This handbook is designed to describe the Pharm.D. program, course of instruction and academic regulations. The handbook is not to be regarded as a contract between the student and the College of Pharmacy. The College of Pharmacy reserves the right to change any provisions or requirements at any time within the student's term of residence in the Pharm.D. program.

College of Pharmacy Background

The University Of New Mexico College Of Pharmacy was founded in 1945 as the first health professional college and degree program at the University. The College of Pharmacy is housed within a unique setting. The state of New Mexico, the fifth largest state in the Nation, holds a vast array of pharmaceutical practice experiences ranging from those encountered while in the cutting-edge academic health system to those in small, rural communities. The College enrolls approximately 200 Pharm D. students as well as 20 graduate students. The students are supported by 54 faculty members and 250 preceptors throughout the state. The College's distinctive setting in the Health Science Center (HSC) provides the most up-to-date clinical, research, and educational opportunities. More importantly, the HSC provides students with interprofessional learning and practice opportunities.

Students of the College of Pharmacy have access to all the facilities and resources offered by a large, world-class, university while also having the advantages of being a select, close-knit group in a caring and nurturing environment. The small class sizes create more high- quality opportunities for students to hone their skills in clinical sciences, leadership, critical thinking, communication, teamwork, and other high-demand career skills. Diversity in people and in thinking, as evidenced by the diverse student population, is of extreme importance and value. The college is one of the most racially and ethnically diverse schools of pharmacy in the nation and is ranked third of all United States Pharmacy schools in highest number of Hispanic and Native American students.

The mission of the College is to develop pharmacists, educators and scientists whose leadership, dedication and innovation improve the health of our local and global communities. Unique programs within the college offer students the opportunity to prepare students to do this. The New Mexico Poison and Drug Information Center, open 356 days a year, provides service to over 28,000 inquiries per year. The Nuclear Pharmacy program is the oldest of its kind in the United States. The college has strong partnerships with the New Mexico Pharmaceutical Association, the New Mexico Society of Health System Pharmacists, and the New Mexico State Board of Pharmacy. These partnerships have created innovative pharmacy practice opportunities, including administration of vaccinations to pediatrics and adults, tobacco cessation prescribing and dispensing of emergency contraception products, and naloxone prescribing. In addition, the State of New Mexico is well recognized for its progressive pharmacy practice act which acknowledges "pharmacist clinicians" as advance practice pharmacists who are able to administer, prescribe, and monitor certain drugs all while working under direct pharmacist supervision.

The college has more than 3300 Pharm.D. alumni who practice in 48 different states, and which comprises 66 percent of all practicing pharmacists in the state of New Mexico. The college is a sponsor, or co-sponsor, to several post-graduate programs including: University of New Mexico's department of Pharmacy PGY – 1 and PGY – 2 residencies in infectious diseases pharmacotherapy and ambulatory care. The college is also a sponsor or co-sponsor to many dual or advanced degree programs like the Master of Science, Master of Business Administration, Master of Public health, or Doctor of Philosophy (PhD) degrees in Pharmaceutical Sciences. In addition, the college is affiliated with the New Mexico Veterans Affairs Healthcare System, the Lovelace Health System, the Indian Health Service, and the University's Cancer Research and Treatment Center.

Equal Education & Opportunity Policy

The University of New Mexico is an affirmative action/equal opportunity institution. The information in this brochure is available in alternate formats upon request. The University of New Mexico is committed to providing equal educational and employment opportunity regardless of sex, marital or parental status, race, color, religion, age, national origin or physical handicap.

Equal educational opportunity includes: admission, recruitment, extracurricular programs and activities, housing, facilities, access to course offerings, counseling and testing, financial assistance, employment, health and insurance services and athletics.

Accreditation

The University of New Mexico's Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle, Suite 4100, Chicago, IL 60603-4810, TEL (312) 664-3575, FAX (312) 664-4652, URL <http://www.acpe-accredit.org/>

Mission

Our mission is to develop pharmacists, educators and scientists whose leadership, dedication and innovation improve the health of our local and global communities.

Vision

To prepare tomorrow's leaders through innovative teaching, research and clinical practices that translate scientific discoveries into new treatments and models of care to improve both health and quality of life.

Values

The University of New Mexico College of Pharmacy is committed to the following values:

1. Excellence: *continuously striving for the highest quality of performance and outcome.*

Behaviors:

- Strive to do our best
- Commitment to high quality
- Encourage an environment that learns from mistakes and fosters imagination and innovation
- Take Initiative
- Self-Motivation

2. Integrity: *steadfast adherence to moral and ethical principles.*

Behaviors:

- Behave ethically, honestly and fairly
- Do the right thing

- Set a good example; being a role model

3. Accountability: *being held responsible for one's actions.*

Behaviors:

- Admit mistakes
- Recognize and accepting the consequences of one's actions
- Accept personal responsibility for our actions, activities and work
- Honor our commitments
- Manage resources in a responsible, transparent manner

4. Collaboration: *work in teams to achieve excellence in education, research/scholarship, patient care and service.*

Behaviors:

- Pursue opportunities to collaborate within the College and inter-professionally
- Be a team player
- Place interests of the team above your own interests
- Learn with and from each other
- Work as engaged partners within the university and the profession

5. Continuous Learning: *strive to acquire knowledge or skills by study, instruction or experience.*

Behaviors:

- Demonstrate a commitment to life-long learning
- Provide avenues for group/team learning
- Encourage and create an atmosphere learning
- Strive to be an effective learning organization which acquires, creates, and transfers knowledge
- Facilitate the learning of faculty and staff in order to continuously improve the organization
- Maintain competence and enhancing skills in areas of expertise

6. Diversity in People & Thinking: *embracing inclusiveness, access, and equity for all; recognizing and appreciating the totality of the many ways individuals are similar and different in an atmosphere that promotes and celebrates individual and collective achievements.*

Behaviors:

- Respect different opinions, experiences, backgrounds and perspectives
- Acknowledge and appreciate our differences
- Encourage different approaches to problem solving

7. Compassion: *feeling & exhibiting concern and empathy for others.*

Behaviors:

- Treat everyone with respect, dignity, open-mindedness, esteem and caring
- Selfless service to others
- Be sensitive to the needs of others

OATH OF A PHARMACIST¹

I promise to devote myself to a lifetime of service to others through the profession of pharmacy. In fulfilling this vow:

- I will consider the welfare of humanity and relief of suffering my primary concerns.
- I will promote inclusion and belonging, respect differences in all individuals, and address health disparities to advance health equity for all people.
- I will apply my knowledge, experience, and skills to the best of my ability to assure optimal outcomes for all patients.
- I will respect and protect all personal and health information entrusted to me.
- I will accept the responsibility to improve my professional knowledge, expertise, and self-awareness.
- I will hold myself and my colleagues to the highest principles of our profession's moral, ethical and legal conduct.
- I will embrace and advocate changes that improve patient care.
- I will utilize my knowledge, skills, experiences, and values to prepare the next generation of pharmacists.

I take these vows voluntarily with the full realization of the responsibility with which I am entrusted by the public.

¹*Adopted by the AACP Board of Directors and the APhA Board of Trustees in August 2025*

ORGANIZATIONAL STRUCTURE AND COLLEGE OFFICES

The College of Pharmacy has two departments:

Department of Pharmaceutical Sciences

There are thirty-one faculty teaching and/or doing research in the disciplines of medicinal chemistry, pharmacology, and pharmaceuticals.

Department of Pharmacy Practice and Administrative Sciences

Consists of twenty-six faculty in the disciplines of social and administrative sciences, pharmacy administration, and pharmacy practice.

The College of Pharmacy has three offices to support our students.

Office of Curricular Affairs

The Office of Curricular Affairs, temporarily located in Room 145 of the SURGE Building, provides educational support to Doctor of Pharmacy students throughout their four years in the program. Students can visit this office for support in learning systems required for the College of Pharmacy, including ExamSoft and Moodle. See page 45 for additional information regarding policies related to the Office of Curricular Affairs.

Office of Experiential Education

The Office of Experiential Education, temporarily located in 1011 Las Lomas Office Suite, schedules all practice experiences and maintains records of compliance requirements (immunizations, HIPAA, intern licensure, etc.). The Experiential education program provides students with a structured, diverse array of supervised pharmacy practice experiences throughout the four years of the Doctor of Pharmacy program. See page 48 for details regarding experiential education policies and procedures.

Office of Student Affairs

The Office of Student Affairs, currently spread-out during renovations, with a many temporarily located in 1011 Las Lomas, assists in the recruitment and admission of Doctor of Pharmacy students. Enrolled students should also visit the office for information regarding student advising, financial aid information, certification, internship licenses and additional information and directions for university student services. See pages 57 of the handbook for additional details.

University of New Mexico College of Pharmacy

Curriculum

Overview

The UNM COP Doctor of Pharmacy Curriculum consists of 144 credit hours (138 required course hours and 6 hours of professional electives) spread across four academic years. The curriculum is composed of didactic (classroom and clinical laboratory) and experiential (pharmacy practice experiences) courses. The first three years of the curriculum are largely didactic and the fourth year is predominately experiential education. The experiential program includes four (4) introductory pharmacy practice experiences (IPPEs) during the first 3 years of the curriculum and nine (9) advanced pharmacy practice experiences during the 4th year providing a total of 1,800 pharmacist intern hours. In addition to the required courses, a minimum of 6 credit hours of professional elective courses must be completed. The COP offers a diverse variety of elective courses that allow students to explore interests, customize their studies for future practice, and prepare for post-graduate training opportunities (residency, fellowship, graduate).

UNM COP Curricular Philosophy

The curricular philosophy of the University of New Mexico College of Pharmacy is to provide learners with a strong foundation in the biomedical, pharmaceutical, social/administrative, and clinical sciences. This is accomplished in a logical, integrated, and progressive manner to allow our graduates to enter contemporary practice prepared to meet the challenges of a dynamic healthcare environment. The curriculum will cultivate a patient-centered, evidence-based, and interprofessional team-based approach to problem-solving and clinical application that fosters the development and integration of knowledge, skills, attitudes, and values required in the profession while emphasizing life-long learning, professionalism, integrity, cultural awareness, cultural sensitivity, diversity, and inclusion.

The Curriculum and Learning Assessment Committee (CLAC)

CLAC is charged with the responsibility to manage curricular evaluation/continuous quality improvement processes to optimize the effectiveness and efficiency of the professional curriculum while maintaining compliance with ACPE Standards for Accreditation related to the professional curriculum. CLAC is composed of faculty from both the Pharmaceutical Sciences and Pharmacy Practice and Administrative Sciences departments and eight (8) student representatives (two student representatives per class). Student representatives are full voting members of CLAC.

