The UNM Pharmacy Residency Experience

Post-graduate pharmacy residency training at The University of New Mexico (UNM) Health Sciences Center cultivates future leaders in the pharmaceutical care profession through experiences that further advance the resident’s knowledge, confidence, leadership skills and understanding of how a healthcare system functions.

Through a close and enduring collaboration between the UNM College of Pharmacy and the UNM Hospitals Department of Pharmacy, pharmacy residency experiences at UNM are unique in comparison to most other programs.

We provide our residents the opportunity to interact with one of the most diverse patient populations in the nation while practicing within an award-winning interdisciplinary healthcare setting.

Additionally, UNM pharmacy residents have direct access to the knowledge and experience of nationally and internationally recognized practitioners - all within state-of-the-art facilities, situated in one of the most geographically beautiful and culturally diverse regions of the nation.

## Advancing Pharmacy Practice in New Mexico and Beyond

For three quarters of a century, UNM Health Sciences faculty in partnership with New Mexico’s pharmacy profession have continually forged new roles for pharmacists and new models of care.

New Mexico is the first state to recognize and license advanced practice pharmacists (pharmacist clinicians) who provide direct care to patients. Pharmacist clinicians conduct medication reviews and physical assessments, order lab and diagnostic tests, and prescribe medication therapies.

New Mexico’s pharmacists can prescribe, dispense and administer a variety of Board-approved medications such as childhood and adult vaccinations, hormonal and emergency contraceptives, naloxone, smoking cessation agents, and travel medicines.

As part of an academic health sciences center, interprofessional educational experiences flourish at UNM, providing our residents with vital training alongside medical, nursing, and other health professionals and preparing them to take their place as a critical part of a comprehensive health care team.

In 2020 New Mexico added pay parity legislation to the already progressive pharmacy practice laws. Now state insurance plans (including Medicaid and private insurance) are required to compensate pharmacist clinicians or pharmacists with prescriptive authority at an equivalent rate to other providers.

## Life in the Land of Enchantment

Albuquerque, the state’s largest city, basks in 310 days of sunshine, combined with a mild, dry climate and four distinct seasons. Very low humidity means that even when the temperatures rise, summer is always comfortable, and our sunny winters are comparatively mild.

The University of New Mexico campus comprises a small “city within a city” nestled at the base of the majestic sandia mountains.

Daily walks throughout the year provide you with mini snapshots of New Mexican beauty - electric colors

of blooming cacti and wildflowers in the spring, roadrunners darting to and fro in the summer, hot air balloons overhead in the autumn, luminarias lighting your path in the winter - all set against the backdrop of award-winning southwest architecture and beneath the canopy of awe-inspiring big blue skies.

From the breathtaking views, to resilient and diverse people, to delicious chile-infused cuisine, New Mexico provides opportunities for constant amazement within a place and culture like no other.

The state provides endless natural sources of wonder and adventure; spanning the dramatic northern mountains to the stark beauty of open spaces like our eastern high plains and southern deserts.

Our special blend of cultures - Native American, Hispanic, Western and more - come together to create a wonderful and vibrant mix of art, music and food found nowhere else on earth.

## Exceptional Training. Superior Care.

### UNM HOSPITAL

As one of a select few U.S. institutions that serve simultaneously as an academic medical center, level I trauma center and county hospital, and also the regional referral center for many specialties, UNMH offers a training site with a large diversity of clinical experiences while caring for underserved populations.

UNMH, a 619-bed acute tertiary care facility providing state-of-the-art patient care, provides a comprehensive stroke and neuro trauma service, a pediatric cardiothoracic surgery program, and adult and pediatric comprehensive psychiatry services.

The hospital has 72 adult ICU beds (split between medical ICU, neurosurgical ICU, and trauma surgical ICU) and 90 emergency room beds, which annually manage more than 93,000 emergency visits, 7,000 trauma cases, and 18,000 surgeries.

### UNM CHILDREN'S HOSPITAL

UNM Children's Hospital is the state's largest pediatric hospital providing comprehensive services including New Mexico's only pediatric level 1 trauma center and level IV NICU. The children's

hospital also has a pediatric ICU and a pediatric rehabilitation facility.

