UNM HSC RAC Grant 3/1/2007–2/27/2008 \$4,100
Mechanism of Regulation of Nitric Oxide Synthase
Studying mechanism of nNOS regulation through interdomain electron transfer.
Role: Principle Investigator

CONFERENCE PROCEEDINGS

1. **Feng, C. J.** (2014) P120. Dissecting mechanism of the interdomain FMN to heme electron transfer in nitric oxide synthases, *Nitric Oxide* 42, 121.
2. Masters, B. S.; Roman, L. J.; Martasek, P.; **Feng, C. J.** (2010) Intricacies of nitric oxide synthase structure-function, *Nitric Oxide* 22, S11.
3. **Feng, C. J.**; Ghosh, D. K.; Salerno, J. C.; Guillemette, J. G. (2008) P24. Electron transfer in an inducible nitric oxide synthase coexpressed with N-terminal domains of calmodulin, *Nitric Oxide* 19, Supplement, 48.
4. **Feng, C. J.**; Tollin, G.; Salerno, J. C.; Ghosh, D. K. (2006) P177. Direct measurement by laser flash photolysis of intramolecular electron transfer in two-domain constructs of nitric oxide synthase: The output state for nitric oxide formation, *Nitric Oxide* 14, 75.
5. Enemark, J. H.; Astashkin, A. V.; Raitsimring, A. M.; **Feng, C. J.**; Wilson, H. L.; Rajagopalan, K. V. (2003) Variable frequency pulsed EPR studies of molybdenum enzymes, *J. Inorg. Biochem.* 96, 53.

INVITED ORAL PRESENTATIONS

1. "Dissecting conformational control of nitric oxide synthases by an integrated approach", *Department of Chemistry, University of Montana, Missoula, MT, September 30, 2019.*
2. "Deciphering conformational control of NO synthases by an integrated approach", *Roy J. Carver Department of Biochemistry, Biophysics and Molecular Biology, Iowa State University, Ames, IA, September 13, 2018.*
3. "Conformational control of nitric oxide synthases", *Department of Chemistry, University of Kansas, Lawrence, KS, October 6, 2017.*
4. "Regulation of nitric oxide synthases by conformational dynamics", Colloquium, *Department of Chemistry and Biochemistry, University of Arizona, Tucson, AZ, November 17, 2016.*
5. "Regulation of electron transfer in nitric oxide synthase by conformational dynamics", *European Chemistry Congress, Rome, June 17, 2016.*
6. "Regulation of nitric oxide synthases by conformational dynamics", *The 9th International Conference on the Biology, Chemistry, and Therapeutic Applications, Sendai, Japan, May 20, 2016.*
7. "Elucidating the conformational dynamics and regulatory interactions in nitric oxide synthases", *Pacificchem 2015, Honolulu, HI, December 20, 2015.*
8. "Mechanism of nitric oxide synthase regulation by conformational dynamics", *The 17th International Conference on Biological Inorganic Chemistry, Beijing, China, July 21, 2015.*
9. "Mechanism of nitric oxide synthase regulation", *College of Chemistry, Central China Normal University, Wuhan, China, July 15, 2015.*