Doctor of Pharmacy (PharmD) Educational Competencies

There are thirteen (13) educational competencies for the Doctor of Pharmacy Program categorized into three major domains: (1) Knowledge, (2) Skills, and (3) Attitudes. Upon completion of the Doctor of Pharmacy program, students will achieve the following professional competencies:

UNM COP Competency Statements – Fall 2026	
Domain 1: Knowledge	
Sub-Domain 1.1: Scientific Thinking	Seek, analyze, integrate, and/or apply foundational knowledge of medications and pharmacy practice (biomedical; pharmaceutical; social, behavioral, administrative; and clinical sciences; drug classes; and digital health).
Domain 2: Skills	
Sub-Domain 2.1: Problem-Solving Process	Use problem solving and critical thinking skills, along with an innovative mindset, to address challenges in clinical and professional practice and promote positive change.
Sub-Domain 2.2: Communication	Actively engage, listen, and communicate verbally, nonverbally, and in writing when interacting with or educating an individual, group, or organization.
Sub-Domain 2.3: Cultural and Structural Humility	Mitigate health disparities by considering, recognizing, and navigating cultural and structural factors (e.g. social determinants of health, diversity, equity, inclusion, and accessibility) to improve access and health outcomes.
Sub-Domain 2.4: Person-Centered Care	Provide whole person care to individuals as the medication specialist using the Pharmacists' Patient Care Process (PPCP) to evaluate patient care plans and optimize patient outcomes.
Sub-Domain 2.5: Advocacy	Promote the best interests of patients and/or the pharmacy profession within healthcare settings and at the community, state or national level.
Sub-Domain 2.6: Medication-use Process Stewardship	Optimize patient healthcare outcomes using human, financial, technological, and physical resources to improve the safety, efficacy, and environmental impact of medication use systems.
Sub-Domain 2.7: Interprofessional Collaboration	Actively engage and contribute as a healthcare team member by demonstrating core interprofessional competencies.
Sub-Domain 2.8: Population Health and Wellness	Assess factors that influence the health and wellness of a population and develop strategies to address those factors and/or address emergent public health issues.
Sub-Domain 2.9: Leadership	Demonstrate the ability to influence and support the achievement of shared goals on a team, regardless of one's role.
Sub-Domain 2.10: Diagnosing and Prescribing	Demonstrate clinical reasoning and decision-making and/or physical assessment to diagnose and/or prescribe within standard of care for activities commensurate with individual education, training, and experience upon graduation and licensure.
Domain 3: Attitudes	
Sub-Domain 3.1: Self Awareness	Examine, reflect on, and address personal and professional attributes (e.g., knowledge, metacognition, skills, abilities, beliefs, biases, cultural humility, motivation, help-seeking strategies, and emotional intelligence that could enhance or limit growth, development, and professional identity formation).
Sub-Domain 3.2: Professionalism	Exhibit attitudes and behaviors that embody a commitment to building and maintaining trust with patients, colleagues, other health care professionals, and society.

PharmD Curriculum*First Professional Year*

Fall Semester 2026		Hours
PHRM	701 Applied Biochemistry	3
PHRM	703 Aspects of Patient Care I	3
PHRM	705 Fundamentals of Pathophysiology and Immunology.	3
PHRM	707 Introduction to Patient-Centered Communication	2
PHRM	709 Pharmacy and Health Care Delivery Systems	2
PHRM	717 Introduction to Law, Ethics and Social Issues in Pharmacy	2
PHRM	719 Professional Development I	1
Total		16

Internship: You are now eligible for an intern license.

Spring Semester 2027		Hours
PHRM	702 Physical Pharmacy and Biopharmaceutics	3
PHRM	704 Public Health	2
PHRM	710 Fundamentals of Pharmacokinetics and Dosage Forms	3
PHRM	711 Introduction to Pharmacology & Medicinal Chemistry	4
PHRM	713 Aspects of Patient Care II	2
PHRM	715 Introduction to Clinical Reasoning, Self-Care, and Non-Prescription Therapeutics	2
PHRM	729 Professional Development II	1
Total		17

Second Professional Year

Fall Semester 2027		Hours
PHRM	720 Clinical Reasoning and Integrated Pharmacotherapeutics I	3
PHRM	723 Aspects of Patient Care III	2
PHRM	724 Dosage Forms	3
PHRM	725 Clinical Reasoning and Integrated Pharmacotherapeutics II	3
PHRM	728 Pharmacoepidemiology & Research Design	2
PHRM	739 Professional Development III	1
PHRM	771 Community Introductory Pharmacy Practice (completed during summer preceding second year)	4
PHRM	7XX Professional Electives	2
Total		20

Spring Semester 2028		Hours
PHRM	730 Clinical Reasoning and Integrated Pharmacotherapeutics III	3
PHRM	732 Evidence-Based Clinical Decision Making	2
PHRM	733 Aspects of Patient Care IV	2
PHRM	735 Clinical Reasoning and Integrated Pharmacotherapeutics IV	3
PHRM	731 Pharmacoeconomics	2
PHRM	734 Pharmacy Management and Operations	3
PHRM	749 Professional Development IV	1
PHRM	7XX Professional Electives	2
Total		18

Third Professional Year

Fall Semester 2028		Hours
PHRM	740 Clinical Reasoning and Integrated Pharmacotherapeutics V	2
PHRM	742 Safe Medications and Pharmacy Informatics	3
PHRM	743 Aspects of Patient Care V	1
PHRM	745 Clinical Reasoning and Integrated Pharmacotherapeutics VI	4
PHRM	759 Professional Development V	1
PHRM	750 Clinical Reasoning and Integrated Pharmacotherapeutics VIII	3
PHRM	772 Introductory Institutional Pharmacy Practice Experience (completed during summer)	3
PHRM	780 Direct Patient Care Experience I	1
Total		18

Spring Semester 2029		Hours
PHRM	747 Clinical Reasoning and Integrated Pharmacotherapeutics VII	2
PHRM	760 Advanced Clinical Reasoning, Self-Care and Non-Prescription Therapeutics	2
PHRM	751 Continuing Professional Development Seminar	2
PHRM	753 Aspects of Patient Care VI	1
PHRM	754 Advanced Law and Ethics	2
PHRM	755 Clinical Capstone	5
PHRM	781 Direct Patient Care Experience II	1
PHRM	7XX Professional Electives	2
Total		17

Fourth Professional Year

June 2029 – May 2030		Hours
PHRM	792 Advanced Community Pharmacy Practice Experience	4
PHRM	791 Advanced Institutional Pharmacy Practice Experience	4
PHRM	793 Ambulatory Care Pharmacy Practice Experience	4
PHRM	794 General and Adult Medicine Advanced Pharmacy Practice Experience	4
PHRM	795 Direct Patient Care Pharmacy Practice Experience (2 rotations x 4 credit hours each)	8
PHRM	788 Indirect Patient Care Pharmacy Practice Experience	4
PHRM	Additional 2 APPE rotations from above	8
PHRM	789 Advanced Pharmacy Practice Seminar (1 credit hour x 2 semesters)	2
Total		38

Professional Electives (subject to change)

Course		Credit hours	Course		Credit hours
PHRM 721	Introduction to Nuclear Pharmacy	2	PHRM 736	Introduction to Pharmacogenomics	2
PHRM 737	Introductory Spanish in the Pharmacy	1	PHRM 738	Intermediate Spanish in the Pharmacy	1
PHRM 758	Research Project	1-2	PHRM 761	Substance Abuse	2
PHRM 782	Clinical Toxicology	2	PHRM 783	Geriatric Medication Management - An Interprofessional	2
PHRM 784	Advanced Infectious Disease Pharmacotherapy	1	PHRM 785	Advanced Cardiovascular Pharmacotherapy	1
PHRM 786	Geriatrics Interprofessional	1	PHRM 796	Topics in Pharm Practice: Post-graduate Preparedness	1
PHRM 796	Topics in Pharm Practice: Rx for Wellness	1	PHRM 796	Topics in Pharm Practice: Critical Care & Emergency Medicine	1
PHRM 796	Topics in Pharm Practice: Medical Affairs Competency Certification	2	PHRM 796	Interprofessional Education Immersion	1
PHRM 796	Topics in Pharmacy Practice: Obstetrics & Gynecology	1	PHRM 796	Topics in Pharm Practice: Complimentary & Alternative Medicine	2
PHRM 796	Topics in Pharmacy: Introduction to Statistical Tests in the Pharmacy Literature	2	PHRM 796	Topics in Pharmacy Practice: Pediatrics	2
PHRM 796	Topics in Pharmacy Practice: Oncology	1	PHRM 796	Topics in Pharm Practice: Medical Cannabis	1
PHRM 796	Topics in Pharm Practice: Introduction to Managed Care Pharmacy	2	PHRM 796	Topics in Pharmacy Practice: Veterinary Pharmacy	1
			PHRM 798	Problems in Pharmacy – arranged with faculty	1-2

Summary

First Professional Year	33 hours	Third Professional Year	35 hours
Second Professional Year	38 hours	Fourth Professional Year	38 hours
		TOTAL	144 hours

University of New Mexico

College of Pharmacy Co-Curricular Framework

This framework supports the mission and goals of the Co-Curriculum and Outreach Program, aligns with ACPE Standards 2025, and incorporates best practices for mapping, assessment, and progressive student development. It introduces simplified domains, structured semester expectations, and integrated assessment strategies.

Co-Curricular Learning Domains and ACPE Alignment

Professional and Community Engagement

Includes service learning, health screenings, patient education, and public outreach, especially focused on underserved and rural communities. Aligns with COEPA Sub-Domains 2.1, 2.2, 2.3, 2.5, and 2.8.

Leadership and Career Development

Includes participation or leadership in planning outreach events through the College of Pharmacy, attending professional conferences, and participating in mentoring activities. Aligns with COEPA Sub-Domains 2.9 and 3.1.

Personal and Professional Growth

Includes participation in self-assessment activities, engagement in wellness initiatives, development of professional identity, and involvement in activities that promote resilience and lifelong learning. Aligns with COEPA Sub-Domains 3.1 and 3.2 standards

Semester-Based Expectations by Program Year

Semester/Year	Requirements
P1 Fall	- Co-Curricular Orientation and Outreach Training - Participate in one (1) Professional and Community Engagement activity through COP events - Participate in Outreach Day - Attend career fair or complete alternate assignment - Complete semester reflection on co-curricular
P1 Spring	- Participate in one (1) Personal and Professional Growth activity through COP events or outside events - Complete reflection on co-curricular for the first year
P2 Fall	- Co-Curricular and Outreach Training - Participate in Outreach Day - Attend Career Fair or complete alternate assignment - Complete semester reflection on co-curricular
P2 Spring	Participate in one (1) Leadership activity event through COP events or outside events

	• Participate in one (1) Personal and Professional Growth activity through COP events or outside events • Complete reflection on outreach for the second year
P3 Fall	• Co-Curricular and Outreach Training • Participate in Outreach Day • Attend Career Fair or complete alternate assignment • Complete semester reflection on co-curricular
P3 Spring	• Participate in one (1) Leadership activity event through COP events or outside events • Participate in one (1) Personal and Professional Growth activity through COP events or outside events • Complete reflection on outreach for the third year
P4 Year	• Participate in one (1) Career-focused activity (e.g., residency panel, mock interview) • Complete Exit reflection summarizing co-curricular development

IPE Events – IPE events can be used to fulfill the requirements for any co-curricular requirement

Assessment and Documentation Strategy

To ensure quality and alignment with learning outcomes, the following strategies will be used:

- Student co-curricular summaries logged and tracked via the Student Affairs Office.
- Post-event reflections submitted by individual students as part of checkout process for COP outreach/co-curricular events.
- Post-event debrief forms completed by student organization leaders.
- Feedback collected from community partners following events – using an automated system.
- Faculty Mentor review of co-curricular portfolio as part of Professional Development courses.