### UNM COMPREHENSIVE CANCER CENTER

An NCI-designated cancer center, the UNM Comprehensive Cancer Center annually manages more than 10,000 patient visits, 13,900 prescriptions, 15,800 radiation treatments and 38,900 infusions. In 2016, the cancer center started an autologous BMT program with the hope for expansion to others.

### OUTPATIENT LEARNING OPPORTUNITIES

With nearly 500,000 outpatient visits completed in 90 outpatient clinics annually, the University of New Mexico Health Sciences Center (UNM HSC) provides ample opportunities for pharmacists to have a significant impact on the lives of New Mexicans.

One of the many outstanding examples of a medical home in which pharmacists serve as healthcare providers is in the UNM Truman Health Services Clinic, serving the medical needs of over 1,200 people living with or at risk of HIV or Hepatitis C. The Truman clinic also offers one of the

few opportunities nationwide to train in an interdisciplinary setting providing care to transgender individuals.

Due to New Mexico's large geographic area and relatively few specialists outside of Albuquerque, Project ECHO® (Extension for Community Healthcare Outcomes) was originally designed for the treatment of Hepatitis C across vast distances. The ECHO™ model utilizes a “hub and spoke model,” teleconferencing subject matter experts (often times including UNM residency preceptors) and local community providers. This provider-to-provider teleECHO™ model disseminates knowledge and maximizes the capacity of the healthcare system. Project ECHO currently hosts 220 hubs for more than 100 diseases and conditions in 31 countries.

## History of Pharmacy Residency Programs at UNM

The University of New Mexico Health Sciences Center established its first pharmacy residency in 2000 - the PGY2 Residency in Infectious Disease.

Since that time, we have continued to expand post graduate pharmacy residency opportunities with the PGY1 program in 2003, and additional PGY2 specialized programs in ambulatory care (2012), emergency medicine (2015), oncology (2016), pediatrics (2019) and informatics (2020).

Over 100 PGY1s and PGY2 pharmacist have successfully completed residencies at UNMH. Roughly 70% of PGY1 graduates have pursued additional training through either board certification and/or PGY2 residencies.

Graduates from UNM residency programs have gone on to careers in a multitude of specialties including academia, clinical pharmacy, pharmacy informatics and industry and have published hundreds of peer reviewed articles.

## Benefits of and Requirements for Admission

### BENEFITS

- Competitive salary (Please see our listings in the ASHP residency directory for the most recent salary)
- Vacation: 10 days
- Professional Leave: up to 10 working days
- Holidays: up to 9 days
- Health Insurance
- Attend two conferences including ASHP Midyear Clinical Meeting

### ADMISSION REQUIREMENTS

- Doctor of Pharmacy degree from an accredited school or college of pharmacy required prior to beginning of residency
- Be eligible for New Mexico pharmacist licensure
- **Additional PGY2 Requirement:** completion of a PGY1 residency

### APPLICATION INFORMATION

- Apply online using ASHP PhORCAS:
  - Letter of intent stating interests and goals
  - Curriculum vitae
  - College of pharmacy transcripts
  - Three recommendations from healthcare professionals who can attest to your practice abilities, preferred a preceptor who can speak to clinical experience on a rotation.
- An on-site interview is required
- **Application deadline:** Application deadline is **early January** annually (please see our listing in the ASHP residency directory for details)

[goto.unm.edu/pharmacyresidency](https://goto.unm.edu/pharmacyresidency)

“UNM Hospital and College of Pharmacy allowed me the opportunity to have a wide array of experiences. I was able to practice in 8 different clinical areas of the hospital, teach a section of therapeutics to students, mentor students on rotation, and conduct my own research. UNM has some of the highest quality and smartest clinical pharmacists anywhere, and they are highly respected not only within the hospital but in the US healthcare community. It is their reputation which opened doors for me to function as an equal member of the medical teams. They will put in extraordinary effort to make you feel at home, no matter where you're coming from.”