10. "Regulation of nitric oxide synthase by conformational dynamics", *College of Chemistry, Huazhong University of Science and Technology*, Wuhan, China, July 16, 2015.
11. "Mechanism of nitric oxide synthase regulation by interdomain interactions", *College of Pharmacy, University of New Mexico*, Albuquerque, NM, October 14, 2013.
12. "Mechanism of nitric oxide synthase regulation by interdomain FMN/heme docking", *NM-INBRE 11th Annual Symposium*, Santa Fe, NM, March 24, 2013.
13. "Combined kinetic and spectroscopic studies of nitric oxide synthases", *NM-INBRE 10th Annual Symposium*, Santa Fe, NM, March 24, 2012.
14. "Regulation of nitric oxide synthase by interdomain electron transfer", *NM-INBRE 9th Annual Symposium*, Santa Fe, NM, March 26, 2011.
15. "Regulation of nitric oxide synthase by electron transfer", *A Flash in Time: A Celebration of the Scientific Career and Contributions of Regents' Professor Gordon Tollin*, University of Arizona, Tucson, AZ, March 12, 2011.
16. "Regulation of nitric oxide synthase", *Department of Chemistry and Biochemistry, University of Texas at Arlington*, March 4, 2011.
17. "Innovative probes of interdomain interactions in nitric oxide synthase", *College of Pharmacy, University of New Mexico*, Albuquerque, NM, November 29, 2010.
18. "Nitric oxide synthase", *School of Chemistry and Chemical Engineering, Jiangsu University*, Zhenjiang, China, November 19, 2010.
19. "Innovative spectroscopic probes of the interdomain FMN-heme interactions in nitric oxide synthase", *NM-INBRE 8th Annual Symposium*, Santa Fe, NM, March 27, 2010.
20. "Innovative probes of the interdomain interactions in nitric oxide synthase", *8th Annual Southwest P450 Meeting*, Navasota, Texas, May 11, 2009.
21. "Regulation of nitric oxide synthase through formation of output state", *Department of Chemistry, Fudan University*, Shanghai, China, May 21, 2008.
22. "Electron transfer in the output state of nitric oxide synthase", *School of Chemistry and Chemical Engineering, Nanjing University*, Nanjing, China, May 19, 2008.
23. "Regulation of nitric oxide synthase through electron transfer", *College of Chemistry, Guangxi University*, Nanning, China, May 15, 2008.
24. "Regulation of nitric oxide synthase through intraprotein electron transfer", *College of Chemistry, Central China Normal University*, Wuhan, China, May 12, 2008.
25. "Direct measurement by laser flash photolysis of intramolecular electron transfer in the output state of nitric oxide synthase", *6th Annual Southwest P450 Meeting*, Navasota, Texas, May 16, 2007.
26. "Electron transfer in nitric oxide synthase", *Department of Chemistry, University of New Mexico*, Albuquerque, NM, February 16, 2007.
27. "Direct measurement by laser flash photolysis of intramolecular electron transfer in a nitric oxide synthase holoenzyme", *Hot Topic Session, 2007 Gordon Research Conference on Nitric Oxide*, Ventura, CA, February 7, 2007.
28. "Recent electron transfer studies on nitric oxide synthase", *Department of Chemistry and Biochemistry, University of Wisconsin*, Milwaukee, May 5, 2006.
29. "Recent studies on electron transfer in sulfite oxidizing enzymes", *Departmental seminar, Department of Chemistry, University of Arizona*, Tucson, AZ, Oct 4, 2005.

30. "Recent flash photolysis studies on sulfite oxidizing enzymes", *Department of Chemistry, Jackson State University*, Jackson, MS, April 25, 2005.
31. "Metal-based antioxidant-functional mimics of superoxide dismutase", *College of Pharmacy, University of New Mexico*, Albuquerque, NM, April 14, 2005.
32. "Flash photolysis studies on intramolecular electron transfer in human sulfite oxidase mutants", *227th ACS National Meeting*, Anaheim, CA, March 30, 2004, INOR-528.
33. "Recent studies on electron transfer in sulfite oxidase", *BCP Journal Club, University of Arizona*, Tucson, AZ, March 13, 2003.
34. "Laser flash photolysis studies on intramolecular electron transfer in sulfite oxidase", *Departmental Seminar, Department of Chemistry, University of Arizona*, Tucson, AZ, February 5, 2002.

POSTERS

1. Huayu Zheng, Jingxuan He, Jinghui Li, Jing Yang, Martin L. Kirk, Linda J. Roman, Changjian Feng. "Generation and characterization of functional phosphoserine-incorporated neuronal nitric oxide synthase holoenzyme", *2019 Gordon Research Seminar & Conference on Proteins*, Holderness, NH, June 14-21, 2019.

TEACHING ACTIVITIES

Spring Semester

Professional curriculum:

Phrm 811 (2018-) Introduction to Pharmacology and Medicinal Chemistry (5 credit hours); lectures on biopharmaceutical properties of drugs, pKa and ionization, chirality, drug receptor interactions, cholinomimetics, anticholinesterases, acetylcholine antagonists and adrenergic agonists

Phrm 710 (2006-2017) Mechanisms of Drug Action I (5 credit hours); lectures on biopharmaceutical properties of drugs, pKa and ionization, chirality, drug receptor interactions, cholinomimetics, anticholinesterases, acetylcholine antagonists and OTC drugs

Phrm 732 (2006-2017) Mechanisms of Drug Action III (5 credit hours); lectures on steroids

Graduate courses:

Phrm 593 (2016, 2009), Pharmaceutical Sciences Seminar Course, **Instructor of Record (IOR)**

Phrm 576 (2012, 2013, 2015), Introductory Pharmacology; **IOR** (2015, 2018, 2019)

Phrm 576 (2018), Molecular and Cellular Pharmacology (graduate pharmacology course); **IOR**

Phrm 580 (2012, 2013, 2015), General Toxicology

Phrm 598 (2011), Cancer Pharmacology

Fall Semester

Professional curriculum:

Phrm 801 (2017-) Applied Biochemistry (3 credit hours); lectures on P450 enzymes

Phrm 820 (2017-) Integrated Pharmacotherapy 1 (3 credit hours); lectures on diuretics and COPD drugs

Phrm 825 (2017-) Integrated Pharmacotherapy 2 (2 credit hours); lectures on antidiabetics and estrogen/progestin agonists