Policy on Technical Standards for Admissions, Continuation, and Graduation

The University Of New Mexico College Of Pharmacy, in accordance with the Americans With Disabilities Act (ADA), assures equal access to educational opportunities for qualified persons with disabilities. Both applicants for admission and current students must demonstrate the ability to complete the entire Doctor of Pharmacy (Pharm.D.) curriculum with or without reasonable accommodations. Students are required to sign a document attesting to their ability to meet technical standards each year of the program.

TECHNICAL STANDARDS REQUIRED TO PERFORM THE ESSENTIAL FUNCTIONS OF THE PHARM.D. PROGRAM CURRICULUM

The curriculum requires demonstrated proficiency in a variety of cognitive, problem-solving, communicative and interpersonal skills. To achieve these proficiencies, the Pharm.D. Program requires that each student be able to meet the Technical Standards with or without reasonable accommodation. The technical standards are requirements for matriculation, course completion and graduation. The decision to request a reasonable accommodation to assist the student in meeting the technical standards is the student's, as is the responsibility to notify the College of Pharmacy if the student is unable to meet the technical standards

1. Communication:

- a.** Verbal and nonverbal: Pharm.D. students must be able to impart complex information in the English language so that others can understand it. The student must be able to elicit information from patients, patients' family members, the student's supervisors and peers. The students must note and respond to factual information provided by others as well as to cues of mood, temperament, and social responses. The student must be aware of and responsive to cultural differences in verbal and nonverbal communication. Communication with patients and all members of the healthcare team must be accurate, sensitive, effective, efficient and confidential. Communication must be timely and situationally appropriate. Students must be able to communicate with health care practitioners specifically in reviewing and recommending verbal and written drug therapy orders.
- b.** Written: Pharm.D. students must be able to produce written materials that are constructed in a legible and organized fashion, using proper grammar, spelling and punctuation. This includes both handwriting and typing/word processing skills.
- c.** Comprehension: Pharm.D. students must be able to comprehend and assimilate complex scientific and medical information in the English language from a variety of written sources including texts, journals, medical records, course syllabi, etc. In addition, the students must be able to acquire written information from a variety of sources including Medline, and other computer-search programs, the Internet, journal and text libraries, etc.

2. Cognitive skills

Pharm.D. students must be able to solve problems involving measurements, calculation, reasoning, analysis and synthesis and have the mental capacity to assimilate and learn large volumes of complex information.

- a. Problem solving: Pharm D. students are required to be able to make appropriate clinical decisions and must be able to synthesize knowledge and integrate the relevant aspects of a patient's history, physical findings and monitoring studies. Students must be able to use this information to develop and process a drug therapy and monitoring plan in an appropriate amount of time.
- b. Judgment: Pharm.D. students must demonstrate judgment in classroom, laboratory and clinical settings which shows an ability to make mature, sensitive and effective decisions in the following areas:
 - i. Relationships with persons being served and designated family members or healthcare decision-makers. The students must demonstrate professional interactions in all situations.
 - ii. Relationships with supervisors and peers. When provided with constructive feedback from an instructor or supervisor, students will adapt behavior accordingly.
 - iii. Ability to determine effectiveness of therapeutic strategies and modify the therapy appropriately.

3. Sensory skills

Observation necessitates the functional use of vision and hearing. A student must be able to observe and hear lectures, demonstrations, experiments and practice-based activities. Such activities include, but are not limited to, writing accurate prescription orders for drug therapy and evaluating visible and auditory patient signs and symptoms of drug actions. Students must be able to interpret clinical parameters for the purposes of monitoring drug therapy.

4. Behavioral/Social Skills

Pharm.D. students must exhibit appropriate professional attitudes and conduct during participation in the classroom, laboratory and in clinical experiences. Students are required to utilize their intellectual abilities, exercise good judgment and promptly complete all responsibilities involved in pharmaceutical care of patients. Students must have the capacity to develop mature, sensitive and effective relationships with patients and healthcare professionals. They must be able to function effectively in situations of physical and emotional stress.

5. Motor Skills

Students must demonstrate sufficient motor function to execute all aspects of processing drug orders. These activities include, but are not limited, operating a computer, dispensing multiple types of dosage forms, preparing compounded drug formulations, safe and aseptic handling of sterile preparations and basic physical assessment skills.

Requesting Academic Accommodations

UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER

POLICY FOR STUDENTS REQUESTING ACADEMIC ADJUSTMENTS FOR DISABILITY

In accordance with the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) and the ADA Amendments Act of 2008, the University of New Mexico Health Sciences Center (HSC) will implement the following policy to ensure equal access to educational opportunities for students with disabilities.

Applicants for admission to the University of New Mexico Health Sciences Center Programs (includes all School of Medicine programs and Colleges of Nursing and Pharmacy) as well as current students, must be able to meet the Technical Standards and complete, *with or without reasonable academic adjustments*, the entire curriculum to achieve the degree specific to their program of study.

The determination of whether an applicant or current student can meet the Technical Standards with or without a reasonable academic adjustments will be done on an individual, case by case basis through the UNM Health Sciences Committee on Students with Disabilities and faculty representatives of their program.

A student who seeks academic adjustment because of a disability must make his or her request known to the UNM Health Sciences Center liaison to the UNM Accessibility Resource Center (ARC). New incoming students are encouraged to request academic adjustments prior to matriculation so that adjustments can be in place for the start of classes. However, no incoming student is required to disclose a disability prior to matriculation. A student with a disability may request academic adjustment after matriculating at any point in the program's curriculum. A student who becomes disabled during his or her academic program may request academic adjustments as soon as the disability manifests, following the procedures outlined herein. The UNM HSC liaison will help guide the student in providing or acquiring the documentation needed by the HSC Committee on Students with Disabilities. It is the responsibility of the student to obtain the necessary documentation as required by UNM Administrative Policies and Procedures Manual Policy 2310 (Academic Adjustments for Students with Disabilities): <http://policy.unm.edu/university-policies/2000/2310.html>.

UNM documentation guidelines are established by the UNM Accessibility Resource Center and can be found at <https://arc.unm.edu/>

ACADEMIC PROGRESSION GUIDELINES FOR DOCTOR OF PHARMACY STUDENTS

Students are considered to be making satisfactory progress through the Doctor of Pharmacy program if they maintain satisfactory levels of performance both academically and professionally. Standards for academic performance are described below under Progression Criteria and standards for professional performance are described in the Student Academic and Professional Conduct Policy. Students who fail to maintain satisfactory levels of academic and professional performance are subject to sanctions outlined in this document.

GOOD STANDING

Students are considered to be in good standing in the Doctor of Pharmacy program when they are compliant with the program's academic and professional requirements and are not currently on any type of academic or disciplinary warning, probation, suspension, or dismissed from the program or the University.

PROGRESSION CRITERIA

The academic goal of all Doctor of Pharmacy students is to successfully complete the Doctor of Pharmacy curriculum in 4 academic years. The minimum desired standard for successful completion of all courses is a grade of C or CR, and a cumulative grade point average (GPA) of 2.0. A student's cumulative GPA will begin anew upon matriculation into the Doctor of Pharmacy program. The program must be completed in 6 academic years.

EXPERIENTIAL PROGRESSION CRITERIA

Introductory Pharmacy Practice Experiences (IPPE)

The minimum standard for successful completion of each IPPEs is a grade of Credit (CR) as reflected as a 2.0 on the preceptor evaluation rubric. Students who earn a grade of No Credit (NC) in an IPPE course will be placed on *Experiential Warning-Introductory*. A student placed on Experiential Warning- Introductory will receive an experiential improvement plan and will be required to remediate the course by completing a second IPPE course (respectively either PHRM 771 or 772) within a year or recommended time. The first earned NC will appear on their transcript. Individuals on Experiential Warning-Introductory will not be able to advance in the experiential curriculum without successful remediation. A student placed on Experiential Warning-Introductory who successfully completes their remediated IPPE receives the CR grade on their transcript and is able to advance in the experiential curriculum.

A student who is unsuccessful in completing a second remediation IPPE course will earn a second NC grade for that course. In this case, the student will be forwarded to the Student Affairs committee for consideration of academic progression. Students forwarded to the Student Affairs committee will be considered under the same policies and procedures as Academic Progression Guidelines.

Advanced Pharmacy Practice Experiences (APPE)

The minimum standard for successful completion of all APPEs is a grade of C. Students must have successfully completed all didactic coursework prior to starting APPEs. Students who earn a grade below a C in an APPE course will be put on *Experiential Warning-Advanced*. A student placed on Experiential Warning-Advanced will receive an improvement plan to complete and be required to remediate the APPE by completing a second APPE in the same category. The original earned grade (D or F) will appear on their transcript.

A student who is unsuccessful in completing the attempt to remediate their APPE, earning a second D or F grade for that APPE category, will be forwarded to the Student Affairs committee to consider academic progression. Additionally, their existing APPE course schedule will be

cancelled until progression issues are resolved. Students forwarded to the Student Affairs committee will be considered under the same policies and procedures as Academic Progression Guidelines.

NOTE: IPPE and APPE completion and remediation for first time remediants is considered separate from academic progression warning, probation, and suspension.

STUDENT AFFAIRS & INTERVENTION

Academic Review is conducted as required (typically one time per semester) by the Student Affairs Committee. The composition of this committee is defined in the College of Pharmacy's Committee Assignment document. A quorum must be present to conduct the Academic Review. Students will receive written notification from the Office of Student Affairs (hereinafter termed OSA) that their academic performance is unsatisfactory and has resulted in review by the Student Affairs Committee.

The Student Affairs Committee will consider the student's academic progress, as well as prior academic or disciplinary sanctions. Students who are notified of being placed on academic probation or are eligible for academic dismissal, are encouraged to appear before the Student Affairs Committee and/or submit written documentation to provide information pertinent to their performance. Students may have one advisor of their choosing present, but the advisor will not be permitted to address the committee or participate in the proceedings. The Student Affairs Administrator must receive written notification at least 48 hours prior to the meeting if an advisor will be accompanying the student, however note, if the advisor is an attorney written notice should be provided 72 hours in advance

Upon review of the student's information, the Student Affairs Committee members will excuse the student (and advisor if he/she is present), and then decide by majority vote on the appropriate sanction and intervention as described below. The Student Academic Affairs committee has discretionary authority to waive or set sanctions based on student circumstances. Students will be notified of the committee's decision by the Student Affairs Administrator. Academic Review notification(s) and sanction(s) will become a part of the student's Doctor of Pharmacy file.

ACADEMIC IMPROVEMENT PLAN

Upon notification of receiving an academic sanction and, if appropriate, Academic Improvement Plan, students will be required to meet with a member of OSA to review the plan. The purpose of this plan is to make the student aware of additional options for academic support, document a specific plan for academic improvement, and inform the student of consequences associated with failure to improve academic performance. Involvement of other appropriate faculty and staff as necessary will be a component of this plan. A copy of the academic improvement plan(s) will remain in the student's file.

Academic improvement plans are subject to future review by the Student Affairs Committee to document a student's commitment to improve and successful academic progress. If an academic improvement plan is not developed, the student will not be permitted to continue his or her enrollment in the College of Pharmacy.