**Joe Llewellyn**, PharmD  
PGY-1 Resident 2013-2014  
Senior Director Clinical Research  
Gilead Sciences

The PGY1 residency program is designed to provide the resident with training and experience in various areas of clinical practice, research, and teaching. The program maintains a close association with the University of New Mexico College of Pharmacy and thus is able to provide a unique one-year residency that can be tailored to meet the interests of each resident. Our program allows for seven PGY-1 residents and two non-traditional PGY-1 residents.

## Residency Rotations

a combination of longitudinal and/or 4 week experiences

### Required 4-week Rotations

- Orientation
- Research
- Internal Medicine
- Critical Care (ICU or Emergency Medicine)
- Pediatrics
- Internal Medicine Precepting
- Pharmacy Administration

### Required Longitudinal Rotations (11 months)

- Specialty longitudinal experience
- Research
- Staffing
- Teaching

### Possible Elective Rotations

- Academia
- Ambulatory Care (several options)
- Anticoagulation
- Geriatrics
- Hematology/Oncology (outpatient or inpatient)
- Hepatology/ECHO
- Infectious Disease (stewardship or inpatient consult service)
- Informatics
- Nephrology
- Renal Transplant
- Toxicology
- Psychiatry
- Maternal/fetal Medicine
- HIV
- Neurology
- PICU/HemeOnc

### Additional Residency Experiences

- Staffing once every 4 weeks & one 4 hour evening shift per week (required)
- Didactic Lectures at the College of Pharmacy (one lecture required)
- Teaching Certificate Program (required)
- ACLS/BLS Certification (required)
- Physical Assessment Certificate Program (optional - for pharmacist clinician licensure)

# Ambulatory Care PGY2 Pharmacy Residency Program

A collaboration between the University of New Mexico College of Pharmacy and our colleagues across the UNM Health Sciences Center results in an extraordinary 12-month ambulatory care experience. Our residents train with certified pharmacist clinicians who practice with prescriptive authority. This is one of the most advanced pharmacy practice models in the country, in which the resident earns patient contact hours toward a NM pharmacist clinician license.

## Required Rotations:

- Orientation (1 week)
- Diabetes and CV risk reduction (I-III)- 3 total months
- Primary care in HIV and Gender Care x 1 month
- Research x 1 month
- Academia x 1 month

## Required Longitudinal Rotations

- Diabetes/CV Risk Reduction Clinic, one ½-day per week
- Participation in Endocrinology teleECHO™ Clinic
- Teaching/Academia Experience
- Administration
- Research

## Elective Rotations

- Outpatient Nephrology
- Diabetes Management in Transplant and CKD Clinic
- Pediatric Pulmonary Clinic
- Heart Failure Clinic
- Outpatient Anticoagulation
- Pain Management Clinic
- Geriatrics Clinic
- Cancer Survivorship Clinic
- Population Health
- Outpatient Psychiatry
- Opportunity for new elective development

## Additional Residency Experiences

- Didactic Lectures
- Patient Care Lab Instruction
- Teaching Certificate Program
- Experiential Education
- Personal & Professional devt. programs

“I have had a memorable and unique experience at UNM. This is a program that provides you with the opportunity to practice at the top of your license within an underserved community. With its great array of rotations, you are able to tailor your learning experiences based on your passions with an advanced scope of practice. The Land of Enchantment also has a diverse population that provides the opportunity to grow in providing culturally competent care. This program also provides mentorship from preceptors that are highly respected experts and advocates within their field. They not only support you but encourage you to explore this hidden gem of a city through hiking the Sandia Mountains or capturing the magic of surrounding national parks. The warm and vibrant New Mexican culture definitely leaves you feeling right at home.”

Clinical Pharmacy Specialist, Endocrinology  
University Health System, San Antonio, TX

# Emergency Medicine PGY2 Pharmacy Residency Program

Train in a fast-paced immersive environment. The Emergency Medicine Residency at the University of New Mexico Hospital offers a cutting edge clinical practice in the region’s only Level-1 Trauma Center. The Emergency Department at the University of New Mexico Hospital cares for over 90,000 adult and pediatric patients per year and is also the primary academic medical center and county hospital. Pharmacy provides 24-7 bedside pharmaceutical care in the Emergency Department and maintains a strong relationship with the Department of Emergency Medicine which affords the resident the opportunity to train in a unique multidisciplinary environment.