Phrm 731 (2006-2016) Mechanisms of Drug Action II (5 credit hours; **IOR of 2010**); lectures on diuretics and NO-related drugs

Phrm 706 (2006-2016) Foundations of Drug Action (3 credit hours); lectures on P450 enzymes

Graduate courses:

- Phrm 576** (2019, 2018, 2010, 2011), Molecular and Cellular Pharmacology (graduate pharmacology course)
Chem 537 (2010), Bioinorganic Pathways, invited guest lecture “Nitric Oxide Synthase” (chemistry graduate course; Nov. 4, 2010)

ACADEMIC SERVICE

College of Pharmacy, University of New Mexico

- Chair, Research & Scholarship Committee (2020)
Assessment Committee (2020)
Ad hoc PharmD/MS Admission Committee (2019)
Acting Chair, Research & Scholarship Committee (2019)
Vice Chair, Research & Scholarship Committee (2018)
Research & Scholarship Committee (2016-)
Co-Chair of Curriculum and Learning Assessment Committee (2015-)
Review Committee for Research Track Faculty (2019, 2015)
HR Administrator 1 Screening Committee (2014)
Search Committee for Department Administrator (2012)
Scholarship and Awards Committee (2006-2008, 2011, 2012)
Organizational Planning and Evaluation Committee (2010-2014)
Hip Hip Hooray Award Committee (2010-2011)
Scholastic Achievement and Progression Committee (2008-2011)
Search Committee for Senior Medicinal Chemistry Faculty (2007)

Health Sciences Center, University of New Mexico

- Health Sciences Library and Informatics Center (HSLIC) Executive Director search committee (2019-2020)
College of Nursing tenure-track junior faculty search committee (2019-2020)
College of Nursing tenure-track senior faculty search committee (2019-2020)
Biomedical Sciences Graduate Program (BSGP) Curriculum Committee as a BSGP Core Course Director (2018-)
Judge for CVMD Research Day posters (April 1, 2014)
COP representative in task force to address faculty satisfaction issues related to the HR office (2011-2012)
Ad hoc member of BSGP Admission Sub-Committee (2012)
BSGP Steering Committee (2009-2011)
BSGP Qualifying Exam Committee (2009-2011)
BSGP Admission Sub-Committee (2009-2011)
BSGP Student Progression Subcommittee (2010-2011)

American Chemical Society

- Secretary, Central New Mexico Local Section (2011-2014)
Executive Committee, Central New Mexico Local Section (2010-2014)
Interim Secretary, Central New Mexico Local Section (2010)

University of New Mexico

Faculty Senate Graduate and Professional Education (2011-2013)

Department of Chemistry and Chemical Biology, University of New Mexico

Mentoring Committee for Dr. Chad Melancon at University of New Mexico Department of Chemistry and Chemical Biology (2015)

Search Committee for Organic Chemistry Faculty (2010-2011)

Qualifying Exam Committee (Students in Biomedical Science Graduate Program, University of New Mexico)

Jason Rogers (May 26, 2010)

Chen Chen (May 28, 2009)

Russell Carter (May 27, 2009)

Sonya Flores (May 22, 2009)

Marissa Durfee (May 21, 2009)

Doctoral Candidate Committees

Research Proposal Committee for Philip Deenik at Department of Chemistry and Chemical Biology, UNM (December 4, 2019)
(Advisor: Mark Walker)

Doctoral Dissertation Committee for Prakash Basnet at Department of Chemistry and Chemical Biology, UNM (November 9, 2018)
(Advisor: Ramesh Giri)

Doctoral Dissertation Committee for Yongyi Wei at Department of Chemistry and Chemical Biology, UNM (November 6, 2018)
(Advisor: Wei Wang)

Doctoral Dissertation Committee for Xuechen Zhu at Department of Chemistry and Chemical Biology, UNM (April 2, 2018)
(Advisor: Chad Melancon)

PhD Comp Exam Committee for Li Wan at Department of Chemistry and Chemical Biology, UNM (December 13, 2017)
(Advisor: Wei Wang)

PhD Comp Exam Committee for Kunlun Yin at Department of Chemistry and Chemical Biology, UNM (December 13, 2017)
(Advisor: Lina Cui)

Doctoral Dissertation Committee for Guihua Zeng at Department of Chemistry and Chemical Biology, UNM (November 9, 2017)
(Advisor: Fu-Sen Liang)

Doctoral Dissertation Committee for Dominic Kofl Kersi at Department of Chemistry and Chemical Biology, UNM (September 18, 2017)
(Advisor: Martin Kirk)

Doctoral Dissertation Committee for Wubin Gao at Department of Chemistry and Chemical Biology, UNM (July 7, 2017)
(Advisor: Chad Melancon)