ACADEMIC SANCTIONS

- Each case is considered according to the student's circumstances. Students are subject to one of more of the following actions by the Committee:
 - Academic warning
 - Academic probation
 - Dismissal from the college

Academic Warning

This sanction will be issued for any of the following:

- For a student who receives their first grade below C in any course. They will be placed on academic warning and required to complete an academic improvement plan.
- For students who receive a second D grade in any course throughout the curriculum if both D grades were not earned in the same semester.

Academic Probation

This sanction may be issued for any of the following:

- Students whose cumulative PharmD GPA falls below a 2.0.
- Students who receive more than one D grade in a single semester.
- Students who earn more than two D grades throughout their enrollment in the Doctor of Pharmacy program.
- Students who receive a failing grade (F or NC) in a required course in the Doctor of Pharmacy program.
- Students who receive multiple sanctions (academic or non-academic/disciplinary) throughout their enrollment in the Doctor of Pharmacy program.
- Students may be placed on probation only once during the program.

Academic Probation is an indication that the student may not be eligible to continue in the Doctor of Pharmacy program (with the exception of elective courses) until certain academic standards are met. These academic standards, which are a required component of the student's academic improvement plan, are as follows:

- For students who receive a failing grade (F or NC) in any course, the student must retake the same course when it is offered again and successfully complete the course (receiving a grade of at least C or CR). The student may be required to complete additional supportive courses as part of the academic improvement plan prior to retaking the course he/she failed in an effort to strengthen their ability. Students may repeat a course due to receipt of a failing grade (F or NC) only once.
- For students who receive more than one grade below C- and/or multiple sanctions, the student must demonstrate continued academic improvement. This may include retaking course(s), improving GPA, adhering to their most recent academic improvement plan, and not incurring further sanctions.

Academic Dismissal

This sanction may be issued for any of the following:

- Failing to achieve a cumulative GPA of ≥ 2.0 at the end of one semester of academic probation.
- Carrying a cumulative GPA below 2.0 for more than one semester throughout the Doctor of Pharmacy program.
- Receipt of a grade lower than C or NC in a student's second attempt taking a course or completing an experiential rotation that prompted academic suspension on its initial attempt.
- Receipt of more than one academic probation during the student's course of study in the Doctor of Pharmacy program.

Dismissal may be waived and the student continued on academic probation by special action of the Student Affairs Committee. Dismissal may be waived no more than one time during a student's course of study in the Doctor of Pharmacy program.

REQUIREMENTS FOR WRITTEN NOTIFICATION

Written notification of Academic Review and the subsequent sanction following the meeting of the Student Affairs Committee may be met by notification to the student's official University e-mail address. Notification will be provided to the student within 72 hours of the Student Affairs Committee meeting.

APPEAL OF STUDENT AFFAIRS COMMITTEE SANCTIONS

A student who disagrees with the Student Affairs Committee decision to impose sanctions more severe than an academic warning is entitled to appeal that decision to the Dean of the College. The request for appeal must be made in writing to the Dean of the College stating the reasons why the student disagrees with the Student Affairs Committee decision and must be received by the Dean of the College within 7 calendar days after the student receives the Student Affairs Committee letter imposing adverse action.

Should the student fail to notify the Dean of the College in writing of his/her appeal within 7 calendar days, this shall be considered a waiver of his/her right to appeal and the Student Affairs Committee's decision shall become final for the College of Pharmacy.

Upon receipt of an appeal of the Student Affairs Committee decision, the Dean of the College (or designee) will review the student's academic record, the decisions of the Student Affairs Committee, and any other documents in the student's appeal file. Additionally, the Dean of the College (or designee) may meet with the student. The Dean of the College (or designee) will provide the student with a written decision explaining his or her findings, conclusions, and reasons for the decision. The decision shall be made within three weeks after the appeal is submitted.

The student may appeal the Dean of the College's decision within 15 days to the Executive Vice President (EVP) for Health and Health Sciences. The EVP or his or her designee Failure to submit a timely appeal means the student waives his/her right to appeal the decision and the decision of the Dean shall be final.

The EVP (or designee) will review the student's academic record, the decisions of the Student Affairs committee, the Dean, and any other documents in the student's program file. Additionally, the EVP (or designee) may meet with the student. The EVP shall issue a written decision on the appeal and send a copy to the student, the Dean of the College of Pharmacy, and the College of Pharmacy Associate Dean for Student Affairs. If the appeal is granted, the student is remanded back to the College of Pharmacy for reintegration into the program.

If the appeal is denied by the Executive Vice President, discretionary review by the UNM President, as provided in the UNM Student Grievance Procedure found in the Pathfinder, is accorded to students in academic programs in the UNM Health Sciences. The President will normally accept review only in extraordinary cases, such as where proper procedures have apparently not been followed, where the decision appears to be unsupported by the facts, or where the decision appears to violate University Policy.

SANCTIONED STUDENT'S STATUS IN THE PROGRAM PENDING ACADEMIC REVIEW

Except under very unusual circumstances, a student involved in the Academic Review process will be allowed to continue in the program without prejudice, pending action by the Student Affairs Committee and/or Dean. Students will be expected to understand the process and related consequences of a pending academic sanction and will be encouraged to contact Student Services for questions or concerns.

ANNUAL ACADEMIC REVIEW REPORT

The Student Affairs Administrator and the Student Affairs Committee Chair will present a report of all Academic Review cases to the faculty on an annual basis. These reports will only include the number and nature of sanctions and outcomes. The names of students, courses involved, and any other personally identifiable information will not be reported, in accordance with federal student confidentiality laws.

DISPOSITION OF RECORDS

All records shall be maintained in accordance with applicable University record retention schedules and procedures.

ACADEMIC PROGRESSION GUIDELINES AMENDMENTS

Students or faculty members may propose amendments or revisions of the Academic Progression Guidelines to the Student Affairs Committee. To become effective, proposed amendments or revisions must be approved by majority vote of the faculty.

UNM COP Academic Remediation Policy and Procedures

Approved by Faculty June 12, 2018, *CLAC revised 11-17-21*

The faculty and staff at the College of Pharmacy (COP) are committed to student success and aspire for all students to perform well academically. These policies and procedures, applicable to all non- experiential learning courses in the PharmD program, describe our proactive processes to promote successful “end-of-term” academic performance.

Definitions

Learning Specialist refers to an individual with expertise in education and learning theory, qualified to support and counsel students in ways to become better students, time managers and life-long, self- directed learners. Students may be assigned to meet with the Learning Specialist or may voluntarily seek assistance at any time.

Intervention refers to strategies beyond the standard course teaching, learning, and assessment approaches, designed and implemented during the conduct of the course(s) identified by the COP Learning Specialist, to address less-than-satisfactory performance and/or missed course work that jeopardizes overall course success.

Didactic Course Intervention

Didactic course intervention occurs across courses throughout the semester using the steps below.

Intervention

Intervention will be initiated by the College of Pharmacy Learning Specialist each semester as follows:

1. A first score of 60-to less than 70% on any didactic course competency-based assessment (i.e. Category B assessment) will result in a meeting invitation from the Learning Specialist.
2. A second score of 60-to less than 70%% on any didactic course competency-based assessment (i.e. Category B assessment) will require meeting with the Learning Specialist for the remainder of the semester.
3. A first score of less than 60% on any didactic course competency-based assessment (i.e. Category B assessment) will require meetings with the Learning Specialist for the remainder of the semester.

Aspects of Patient Care (APC) Course Intervention

The APC course intervention occurs throughout the semester using the steps below.

Intervention

Intervention will be initiated by the College of Pharmacy Learning Specialist each semester as follows:

- Students with a total score <70% in one or more of the course pillars at the **end of the first eight weeks** will be required to meet with the Learning Specialist.

Intervention Process (for both Didactic and APC courses)

1. The Learning Specialist will be notified by the Curriculum Office of any students eligible for Intervention and the Learning Specialist will issue an invitation or an appointment to meet.
2. A confidential interview between the Learning Specialist and the student will provide opportunities for frank discussion(s) of student-specific factors affecting performance; the goals are to:
 - a. Evaluate study strategies, time management, metacognitive skills needed for improved performance
 - b. Discuss external factors influencing performance for referral to other COP, Health Science Center, or University resources
 - c. Review options for content learning enhancement
3. An individualized student learning plan will be developed by the Learning Specialist in collaboration with the student. The plan may include, but is not limited to:
 - a. Study/time management plans
 - b. Engagement with instructor(s) and/or tutors
 - c. Monitoring of progress and improvement
 - d. Referral to course instructor for content related issues, as needed
4. The course content instructor may be contacted by the Learning Specialist to meet with the student(s) to:
 - a. Review exam/assignments to identify areas in need of improvement such as comprehension or application of knowledge needed for content competency.
 - b. Make recommendations to promote improved learning such as: completing learning objectives, summarizing required and/or supplemental readings, completing case studies, other specific assignments as needed.

5. Students entering mandatory Intervention shall:
 - a. Meet with the Learning Specialist as required
 - b. Participate in the development and execution of a Learning Plan
 - c. Comply with all requirements of the Learning Plan until the end of the semester

in order to maintain eligibility for Course Remediation (if necessary).

Didactic Course Remediation

- Students with an overall course competency-based assessment (Category B assessment) score of less than 70% (or the class Category B median score minus 10%, whichever is lower) are eligible for course remediation.
- Students with a competency-based score greater than 70% (or greater than the class Category B median score minus 10%) are not eligible for Course Remediation.
- Students may not remediate more than two course grades per semester (not including APC courses).
- Students wanting to remediate more than two courses in a semester will need to submit an appeal to the Student Affairs Committee within 1 week of semester conclusion.
- Students opting out of didactic course remediation (i.e. non-APC courses), or those unsuccessful with remediation, will receive the original grade earned based on the average of all competency-based assessments (i.e. Category B assessments) in the course.
- Successful remediation will result in an overall course grade of no more than 70% (i.e. letter grade of C).
- The Office of Experiential Education will be notified of student election to remediate and students will be informed that remediation may impact scheduling of IPPE/APPE rotations.

Remediation Process

1. Students must have successfully executed the Intervention in all aspects during the semester (if required). Students who do not participate in and complete Intervention requirements are not eligible for Course Remediation and the didactic course grade will be determined from the earned Category B assessment scores.
2. The Learning Specialist will collaborate with the course Instructor of Record (IOR) to facilitate the process, completion, and documentation of course remediation.
3. Within one week (7 calendar days) of the semester conclusion, student(s) will submit to the Learning Specialist all required Learning Plans associated with examination scores below 70%. All outstanding Learning Plans must be submitted to the Learning Specialist by the assigned date to proceed to Course Remediation. Students who fail to complete the Learning Plan(s) will not be eligible for Course Remediation.
4. Students will remediate **each** competency-based assessment (exam/project) with a score of less than 70%. A score of 70% or more for each deficient assessment must be earned to establish competency.
5. Exam remediation for didactic courses shall be scheduled during the fifth week after the end of the second 8-week block of the semester.

Aspects of Patient Care (APC) Course Remediation

- The APC course remediation occurs after completion of a course and refers to processes available to students following unsatisfactory overall student performance of a pillar in a course. Unsatisfactory performance in a pillar is an overall pillar grade less than 70% (or less

than 85% of any PHRM 753 prescriptive authority category).