# Infectious Diseases PGY2 Pharmacy Residency Program

Interact with some of the most diverse patient populations in the nation while training with Infectious Disease providers in an interdisciplinary health care setting. UNMH provides acute medical care for patients from New Mexico, Arizona, Colorado, and Texas. New Mexico is endemic for unique pathogens, including Hanta virus, plague, and Coccidioidomycoses. The Infectious Disease Residency at University of New Mexico Hospital is tailored to give a residents exposure to all aspects of the management of patients with infectious diseases.

## Residency Rotations

a combination of longitudinal and/or 4 week experiences

### Required 4-week Rotations

- Orientation
- Adult Infectious Diseases (x2)
- Advanced Adult ID
- Clinical Microbiology
- Antimicrobial Stewardship
- Infectious Diseases Outpatient Clinics
- Pediatric Infectious Diseases

### Longitudinal Rotations

- Research (research project with a publication-ready manuscript)\*
- Residency Activities
- Teaching
- HIV Clinic or OPAT Clinic (1/2 day per week)

\*Longitudinal in addition to a 4 week rotation

### Elective Rotations

- Academic Pharmacy & Pedagogy
- Adult Hematology Malignancies & Stem Cell Transplant
- Outpatient HIV Treatment & Prevention
- Transplant

### Additional Residency Experiences

- Clinical staffing in Antimicrobial Stewardship (every 3 weeks) and one major holiday (Thanksgiving/Day after Thanksgiving, Christmas Eve/Christmas Day, or New Year's Eve/New Years Day) or two minor holidays
- Volunteer faculty appointment at the UNM College of Pharmacy for didactic lectures and student precepting
- Didactic Lectures at the College of Pharmacy
- Physical Assessment Certificate Program (for pharmacist clinician licensure)

“I am grateful for the long lasting bonds I formed with my colleagues, the guidance I received from my mentors, and the supportive learning environment that UNMH fostered— one that allowed me to pursue my own unique journey. Now, as a faculty member, I cannot think of a better way to inspire future generations of pharmacy students. My mission is clear— to reflect the high-quality education I received at UNMH by providing valuable experiences that prepare students for the future of medicine.”

Gerardo P. Ramos-Otero PharmD  
PGY2 Resident 2019-2020  
Clinical Assistant Professor  
Department of Pharmacy Practice  
Nova Southeastern University, Puerto Rico Campus

# Informatics PGY2 Pharmacy Residency Program

The Pharmacy Informatics resident will have the opportunity to work closely with the multidisciplinary teams providing informatics solutions for the University of New Mexico Health System. The resident will gain a foundation in Pharmacy Informatics that will enable them to work independently and lead projects for the health care system. Electives are offered to the resident in Physician, Nursing, Population Health, and Antimicrobial Stewardship Informatics to create a well-rounded understanding of health care informatics. By the completion of the program, the resident will achieve an ASHP Pharmacy Informatics Certificate.

## Required 4-week Rotations

- Informatics Pharmacy Orientation (3 weeks)
- Pharmacy Informatics II
- Pharmacy Orders Integration
- Pharmacy Automation, Infusion Pump, & Dispensing Technology
- Data Analytics and Reporting
- Clinical Decision Support
- Clinical Decision Support II
- Medication Safety
- Information Technology Clinical Informatics

## Longitudinal Rotations

- Project Management (6 months)
- Teaching (12 months)
- Research (12 months)
- Pharmacy Informatics (10 months)

## Possible Elective Rotations

- Physician Health Care Informatics
- Nursing Informatics
- Antimicrobial Stewardship Informatics
- Population Health

## Additional Residency Experiences

- Staffing one weekend a month in a clinical staffing area
- Volunteer faculty appointment at the UNM College of Pharmacy for didactic lectures and student precepting
- Statistics for Pharmacy Residents (optional)

## Informatics Pharmacy Residents Will

- Utilize a Cerner-based electronic medical record to enhance the ordering experience for providers, maintain pharmacy formulary, and streamline pharmacy workflow.
- Provide suggestions and build solutions to pharmacist clinical workflow and documentation issues.
- Participate in hospital-wide initiatives that may include, but is not limited to, enhancements to pump utilization, barcode medication administration, communication channels, and packaging resources.
- Report on various processes to improve workflow, dispensing and charging of medications, and quality utilizing PowerInsight, Tableau, and data analytics tools.
- Participate in a multidisciplinary team involving clinical pharmacists, physicians, and nursing in addition to information technology and project managers.