PhD Comp Exam Committee for Huayu Zheng at Department of Chemistry and Chemical Biology, UNM (May 2, 2017)
(Advisor: Changjian Feng)

PhD Comp Exam Committee for Yueten Zhang at Department of Chemistry and Chemical Biology, UNM (April 25, 2017)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Keda Hu at Department of Chemistry and Chemical Biology, UNM (April 12, 2017)

(Advisor: Yang Qin)

Doctoral Dissertation Committee for Chenguang Yu at Department of Chemistry and Chemical Biology, UNM (May 10, 2016)

(Advisor: Wei Wang)

PhD Comp Exam Committee for Xuechen Zhu at Department of Chemistry and Chemical Biology, UNM (April 26, 2016)

(Advisor: Chad Melancon)

PhD Comp Exam Committee for Wubin Gao at Department of Chemistry and Chemical Biology, UNM (April 20, 2016)

(Advisor: Chad Melancon)

PhD Comp Exam Committee for Yongyi Wei at Department of Chemistry and Chemical Biology, UNM (December 4, 2015)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Xiaobei Chen at Department of Chemistry and Chemical Biology, UNM (November 25, 2014)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Aiguo Song at Department of Chemistry and Chemical Biology, UNM (April 24, 2014)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Adam Flook at Department of Pharmaceutical Sciences, College of Pharmacy, UNM (March 17, 2014)

(Advisor: Yubin Miao)

Doctoral Dissertation Committee for Yanting Cao at Department of Chemistry and Chemical Biology, UNM (January 30, 2014)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Weimin Xuan at Department of Chemistry and Chemical Biology, UNM (May 7, 2013)

(Advisor: Wei Wang)

PhD Comp Exam Committee for Adam Flook at Department of Pharmaceutical Sciences, College of Pharmacy, UNM (December 6, 2012)

(Advisor: Yubin Miao)

Committee on Studies for Adam Flook at Department of Pharmaceutical Sciences, College of Pharmacy, UNM (August 31, 2012)

(Advisor: Yubin Miao)

Research Progress Committee for Xiaobei Chen at Department of Chemistry and Chemical Biology, UNM (May 23, 2012)

(Advisor: Wei Wang)

Doctoral Dissertation committee for Xin Shuai Zhang at Department of Chemistry and Chemical Biology, UNM (April 11, 2012)

(Advisor: Wei Wang)

Doctoral Dissertation committee for Xixi Song at Department of Chemistry and Chemical Biology, UNM (April 3, 2012)

(Advisor: Wei Wang)

Dissertation committee for Jennifer Buntz at College of Pharmacy, University of New Mexico (UNM)

(Advisor: Matt Campen)

PhD Comp Exam Committee for Aiguo Song at Department of Chemistry and Chemical Biology, UNM (April 21, 2011)

(Advisor: Wei Wang)

Doctoral Dissertation Committee for Regina Peter Mtei at Department of Chemistry and Chemical Biology, UNM (March 23, 2011)

(Advisor, Martin Kirk).

Doctoral Dissertation Committee for Joseph Sempombe at Department of Chemistry and Chemical Biology, UNM (March 18, 2011)

(Advisor, Martin Kirk).

Research Committee for Lidong Wang at Department of Chemistry and Chemical Biology, UNM

(Advisor, Hua Guo)

Research Committee for Chao Dong at Department of Chemistry and Chemical Biology, UNM

(Advisor, Martin Kirk).

Doctoral Dissertation Committee for Dominic Kofi Kersi at Department of Chemistry and Chemical Biology, UNM

(Advisor, Martin Kirk).

Doctoral Dissertation Committee for Jian Wang at Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

Doctoral Dissertation Committee for Jiwen Zou at Department of Chemistry and Chemical Biology, UNM

(Advisor: Patrick S. Mariano)

Doctoral Dissertation Committee for Antonio Williams at Department of Chemistry and Chemical Biology, UNM

(Advisor: Martin Kirk)

Research Committee for graduate student Jian Wang at Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

Research Committee for graduate student Liansuo Zu in Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

Research Committee for graduate student Hexin Xie in Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

Research Committee for graduate student Hao Li at Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

Research Committee for graduate student Wei Jiang at Department of Chemistry and Chemical Biology, UNM

(Advisor, Wei Wang).

COMMUNITY SERVICE

Treasurer, National Council officer, Chinese Institute of Engineers (2018-2020)

President, Association of Chinese-American Engineers and Scientists of New Mexico (2018)

Vice President, Association of Chinese-American Engineers and Scientists of New Mexico (2017)

Outstanding School Contributions Award, Chinese School Association in the United States (2013-2014)

Principal and Board Member, NM New Mexico Chinese School of Arts & Language (2013-2015)

Vice Principal and Board Member, NM New Mexico Chinese School of Arts & Language (2012)