- For APC courses, students become eligible for remediation with a cumulative score of <70% in one or more of the pillars, or <80% in one or more prescriptive authority category in PHRM 753; this is separate from remediation for other didactic courses.
- Successful remediation will result in a pillar score of no more than 70%.
- The Office of Experiential Education will be notified of student election to remediate and students will be informed that remediation may impact scheduling of IPPE/APPE rotations.

Remediation Process

1. Student must have successfully executed the Intervention in all aspects during the semester (if required). Students who do not participate in and complete Intervention requirements are not eligible for Course Remediation. For these students, the APC course grade, will be determined by assigning a grade of zero for the applicable pillar(s), and will result in a course letter grade no higher than a D.
2. The Learning Specialist will collaborate with the course Instructors of Record (IORs) to facilitate the process, completion, and documentation of course remediation.
6. Within one week of the semester conclusion, student(s) will submit to the course IORs an individualized remediation plan. All assigned work must be submitted to the IORs by the assigned date to proceed to Course Remediation. Students who fail to complete the remediation plan(s) will not be eligible for Course Remediation.
3. Students will remediate **each** pillar with a score of less than 70% or each prescriptive authority less than 80% in PHRM 753. A score of greater than or equal to 70% (80% for PHRM 753) for each deficient pillar (or prescriptive authority category in PHRM 853) must be earned to establish competency.
4. Remediation for APC courses will occur within four weeks of the end of the semester.

Student Grievance Procedure for Academic Disputes

1.1. Scope

This section sets forth the procedures which should be followed by a student who believes that he or she has been unfairly or improperly treated by a faculty member or by administrative staff in connection with the academic process. For example, it applies to disputes over assignment of grades, decisions about program or degree requirements or eligibility, or claims that course requirements are unfair. This section does not include decisions made by the Student Affairs Committee for academic sanctions as described on pages 18-20 or decisions made by the Honor Council for alleged violations of the Student Academic and Code of Conduct Policy as described on pages 22-30.

1.2 Informal Resolution

1.2.1. The student should first try to resolve the grievance informally by discussing the grievance with the faculty or staff member as soon as reasonably possible after the student becomes or should become aware of the matter. If the student and faculty or staff member cannot reach agreement, the student should discuss the grievance with the Associate Dean for Professional Education or with the staff member's supervisor. If the grievance is still not resolved, the student should discuss the grievance with the College of Pharmacy Student Affairs Administrator.

1.2.2. In these informal discussions, the department chair, supervisor, Associate Dean for Professional Education, or Student Affairs Administrator is encouraged to mediate the dispute. In particular he or she should talk to both the student and the faculty or staff member, separately or together, and should examine any relevant evidence, including any written statements the parties wish to submit.

1.2.3. These informal discussions shall be completed within four weeks after the student becomes or should become aware of the matter.

1.3 Formal Appeals

If the informal discussions do not resolve the grievance, the student may bring a formal appeal. This appeal process shall begin within two weeks following the informal discussions.

1.3.1 The student shall make a written complaint to the Dean of the College. The complaint shall describe the grievance, including a statement of what happened, and the student's reasons for challenging the action or decision. The complaint shall also describe the student's attempts to resolve the grievance informally. The student may attach copies of any relevant documents. The student shall send a copy of the complaint to the faculty member and his or her chairperson. The faculty member shall have two weeks from the receipt of the complaint to respond in writing to the Dean of the College. A copy of the faculty member's response shall be provided to the student, consistent with the federal Family Educational Rights and Privacy Act (FERPA).

In deciding the appeal, the Dean of the College (or his or her designee) shall receive and review any written evidence or statements submitted by the parties and shall provide both parties the opportunity to review and respond to all evidence. The Dean of the College (or designee) shall interview each party and may interview other persons with relevant information. At his or her discretion, the Dean of the College (or designee) may decide to hold an informal hearing involving both parties and any witnesses. Where the dispute primarily concerns factual questions, rather than matters of academic judgment, the Dean

should normally hold such a hearing. If a hearing is to be held, the Dean of the College (or designee) will give the parties no less than five working days' notice. The student and/or faculty member shall be allowed to bring an advisor to the hearing, but legal counsel shall not be permitted. Cross-examination of witnesses shall be permitted, but the Dean of the College (or designee) may require that questions be directed through the Dean.

1.3.2. At his or her discretion, the Dean of the College (or designee) may convene an advisory committee to hold a hearing or otherwise help him or her evaluate the dispute. For this purpose, the Dean of the College may utilize a standing committee appointed within the College of Pharmacy.

1.3.3. The Dean of the College (or designee) shall issue a written decision explaining his or her findings, conclusions, and reasons for the decision. The decision shall be sent to each party and to the division head or supervisor of the faculty or staff member. The decision shall be made within three weeks after the complaint is filed, unless an informal hearing is held, in which case the decision shall be made within four weeks.

1.3.5. Either party may appeal the Dean's decision within two weeks to the Chancellor for Health Sciences. The Chancellor or his or her designee shall resolve the grievance utilizing any procedures available to the Dean of the College set out above.

1.3.6. The Dean of the College or Chancellor for Health Sciences shall not overrule a faculty member's academic judgment. However, upon the student's request, the decision in the case shall be included in his or her student folder, on file in the College of Pharmacy Student Services Office.

1.3.7. The Chancellor's decision is subject to discretionary review by the UNM President and Board of Regents as outlined in Sections 9.3 and 10.4 of the Student Grievance Procedure in the UNM Pathfinder.

Drug and Alcohol Misuse and Abuse Policy

Introduction

The University of New Mexico (UNM) is committed to an environment for the pursuit of its educational mission. In accordance with Regents' Policy 2.6, Drug-Free Environment, the unlawful manufacture, distribution, dispensing, possession or use of controlled substances or alcohol on UNM property or as part of any of its activities by any member of the University of New Mexico community, faculty, staff, or student, is strictly prohibited. As a condition of enrollment in the College of Pharmacy ("College"), all students must abide by the Policy, and the subsequent administrative policies and procedures adopted by the UNM President to implement the Drug Free Environment Policy.

If you are concerned about another student's, or your own alcohol or other drug use, contact the Student Health Center Counseling services, 505-277-3136, or Crossroads at crossroads@salud.unm.edu, a medical student advocacy and support group, for consultation. Additional information concerning possession of drugs or alcohol on campus can be found in University Administrative Policy 2140 and the UNM Pathfinder, Student Handbook <https://pathfinder.unm.edu/campus-policies/policy-on-illegal-drugs-and-alcohol.html>.

A. Purpose and Policy Statement

The University of New Mexico, College of Pharmacy (COP) recognizes that drug and alcohol abuse is a significant problem in our society. A student pharmacist or pharmacist who irresponsibly or illegally uses alcohol, drugs or other substances of abuse discredits his or her professionalism and pharmacy as a health care profession. Therefore, in furtherance of the education of our students and the safety and wellbeing of the patients treated, the University of New Mexico, College of Pharmacy has adopted the following policy regarding alcohol and drug use in accordance with the UNM policies and New Mexico State regulations and statutes related to Pharmacists.

Substance abuse compromises the student pharmacist's ability to learn and to practice as a health care provider. It is considered unprofessional conduct subject to the Student Ethics and Conduct Code. Substance abuse includes the use of any substance that is illegal by federal or state law, the inappropriate use of legal substances, or the use of any substance that, in the College's judgment, impairs the ability to practice pharmacy or meet the technical standards of the Doctor of Pharmacy program. Students who have a substance abuse problem should seek assistance through the COP

Office of Student Affairs and will be referred to the New Mexico's Monitored Treatment Program (NM MTP) for evaluation.

B. Drug Screening

1. Drug Screening for Experiential Education

Screening for drug and alcohol abuse, through urinalysis testing, is a requirement for participation in the experiential component of the curriculum set by College affiliated institutions. This screening is separate from other required screening (pre-matriculation, random, or with cause screening), and is considered a requirement to be eligible for Pharmacy Practice Experience- courses (PPEs).

The individual agreements with affiliated clinical training institutions may determine the timing of the drug screens. The timing may be the same for an entire class of students, or

may be different depending on institutions with more specific requirements. Pharmacy students must pass 10-panel drug screens via a collection site/laboratory of the College's choosing and at the student's expense, as determined by the College's agreements with affiliated institutions. Additionally, rotation sites have the right to drug screen students independently. This additional screen may or may not incur a charge to the student. Any student with a break in enrollment must pass the 10-panel drug screen just as an entering student.

2. Periodic, Random Drug Screening

The College may request any student (up to 10% of the PharmD student body), selected at random per protocol, to submit to an additional drug screen without cause. The College assumes the expense for the random screen. Randomly selected students will be contacted at their HSC email address and at the phone number on record with the College and be notified to provide a urine sample to a vendor selected by the College within 24 hours.

3. Reasonable Suspicion Drug and Alcohol Screening

The College reserves the right to test any Pharmacy student for the use of controlled or prohibited substances and alcohol when the actions of the student are such to provide reasonable suspicion of the use of controlled substances or alcohol. Drug testing under reasonable suspicion will be paid by the screened student.

Reasonable Suspicion is more than intuition or strong feeling, but less than probable cause. Such reasonable suspicion must be based upon specific, contemporaneous, articulate observations concerning changes in behavior and speech, or personal hygiene of the student. The observations may include indications of chronic and/or withdrawal effects of the prohibited substances or alcohol.

College administrators, faculty, staff, or internship preceptors or other healthcare professionals at the clinical institution may report reasonable suspicion to the Student Affairs Administrator or the Experiential Education Administrator. All reports of reasonable suspicion should be memorialized in writing and should (a) describe each witness' observations of the students; (b) include the date and time of the student was suspected to be or in possession of a controlled substance or alcohol; and (c) contain the names of all involved parties, including the observer.

If a student is subject to drug screening under reasonable suspicion, the student will be contacted at their HSC email address and at the phone number on record with the College notified that they have 24 hours to submit a urine sample to a vendor of selected by the College.

Due to the location of student internships, it will not always be possible for the head of Experiential Education to observe or speak with the student prior to requesting the reasonable suspicion drug and alcohol screening. However, to the extent possible, the head of Experiential Education will attempt contact with the experiential student prior to ordering the drug and alcohol screening.

4. Drug Testing Due to Previous Positive Result

As determined by Disciplinary Procedures in section G, the College will require a student with a previous positive drug screen result to submit to an additional drug screen. This

additional screen will be paid for by the student and conducted at a vendor selected or approved by the College.

All drug screens due to a previous positive result will occur at a time designated by the head of Experiential Education. Students required to submit to another drug screen will be contacted at their HSC email address and at the phone number on record with the College and have 24 hours to submit a urine sample to an approved vendor.

C. Screening Method

1. Initial Drug and Alcohol Screen

The method of screening will be urinalysis and the urine samples will be collected and screened by a private laboratory, a vendor selected by the College, or experiential site, utilizing generally accepted pathological methods. The collection and coding of specimen samples will be executed in such a manner as to ensure confidentiality. Appropriate "chain of custody" methods will be exercised to ensure complete integrity of the specimen. The laboratory will provide interpretation of the results based on predetermined cutoff values and will allow students to declare and verify prescription drugs that are being used under the care of a licensed prescriber at the time of the screening.