[goto.unm.edu/pharmacyresidency](https://goto.unm.edu/pharmacyresidency)

“Post-graduate training in Pharmacy Informatics offers a crucial skillset as healthcare becomes increasingly digitized, and the market for pharmacists becomes progressively more competitive. The Pharmacy Informatics Residency at UNM Hospital will not only provide you with exceptional, individualized, clinical training at the state's premiere academic center, Level 1 Trauma Center and Children's Hospital, but will also teach you the leadership and technical skills to manage informatics initiatives at large health systems.”

**Dusadee Sarangarm**, MD  
Chief Medical Information Officer  
Associate Professor, Department of Emergency Medicine  
University of New Mexico School of Medicine

# Oncology PGY2 Pharmacy Residency Program

The UNM Health Sciences Center is proud to house a world-class oncology practice site at the UNM Comprehensive Cancer Center - one of only 47 cancer centers in the nation to be designated by the National Cancer Institute as a comprehensive cancer center, the highest federal designation and rating for cancer centers. UNM Comprehensive Cancer Center's team of doctors and cancer specialists work side-by-side to design individualized treatment plans and deliver them to our patients in a compassionate, culturally sensitive way.

**Residency Rotations** a combination of longitudinal and/or 4 week experiences

**Required:** Most rotations are 4 weeks in duration

- Inpatient:
  - Orientation
  - Inpatient Hematology/Oncology
- Outpatient:
  - Outpatient Hematology
  - Stem Cell Transplant
  - Breast Cancer
  - Gynecological Cancer
  - Gastrointestinal Cancers/Sarcoma
  - Thoracic Oncology
  - Genitourinary Cancers
  - CNS/Head & Neck/Melanoma
  - Advanced Practice (Capstone)
  - Investigational drug service (1 week block)

#### Electives:

- Pediatric Oncology
- Survivorship
- Academia
- Informatics
- Thrombosis
- Classical hematology
- Other potential electives include antimicrobial stewardship, or outpatient pain clinic

#### Longitudinal Rotations (12 months)

- Administration
- Research
- Teaching
- Infusion Pharmacy Staffing (2 days during each 1-month rotation)
- Investigational Drug Services (1 week block)

#### Additional Residency Experiences

- Independent staffing
  - One weekend a month in the hospital's hematology/ oncology unit and one major holiday (Thanksgiving & Day after Thanksgiving, Christmas Eve & Christmas Day, or New Year's Eve & New Year's Day) or two minor holidays
  - Saturday & Sunday 0630-1700
- Volunteer faculty appointment at the University of New Mexico College of Pharmacy for didactic lectures and student precepting
  - Teaching Certificate program available through the University of New Mexico College of Pharmacy
  - Formal mentorship program sets the resident up with a pharmacist mentor to help support the resident throughout the residency year
- Optional physical assessment certificate program to become a pharmacist clinician (PhC)

"I chose to complete my PGY-2 oncology residency at the UNM Comprehensive Cancer Center because of the supportive learning environment, the well-rounded clinical training experiences, and the unique opportunity to serve a diverse patient population. I have felt welcomed by the team from day one at the residency information session. The preceptors are dedicated and invested in my personal and professional growth. It also has been a blessing to learn from providers who are enthusiastic about working with pharmacy."

Eva Huang, PharmD  
PGY-2 Resident 2022-2023

# Critical Care PGY2 Pharmacy Residency Program

Immerse yourself in critical care practice when you choose the University of New Mexico Hospital's Critical Care Pharmacy residency program. Our program provides residents with a one-of-a-kind experience to care for some of the most diverse patient populations in the nation. Pharmacy residents train alongside medical residents, critical care fellows, and internationally recognized intensivists at the state's only designated Level I Trauma Center and an Extracorporeal Life Support Organization ECMO Center of Excellence. UNMH houses 72 ICU beds spread across the Medical/Cardiac ICU, Trauma/Surgical ICU, Cardiothoracic/Vascular ICU, and Neurosciences ICU services. Learning in the fast-paced environment of our academic medical center provides residents with the specialized knowledge, skills, and experiences necessary to practice confidently and independently as a clinical pharmacist or in another specialized position.

## Residency Rotations

### Required (4-weeks unless otherwise noted)

- Orientation (2-3 weeks)
- Medical/Cardiac ICU I (8-weeks)
- Trauma/Surgical ICU
- Cardiothoracic/Vascular ICU
- Neurosciences ICU
- Infectious Diseases Consult Service
- Nutritional Support (3 weeks)
- Emergency Medicine Overnight
- ICU Precepting
- Evening ICU (2 weeks)
- Administrative and Research Projects (2-4 weeks)

### Required Longitudinal Rotations

- Research
- Administration
- Teaching
- Critical Care staffing

### Potential Elective (two 4-week experiences plus one 2-week experience)

- Pediatric ICU (4 weeks)
- Emergency Medicine Day Shift (4 weeks)
- Toxicology (4 weeks)
- Antithrombosis Stewardship (4 weeks)
- Additional ICU Experience (2-4 weeks)
- Antimicrobial Stewardship (2 weeks)

### Additional Residency Experiences

- BLS and ACLS training with longitudinal in-house code response
- "Statistics for Pharmacy Residents" and "Leadership Series" longitudinal seminars
- Teaching certificate, if not previously completed
- Opportunities to precept pharmacy students and residents and lecture at the UNM College of Pharmacy
- Research and quality improvement projects

*“The Critical Care Pharmacy Team is a vital member of the ICU multidisciplinary team. At UNMH, we care for the highest acuity patients in the state of New Mexico and we couldn’t do that without the support from our pharmacy colleagues.”*

Jon Marinaro, MD  
Co-Chief UNM Center Of Critical Care  
Professor, UNM School Of Medicine

# Pediatric PGY2 Pharmacy Residency Program

The state's premier children's hospital is excited to offer a PGY2 program in pediatrics. UNMH is a Level 1 Trauma Center with a pediatric ED, and houses the only Level IV NICU in New Mexico. Furthermore, the resident will have the opportunity to work with the University of New Mexico Hospital's ECMO program, which is currently designated as an Extracorporeal Life Support Organization ECMO Center of Excellence. Our program can be tailored to fit the needs and interest of the PGY-2 pharmacy resident.

**Residency Rotations** a combination of longitudinal and 4 week experiences

## Required Rotations

- Orientation
- General Pediatrics
- Pediatric ICU
- Neonatal ICU
- Inpatient Pediatric Hematology/Oncology
- Pediatric Infectious Diseases
- Precepting

## Required Longitudinal Rotations

- Administrations
- Research
- Teaching
- Pediatric Pharmacy Staffing

## Elective Rotations

- Pediatric Emergency Medicine
- Pediatric Nephrology
- Pediatric Pulmonology
- Maternal Fetal Medicine
- Pediatric Psychology
- Pediatric Hematology Ambulatory Care
- Informatics
- Toxicology
- Advanced Experiences in:
  - General Pediatrics
  - Neonatal ICU
  - Pediatric ICU

## Additional Residency Experiences

- Teaching Opportunities:
  - Experiential education to pharmacy students, PGY1 residents, and other members of the multidisciplinary medical teams
  - Pharmacy Grand Rounds presentation
  - Research presentation at the Pediatric Pharmacy Association Annual Meeting
  - Didactic education in partnership with the University of New Mexico College of Pharmacy
  - Teaching certificate program (if not previously completed)
- Staffing one weekend approximately every 3 weeks on one of the Pediatric Inpatient Units or Pediatric Inpatient Pharmacy and 1 evening in the Pediatric Critical Care Units after required rotations are completed
- Volunteer faculty appointment at the UNM College of Pharmacy for didactic lectures and student precepting
- PALS certification

“UNM Children’s Hospital offers a distinctive experience that not only affords clinically challenging clerkships but also promotes personal growth. Widespread intra-disciplinary collaborations allow for unique learning opportunities and truly exemplifies team-based medicine. Each provider and pharmacist I’ve worked has not only developed my clinical skills but also personal skill. The level of knowledge and support made available to me by my colleagues, reassures me that I will be prepared to be a successful pediatric pharmacist on any stage.”