Prescription or over-the-counter medications shall be disclosed to the private laboratory prior to providing a urine sample or on the day immediately following the drug screen procedure. Medications disclosed will require written confirmation from the prescribing provider. It is recognized that some legal, acceptable medications may result in a "positive" drug screen result and will not be cause to implement any type of disciplinary procedures. Medical marijuana cards from the Department of Public Health Cannabis Program are not considered legal in this policy due to the federal classification of marijuana as a Schedule I substance.

2. Appeals from a Positive Result

Any initial positive drug screens can be appealed. A second drug screen on the same urine specimen at the same private laboratory will be performed to assure that no error has occurred. The cost of this additional procedure will be assumed by the student.

The student must provide notice to the laboratory of his or her intent to appeal within 24 hours of receiving notice of a positive drug screen result.

D. Refusal to Submit to Drug Screening

Refusal to submit to screening after he or she has received notice of the requirement for the drug and alcohol screening shall include any or all of the following:

- Failure to provide adequate urine for the urinalysis without a valid medical explanation;
- Engaging in conduct that obstructs or interferes with the screening process;
- Failure to be readily available for screening;
- Failure to report to and undergo prohibited substance screening as required.

Samples must meet all requirements for analysis by a licensed independent laboratory.

Those who refuse to submit to any drug and alcohol screening for any reason will be subject to disciplinary measures. Refusal to submit to screening, for the purposes of disciplinary measures, will equate to receiving a positive drug screen result, and so disciplinary measures will follow those outlined in section F below.

E. Notification of Drug Screen Results

If a negative result is returned, the result of the drug screen will be communicated to the student and College by the laboratory.

If a positive drug screen result is returned, the following steps will be taken:

1. Student will be notified by the laboratory but the College will not be notified.
2. The student has the right to review the information reported by the designated vendor for accuracy and completeness and to request that the designated vendor verify that the results of the drug screen provided are correct.
3. A persistent positive result, after the challenge period, will be communicated to the Office of Experiential Education Administrator and the Student Affairs Administrator by the laboratory. Students returning a positive drug screen result are referred for discipline as described below.

In summary, upon notification of a positive drug screen result, the student may accept the results and the College will be notified of a “positive result” with no details as to why it was positive. At this point, the student will be subject to discipline as set forth Section F herein.

F. Disciplinary Procedures

Positive drug screen results, or the equivalent, or refusal to submit to any drug and alcohol screening will result in consequences that may affect the student’s ability to proceed academically with the Pharmacy Practice Experience courses (PPE) (hereinafter referred to as “Academic Consequences”) and result in a Professional Conduct violation, following the procedures contained in the COP Student Academic and Professional Conduct Policy.

All students with a positive drug screen result, will be referred to the Student Affairs Administrator and actions will follow guidance from the Student Academic and Professional Code of Conduct Policy.

Academic Consequences will be progressive and coincide as follows with the number of times a student has a positive drug screen result while participating in a PPE:

- 1) First positive drug screen result – Student will receive a grade of ‘NC’ (no credit) or ‘F’ for the current PPE course and will be required to repeat the course following guidance from the Experiential Progression Policy. A grade of ‘NC’ or ‘F’ makes a student eligible for academic warning. Student will also be required to retake the drug screen and achieve a negative drug screen result prior to rescheduling the PPE course. This procedure is at the student’s expense.
- 2) Second positive drug screen result – Student will receive a grade of ‘NC’ (no credit) or ‘F’ for the current PPE course. Student will be referred to the Student Affairs Committee for consequences as recommended by the committee, including possible probation or dismissal from the Program
- 3) Third positive drug screen result – Student will be dismissed from the Program

G. Alcohol Use at College and Campus Functions

The College follows University Administrative Policies (UAP) on the use of alcohol at College and campus functions. (see UAP 2140).

In 1988, the US Congress enacted The Anti-Drug Abuse Act, requiring employers who contract with or receive grants from federal agencies to certify that they will meet certain

requirements for providing a "drug-free work place." This act applies to all full or part-time employees and students of the university. The possession, use or sale of illegal drugs, including nonprescribed narcotics or other controlled substances, is a violation not only of the law and university policies but also the College of Pharmacy Student Academic and Professional Code of Conduct, Drug Violations Penalties, and Financial Aid Eligibility. Under Section 485 and 484r of the Higher Education Act, students become ineligible for federal student aid upon conviction during any period of enrollment of any offense involving the possession or sale of illegal drugs. Federal aid includes Federal Pell Grants, Federal Work Study, Federal Supplemental Educational Opportunity Grants, Federal ACG Grants, Federal Direct Loans, Federal Direct PLUS Loans, Federal Direct Graduate PLUS Loans, Federal SMART Grants, Federal TEACH Grants and Perkins Loans. See Student Financial Aid Office for more guidance pertaining to Student Aid Eligibility.

Substance Use and Event Participation Policy

Students are expected to conduct themselves in a professional and respectful manner at all College of Pharmacy-sponsored events, including ceremonies, receptions and off-campus gatherings.

Any student who appears to be under the influence of alcohol, illegal substances, or any impairing substance that impacts behavior or judgment may be asked to leave the event at the discretion of Office of Student Affairs personnel. Such behavior may result in the student being prohibited from participating in the remainder of the event or ceremony.

In addition to immediate removal, incidents may be referred to the College of Pharmacy Honor Council for further review and potential disciplinary action in accordance with the College of Pharmacy Code of Conduct.

Student Academic and Professional Conduct Policy

It is critical for all College of Pharmacy Students to understand and adhere to the Student Academic and Professional Code of Conduct, as failure to adhere to these standards and policies could result in disciplinary actions being taken by the College of Pharmacy. The following sections will outline and clarify student rights, student obligations, actions deemed as violations of the code of conduct, and disciplinary actions. The College of Pharmacy hereby adopts the following code of conduct.

The College of Pharmacy Student Academic and Professional Conduct Policy is a policy under which students and faculty share responsibility for monitoring the academic and professional conduct of students. Like many other professions, pharmacy is largely responsible for formulating and monitoring its own ethical standards. This opportunity to govern itself is a privilege granted to the profession by society with the understanding that the profession will maintain the welfare of the public as its primary concern. In exercising this responsibility, the American Pharmacists Association ("APhA") has adopted codes of ethics that define minimum standards of professional conduct. In the APhA system, the responsibility of students parallels the responsibility of pharmacists, who maintain high professional standards by monitoring the professional conduct of their peers.

UNM College of Pharmacy students are expected to be familiar with the APhA Code of Ethics (Appendix 1) and to adhere to it. Graduate student activities are generally not covered by the APhA Code of Ethics but are instead described by the University of New Mexico Guide to Graduate Studies outlining Academic Integrity and Responsible Conduct of Research and in the University Student Conduct Policy. All graduate students within the College of Pharmacy must maintain the highest standards of integrity in their research and conduct themselves in a professional manner in their dealings with others. It is the responsibility of all to ensure that our actions and behaviors are maintained at the highest possible standards.

As a condition of admission to the College of Pharmacy each student must sign a pledge stating that he or she understands the Student Academic and Professional Conduct Policy and agrees to abide by its principles. Students may be required to sign pledges for all examinations, attesting that they have neither given nor received help on the examination. Similar pledges may also be required for other class work at the discretion of the instructor.

1. SCOPE

The Student Academic and Code of Conduct Policy applies to all students enrolled in the College of Pharmacy including programs, events and activities affiliated with, sponsored by or sanctioned by the College of Pharmacy. The term "student" includes both full-time and part-time students pursuing graduate or professional studies at the College of Pharmacy. The College of Pharmacy and/or the University may take disciplinary action for any offense against the Student Academic and Professional Code of Conduct when the event occurs on University premises or at a University sponsored event, or when the violation occurs off campus and failure to take disciplinary action is likely to interfere with the educational process or the orderly operation of the University, or endanger the health, safety or welfare of the University community.

Students in the College of Pharmacy are also required to comply with the University Campus Expectations outlined in

Student Rights and Responsibilities Statements: <https://rights.unm.edu/>

College of Pharmacy graduate students must also comply with all University and graduate school policies that apply to graduate students:

<https://grad.unm.edu/current-students/index.html>

Any questions regarding the Student Academic and Code of Conduct Policy should be addressed immediately to relevant faculty or the Student Affairs Administrator. Any questions regarding the meaning of any provision of this policy will be decided by the Dean of the College of Pharmacy.

All matters of allegations involving University Administrative Policies 2720 and 2740 will follow Faculty Handbook Policy D176 and the OEO Discriminations Grievance Procedure. In D176, the Dean or designee of the College of Pharmacy will issue a sanction for the responsible student as both a student at the University of New Mexico and the UNM College of Pharmacy. D176 indicates that the Dean or designee is to be the sanctioning authority for all violations of the UNM Student Code of Conduct, including those matters involving sexual harassment.

2. STUDENT RIGHTS

2.1 The primary function of the College of Pharmacy is the delivery of a curriculum to assist the student in obtaining the knowledge and necessary skills to perform as a competent practicing professional in pharmacy or in pharmaceutical sciences. It is each student's responsibility to complete the curriculum while adhering to both UNM and the College of Pharmacy's policies. Issues not addressed in this document should be addressed following the applicable procedure in the UNM catalog and Pathfinder.

2.2 The College of Pharmacy's students have the following rights:

- A.** All rights set forth by the US Constitution and the State of New Mexico's Constitution, and applicable UNM policies.
- B.** The right to adequate explanation regarding academic sanctions or dismissals.
- C.** The right to privacy of their education records.
- D.** The right to be treated fairly and with respect by faculty and staff.
- E.** The right to attend class in an atmosphere free from all forms of unlawful harassment.
- F.** The right to have a complaint alleging a breach of these rights considering and resolved by the College of Pharmacy.

3. STUDENT RESPONSIBILITIES

Student conduct expectation encompass both ethical as well as behavioral standards that reflect the way in which students enrolled in the College of Pharmacy are expected to act. UNM College of Pharmacy students are expected to be familiar with and adhere to the APhA Code of Ethics found at: <http://www.pharmacist.com/code-ethics> and in Appendix 1. Graduate student

activities are generally not covered by the APhA Code of Ethics but are instead described the University of New Mexico Guide to Graduate Studies outlining Academic Integrity and Responsible Conduct of Research and in the University Student Conduct Policy (<http://grad.unm.edu/current-students/guide-grad-study.html>).

In addition, all students must also understand and adhere to campus expectations (<https://rights.unm.edu/>), the Student Code of Conduct set for by the University of New Mexico (<https://pathfinder.unm.edu/campus-policies/student-code-of-conduct.html>), and the HSC Code of Ethics (<http://hsc.unm.edu/policyoffice/ethics.html>). It is the responsibility of all to ensure that our actions and behaviors are maintained at the highest possible standards.

The following are additional expectations that students enrolled in the College of Pharmacy are expected to adhere to:

- 3.1 Cooperate with orderly classroom conduct** – Students have the responsibility to attend class and respects other students' right to learn. This expectation includes, but is not limited to:
- 3.1.1. Refraining from conversation while the instructor is making a presentation
 - 3.1.2. Not gathering material in preparation for dismissal before the instructor has completed remarks and has formally dismissed class
 - 3.1.3. Refraining from making disrespectful or disruptive noises or sounds during class
 - 3.1.4. Refraining from activities that can be distracting to the class environment (e.g., reading newspapers, using cell phone or other electronic devices for purposes not pertaining to classroom activities)
- 3.2 Treat faculty, staff, and other students with respect** – The College of Pharmacy WILL NOT tolerate ANY actions expressing prejudice against ANY individuals, for any reason. Students are expected to avoid actions that may be deemed as intimidating, harassing, coercive, abusive, or which violate the rights of or infringe on the liberties of another person. The College of Pharmacy will not tolerate any behavior that substantially interferes with the freedom of expression, movement or activity of others. This includes actions, communications (both written and verbal), and behaviors. Students are expected to adhere to the highest standards of interpersonal conduct.
- 3.3 Confidentiality** – The University of New Mexico and the College of Pharmacy's students and faculty are obligated to maintain confidentiality of the records of patients, medical and pharmaceutical records, economic and demographic information, monetary transactions, student records, and other privileged information revealed to them. Students become automatically responsible for confidentiality and automatically assume the consequences of actions that violate confidentially upon their enrollment (or admission) into the UNM College of Pharmacy.
- A.** The New Mexico Board of Pharmacy defines unprofessional or dishonorable conduct to include: 1). Failure to hold with the strictest confidence all knowledge concerning patrons, their prescriptions, and other confidence entrusted or acquired by him. 2). Divulging in the interest of the patron only by

proper forms, or where required for proper compliance with legal authorities. [See the New Mexico Board of Pharmacy Rules: regulation Title 16, chapter 19, Par 4, Section 9.3.8]

- B. Confidentiality also includes maintaining the strictest confidence concerning unpublished research findings including but not limited to data and laboratory findings. Confidentiality prohibits the divulging of information concerning grant applications and discussing unpublished results to individuals outside of the original laboratory where the findings and data were discovered.
- C. All students are expected to exemplify attitudes, personal qualities, and professional behaviors that keep confident and safeguard the right to privacy of all students and fellow patients alike. The American Pharmaceutical Association's Code of Ethics states of confidentiality that,

“A pharmacist places concern for the well-being of the patient at the center of professional practice. In doing so, a pharmacist considers needs stated by the patient as well as those defined by health science. A pharmacist is dedicated to protecting the dignity of the patient. With a caring attitude and a compassionate spirit, a pharmacist focuses on serving the patient in a private and confidential manner”. – American Pharmaceutical Association website, Code of Ethics (<http://www.pharmacist.com/code-ethics>).

3.4 Adhere to the guidelines for appropriate attire and hygiene standards - The University of New Mexico, College of Pharmacy is committed to encouraging all students to maintain an attitude of professionalism. Accordingly, students should be aware of the importance of a professional appearance at all times.

Students must adhere to the dress standards set by their assigned practice site or patient care area. Failure to do so will be seen as an issue of non-compliance with the Student Code of Conduct and the College of Pharmacy.

3.5 Adhere to the professional code of conduct- Every student shall be honest and candid with students, faculty, staff, and administrators, and shall conduct himself/herself in a professional manner. Students have three main responsibilities, as a student:

- A. Do not violate the honor code
- B. Do not aid in a violation of the honor code
- C. Report any suspected violations of the honor code

When a student views a situation ambiguous in terms of working together on assignments, referencing requirements, use of old exams, etc., it is the responsibility of the student to clarify the any ambiguities with the professor for the given class.

4. DEFINITIONS OF UNACCEPTABLE STUDENT CONDUCT

The following behaviors are examples of violations of the Conduct Policy. This list is not intended to be an all-inclusive list of behaviors that violate basic ethical standards expected

of College of Pharmacy students. In addition, attempts at misconduct as well as completed acts are violations of the Student Academic and Professional Conduct Policy.

4.1 Academic Dishonesty. Deception is contrary to the high standards of personal conduct described above. A student who engages in any form of academic dishonesty is subject to disciplinary action by the College of Pharmacy. All College of Pharmacy students are required to understand and adhere to the policies and standards set forth by the University of New Mexico.

The UNM Academic dishonesty policy can be found at <https://policy.unm.edu/regents-policies/section-4/4-8.html>. The UNM Academic Integrity policy can be found at <https://grad.unm.edu/resources/graduate-students/academic-integrity-and-research-ethics/index.html>. Below are examples associated with of the most common forms of academic dishonesty.

- A. Cheating.** Using unauthorized notes, study aids, or information from another student or students' paper on an examination. The copying of graded homework assignments (including lab assignments) from another person with intent to receive a grade; working together on an individual take-home test or homework assignments when not specifically permitted to do so by the instructor; looking at another student's paper during an examination; looking at texts or notes during an examination when not expressly permitted to do so.
- B. Plagiarism.** Quoting or copying test or other works on an exam, written assignment, or homework without citation in attempts to submit as your own work, handing in a paper obtained from a term paper service, or one downloaded from the internet with intention to pass off as your own work; retyping another student's paper in your own name and handing it in as your own work; copying homework answers from text to hand in as your own work.
- C. Fabrication.** Presenting data in a piece of work that were not gathered in accordance with the guidelines defining the appropriate methods of collecting or generating data, and failing to include a substantially accurate account of the method by which the data were collected or generated.
- D. Artificial Intelligence.** Using artificial intelligence (AI) tools and applications (including ChatGPT, DALL-E, and others) to produce content for course assignments or assessments, without faculty permission
- E. Artificial Intelligence.** Using artificial intelligence (AI) tools or applications (including ChatGPT, DALL-E, and similar technologies) to generate, revise, or substantially contribute to course assignments, assessments, or other academic work without prior faculty authorization.
- F. Electronic Devices.** Using electronic devices, including smartphones, smartwatches, calculators not specifically permitted, or other personal electronic devices, during quizzes, examinations, or other assessments without faculty authorization.
- G. Aiding or abetting dishonesty.** Giving your work to another student to be

copied and submitted as their own work for credit; giving another student answers to examination questions or allowing another student to copy your own work when the examination is being administered; informing other students of any test material that will appear on exams; giving, selling, or lending a paper or exam to another student.

- H. **Conspiracy** – Planning, with one or more students, to commit any form of academic dishonesty, including allowing other students to plagiarize work.
- I. **Violating instructions regarding completion of assignments.** Although independent study is recognized as a primary method of effective learning, at times students benefit from studying together and discussing home assignments and laboratory experiments. When any material is to be turned in for inspection, grading or evaluation, it is the responsibility of the student to ascertain what cooperation between students, if any, is permitted by the instructor.

4.2 Professional Misconduct

- A. **Falsification of records and official documents.** Without proper authorization, altering documents affecting academic records, forging signatures of authorization or falsifying information on an official academic document, election form, grade report, letter of permission, petition, clinical record or any other official College or University document.
- B. **Providing professional care in an unsafe or harmful manner.**
 - Acting without demonstrated competence or without the guidance of a qualified person in the provision of a recommendation to a patient or health care provider.
 - Willfully or intentionally doing physical and/or mental harm to a patient/client.
 - Exhibiting careless or negligent behavior in connection with the care of a patient/client.
 - Refusing to assume the assigned and necessary responsibility for care of a patient/client and failing to inform the instructor so that an alternative measure for that care can be found.
 - Working outside of one's professional boundaries as defined by state or federal statutes.
- C. **Disrespecting the privacy of a patient/client.**
 - Using sufficient information about a patient (e.g. full name, last name, or position) in written assignments and/or patient data of any sort (e.g. computer generated forms that will be removed from the clinical area), such that the patient could be identified.
 - Discussing confidential information in inappropriate areas, such as elevators.
 - Discussing confidential information about a patient with third parties who do not have a clear and legitimate need to know.
 - Violation of the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

- Referencing patients, or patient-related or other confidential information on social networking sites or other public forums.

D. Falsifying patient records or fabricating professional care or patient experiences.

E. Failing to report omission of or error in treatment or medications.

F. Drugs and alcohol.

- Using, possessing, selling or distributing illicit drugs; illegally using, selling, possessing, or distributing drugs or alcohol; or using prescribed, over the counter, or illicit substances in such a manner as to impair one's judgment or performance as a pharmacy student, including being in an educational or clinical setting under the influence of alcohol, illegal drugs, or prescribed drugs inconsistent with the prescribed use.
- Concerns of alcohol abuse or abuse of other controlled substances, as well as behavior that impairs a student's ability to meet professional standards over time, or disturbing or threatening behavior, should be reported to the Student Affairs Administrator.
- The University of New Mexico has policies regarding the use of alcohol and other drugs and these policies are in effect for students:

<https://pathfinder.unm.edu/campus-policies/policy-on-illegal-drugs-and-alcohol.html>

4.3 Commission of a Crime. Engaging in illegal activity that would impact the student's ability to obtain or maintain a professional license or employment in the fields of pharmacy and research. The results of criminal proceedings will not be determinative of proceedings under this Conduct Policy.

<https://pathfinder.unm.edu/code-of-conduct.html>

4.4 Violating Computer Use Policies. Violating the University's Information Technology Policies and Guidelines that defines proper and ethical use of computers and electronically stored data. <http://policy.unm.edu/university-policies/2000/2500.html>

4.5 Disruptive behavior. Disruptive behavior includes conduct such as obstructing or disrupting classes, team projects, talks, presentations, or other activities or programs of the College of Pharmacy or other parts of the University and obstructing access to College community assets or to similar resources in other parts of the University. Excluded is any behavior protected by the University's policy on "Freedom of Speech" (<https://pathfinder.unm.edu/campus-policies/freedom-of-expression-and-dissent.html>)

4.6 Students will treat fellow University of New Mexico students, faculty and staff with respect and in a civil manner. Incivility is not considered to be professional behavior and is prohibited within this policy.

4.7 Sexual and other unlawful harassment.

This conduct includes not only sexual or other unlawful harassment based on a

person's identity or status, but also hazing, stalking, repeatedly sending e-mails, making phone calls or transmitting documents that are uninvited and unwanted, making threats, and any other wrongful conduct that seriously interferes with the work or study of any member of the school community, guest or any person with whom the offender is interacting in connection with any school program or activity.

<http://policy.unm.edu/university-policies/2000/2740.html> . The Student Affairs Administrator will refer any discriminatory act as provided in Article 4.4 of the Student Grievance Procedure to the University's Compliance, Ethics, and Equal Opportunity ("CEEEO"). <https://ceeo.unm.edu/>

4.8 Relationships with faculty and staff members.

Students should be cognizant of and abide by the University Administrative Policies and Procedures Manual - Policy 2215: Consensual Relationships and Conflicts of Interest <https://policy.unm.edu/university-policies/2000/2215.html>.

4.9 Obstructing the investigation of a possible violation of this conduct policy.

Including intentionally and knowingly filing a false complaint; making dishonest or misleading statements; falsification of information; altering, destroying or deleting relevant documents, files or e-mails; violating the confidentiality of the process; or any other act that hinders an investigation.