Joseph Dinallo, PharmD  
PGY2 Resident 2020-2021

## Thrombosis & Hemostasis PGY2 Pharmacy Residency Program

"Thrombosis and hemostasis is an exciting and dynamic field. As the treatment and prevention of thrombosis becomes increasingly complex and anticoagulant-associated harm continues to increase, it is evident that specialty training is needed to ensure optimized management of these high-risk therapies and promote safe and effective patient care. The national movement towards a model of thrombosis and hemostasis stewardship will require more advanced-trained pharmacists to serve as subject matter experts and/or stewardship program leaders. The Thrombosis and Hemostasis Residency at UNM hospital will provide you with a comprehensive learning experience that will prepare you to be able to provide expertise across multiple disciplines, disease states and clinical settings for both thrombotic and bleeding conditions. You will train alongside nationally and internationally recognized experts in the field within a mature stewardship service. The program director and preceptors provide challenging opportunities to support professional growth as well as encourage work-life balance to foster personal growth and job satisfaction. We offer a mixed inpatient and outpatient experience that will prepare our residents for any practice setting in which they may wish to build their careers."

Taylor Goot MD SFHM FACP  
Associate Chief Medical Information Officer for Inpatient Services  
Medical Director UNM Antithrombosis Clinic  
Co-Director UNMH Antithrombosis Stewardship  
Associate Professor, Department of Internal Medicine  
Division of Hospital Medicine

The UNM Health Sciences Center is excited to offer a PGY2 specialty residency in Thrombosis and Hemostasis Management (THM). Through a variety of clinical rotations, the resident will have opportunities to work with nationally-recognized preceptors and multidisciplinary teams to provide comprehensive care to diverse patient populations from across the Southwest region requiring antithrombotic or hemostatic therapies. We have a well-established pharmacy-driven anticoagulation stewardship program that will afford the PGY2 resident opportunities to advance their thrombosis and hemostasis knowledge, staff the clinical consultation service and gain valuable experience in continuous quality improvement. We have some of the most advanced pharmacy practice models in the country and the resident has the option of earning patient contact hours towards a New Mexico Pharmacist Clinician license that allows prescribing and billing. The program includes participation in a monthly education seminar with other THM residency sites across the country to provide additional learning and presenting opportunities, as well as networking and professional development.

**Residency Rotations** a combination of longitudinal and **4-week** experiences

### Required 4-week Rotations

- Orientation
- 3 months Antithrombosis Stewardship (inpatient)
- Classic Hematology (outpatient)
- Neuro/Stroke (inpatient; ICU and step-down units)
- Emergency Medicine (inpatient)
- Cardiothoracic/Vascular ICU (inpatient)
- Medical/Cardiac ICU (inpatient)
- Clinical Informatics (inpatient)
- Women's Health (inpatient)
- Research

### Required Longitudinal Rotations

- Medication Safety (inpatient)
- Research (research project with a publication-ready manuscript)
- Classical Hematology Clinic (1<sup>st</sup> 6 months)
- Antithrombosis Clinic (2<sup>nd</sup> 6 months)
- Teaching/Academia
- Leadership/Administration

### Additional Residency Experiences

- Staffing Every Third Weekend in the Anticoagulation Steward Role
- Teaching Certificate Program (if not completed during PGY-1)
- Statistics for Pharmacy Residents
- Volunteer faculty appointment at the UNM College of Pharmacy for didactic lectures and student precepting
- Physical Assessment Certificate Program (if pursuing Pharmacist Clinician licensure)
- ACLS/BLS/PALS Certification

### Possible Elective Rotations

- Repeat any required 4-week rotation