5. REPORTING PROCEDURES

Responsibilities for Reporting. All members of the College of Pharmacy community – faculty, administrators, staff and students – have a responsibility to report any reasonable suspicion that a student has violated this Student Academic and Professional Conduct Policy. A report (see Professional Conduct Concern Note) must be immediately be made in writing to the Student Affairs Administrator. Anyone not sure of whether or not to report a suspicion should consult with the Student Affairs Administrator before making a decision not to formally report the suspicious behavior. It is important that all faculty and staff members report all misconduct so that there can be fairness in the application of the Student Academic and Professional Conduct Policy across the entire student body.

All faculty members are required to report in writing (e.g., email or Professional Conduct Concern Note form) all incidents of academic misconduct (e.g., plagiarism, cheating, falsification of data, and violation of professional standards) that occur in their course to the Student Affairs Administrator. The Student Affairs Administrator will make a determination of next steps, including whether an investigation should be instituted by the Honor Council. Per University policy a faculty member may impose course sanctions for academic violations and should do so after consultation with the Student Affairs Administrator. Independent of the faculty member's action, the Student Affairs Administrator may also refer the issue to the Honor Council.

6. INVESTIGATION

6.1 The Student Affairs Administrator will provide the accused student of notice in writing of the allegation of misconduct within five University business days of

receipt of the report alleging misconduct.

6.2 The Student Affairs Administrator will meet with the accused student as soon as possible after the notice of alleged misconduct has been sent but no later than ten University business days. In this meeting, the Student Affairs Administrator will (a) inform the student of the nature of the allegations; (b) explain the investigation and hearing process; and (c) explain the student's options. As a result of this meeting the following outcomes are possible:

- A determination by the Student Affairs Administrator that no infraction occurred and the matter is concluded; or
- Acceptance of responsibility by the accused with referral to the Honor Council for determination of sanctions, in consultation with the Student Affairs Administrator; or
- A referral of the matter to the Honor Council for investigation, hearing and if appropriate determination of sanctions.

All Honor Council proceedings, records, and actions shall be considered confidential in nature. No person other than the accused having knowledge of such proceedings or actions shall reveal anything concerning them except as provided in this Code of Conduct, or as required by existing law.

6.3 Honor Council Membership

The Honor Council will be comprised of:

- A. Two first-year pharmacy students (PS-1)
- B. Two second-year pharmacy students (PS-2)
- C. Two third-year pharmacy students (PS-3), one of which may be appointed as Co-Chair
- D. Two fourth year pharmacy students (PS-4)
- E. Faculty members who are serving on the Student Affairs Committee, the Chair of the Student Affairs Committee will also serve as Chair for the Honor Council

Student Honor Council members self-nominate by submitting an essay detailing why they believe they will be an ideal honor council member and a 200 word response to a behavioral question selected by the Office of Student Affairs. Potential Honor Council members are selected by the current Honor Council members based on their essay and response to the behavioral question. Each submission will be blinded to conceal the identity of the student before being considered by the Honor Council. The representatives are appointed for one year terms by the College of Pharmacy, but eligible for re-appointment if deemed appropriate. Re-appointment is at the sole discretion of the Student Affairs Administrator or designate. In order to be re-appointed student representatives must not be the subject of an investigation of any sort and must not receive any Professional Conduct Concern Notes (PCCNs). Appropriateness of re- appointment will also consider any concerns expressed by faculty, staff or fellow students specific to a student honor council member's behavior, relatability or other critical aspects of peer to peer representation.

6.4 Investigation

The team of investigators from the honor council is appointed by the Student Affairs Administrator based on the principals that investigators should not be members of

the accused's class, and/or student organization or involved in the incident. The investigation will consist of the following: The investigators shall interview the reporting witness, the accused (if the accused consents), any other witnesses, and all other persons, including faculty and staff, who may have relevant information. Written statements should be taken from all witnesses.

After all witnesses have been interviewed and the investigation has been completed, the investigators shall report the finding to the Honor Council. The investigators will not serve as decision makers in the Honor Council hearing.

6.5 Hearing

The hearing will be conducted by the Honor Council, as described above, trained in the hearing procedures. If a student has concerns about potential bias of a member of the Honor Council, the student can submit a written request to the Student Affairs Administrator, with rationale, for recusal of that member. The Student Affairs Administrator will approve or disapprove the request and that decision is final. The Honor Council shall make a determination whether a violation has occurred using the preponderance of evidence as the standard of guilt. Determinations by the Honor Council will, in most cases, will be rendered within 60 days of the referral to the Honor Council by the Student Affairs Administrator. This date can be modified at the discretion of the Student Affairs Administrator if deemed necessary. A violation shall be found upon a majority vote of the members of the Honor Council.

6.6 The Hearing Procedures are outlined in Appendix 2.

6.7 Appeal Process

Within five University business days of receiving the written notification of the Honor Council's decision from the Student Affairs Administrator, the student may submit a written appeal of the decision or the sanction (or both) to the Dean of the College of Pharmacy. Appeals must be based on at least one of the following arguments:

- A.** There were violations of procedure that seriously compromised the investigation and/or conclusions.
- B.** The decision was not in accordance with the evidence presented.
- C.** The severity of the sanction is grossly disproportionate to the violation(s) committed.
- D.** There is significant new evidence not reasonably available at the time of the investigation.

The Dean of the College will determine if the appeal meets the above conditions. On appeal, the Dean of the College shall review the decision or the sanction (or both) of the Honor Council. The Dean of the College may meet with the party appealing the decision to discuss the reasons for the appeal.

After reviewing the case, the Dean of the College may 1) affirm or overturn the findings of the Honor Council, 2) affirm or overturn the sanctions imposed by the Honor Council, or 3)

remand the case back to the Honor Council for further proceedings. Where a case is remanded, the decision may be appealed after rehearing to the Chancellor of Health Sciences.

The Dean of the College will issue a written notification regarding the decision within fourteen University business days of receiving the appeal.

The student may appeal the Dean of the College's decision within two weeks to the Chancellor for Health Sciences. The Chancellor or his or her designee shall review the appeal utilizing any procedures available to the Dean of the College as set out above.

The Chancellor's decision is subject to discretionary review by the UNM President and Board of Regents as outlined in Sections 9.3 and 10.4 of the Student Grievance Procedure in the UNM Pathfinder.

Process for Reporting Issues of Professional Concern (i.e., Professional Conduct Concern Note (PCCN)):

- Reporting of all incidents for which there is a reasonable suspicion that a student has violated the Student Academic and Professional Conduct Policy will be done by submitting an email or submitting the information through Professional Concern Notice Smartsheet link .
- PCCNs will be classified as "academic integrity concern," "professionalism concern," or "other concern" by the person reporting the incident. For academic integrity concerns, reporting faculty will be consulted regarding possible consequences.
- If a faculty or staff member or other individual who has contact with the student and observes a student exhibiting unethical behavior/substandard professionalism, in an experiential practice setting, the concern should be brought to the course director/Director of Experiential Education who will then decide whether to formally submit a PCCN to the Student Affairs Administrator.
- If the concern for substandard professionalism arises outside of a College of Pharmacy course, faculty or staff should also submit the PCCN directly to the Student Affairs Administrator Education.
- Per University policy a faculty member may impose course sanctions for academic violations but should only do so after consultation with the Student Affairs Administrator.
- Resolutions of each case will be recorded by the system, and accessible only to the Student Affairs Administrator or her/his designees.
- A note of acknowledgement will be sent to the reporting party regarding resolution of the incident without providing details of any sanctions or lack thereof.
- In incidences when a resolution to a case is not reached prior to reporting of grades, an incomplete should be entered for the student(s) in question, with the grade adjusted once the resolution is reached.

The purpose of a PCCN is to report instances or patterns of substandard professional behavior including concerns of academic integrity by a student pharmacist to the College administration where the concern will be reviewed confidentially. The student may be referred to counseling or other formal intervention.

Professional Conduct Concern Notes may result in a report of substandard professionalism in the student's formal academic record.

The Student Affairs Administrator will review each PCCN. The student will be notified of the concern and required to meet appropriate administration, including the Student Affairs

Administrator. Subsequently, a plan for addressing the behavior, and further counseling, remediation or formal action will be developed based on the seriousness of the concern.

The Professional Conduct Concern Note will be placed in the student's academic file. In general, the documentation for students with fewer than three Professional Conduct Concern Notes will be purged from their academic file at the point of graduation. However, in rare cases, due to the seriousness of the incident, the Professional Conduct Concern Note may become part of the student's permanent record.

Records of all Professional Conduct Concern Notes will also be maintained in a confidential, secure database.

A student who has three or more Professional Conduct Concern Notes will be reported to the Honor Council for further action/recommendation. However, any Professional Conduct Concern Note may result in a recommendation for a hearing (see Appendix 2) if the problem with professionalism or academic integrity is deemed serious enough by the Student Affairs Administrator responsible for this student.

The Professional Conduct Concern Note form can be found on the College intranet or requested from the Office of Student Affairs.

ACPE Student Complaint Procedures

The University of New Mexico College of Pharmacy is committed to a policy of fair treatment of its students in their relationships with the administration, faculty, staff and fellow students. Any student may bring a grievance or complaint in reference to the Accreditation Council for Pharmacy Education (ACPE) accreditation standards. The ACPE, as directed by the U.S. Department of Education, requires that any student complaint lodged against the College of Pharmacy, or the pharmacy program, alleging a violation of the ACPE Accreditation Standards should be submitted in writing to the Student Services Office. The Accreditation Standards ("Accreditation Standards and Guidelines for the Professional Program in Pharmacy Leading to the Doctor of Pharmacy Degree," adopted June 14, 1997) can be found in the publications section of the ACPE Website at: <https://www.acpe-accredit.org/program/pharmd-program-accreditation/#standards>

Office of Curricular Affairs (OCA)

The OCA oversees the didactic education component of the curriculum. OCA provides classroom and laboratory educational support to Doctor of Pharmacy students and COP Faculty. Incoming students receive accounts in the Moodle Learning Management System, ExamSoft testing software, SimlQ OSCE system, Pioneer RX (utilized in the Aspects of Patient Care lab) and iclicker Cloud. Moodle is utilized to document, track and grade for most courses.

Curricular Policies

Examination Policies

The question format for exams will be at the discretion of the instructor and may include one or more of the following: essay, short answer, multiple-choice, matching, true/false, select all that apply, or calculations. Electronic exams will be conducted via ExamSoft. Whether conducted on campus or remotely, all exams are proctored and students must arrive/login on time. Instructions and corrections will be made at the beginning of the exam period and once made will not be repeated. Students arriving after a completed exam has been submitted will not be allowed to sit for the exam and will receive a grade of zero for that exam, which cannot be remediated.

Personal items such as backpacks, briefcases, books or notebooks ARE NOT allowed in the seating area during exams. Calculators will be allowed; however, joint use of a calculator is not permitted. The use of smart phones, smart watches, or other personal electronic devices is prohibited during exams. Possession of such during exams will result in an exam grade of zero, which cannot be remediated.

Examination Download:

Electronic exams will be conducted and will require the installation of appropriate software on student-owned laptops. Students should download exams as soon as they receive notification of availability; however, exams will be available for download up until two (2) hours prior to the scheduled examination. Students must log-in on time for the examinations. Instructions and corrections will be made at the beginning of the exam period and once made will not be repeated.

Grade Reduction for Failure to Download Exams by Deadline:

There is one "Grace" per semester for failure to download exams by the required time of two hours prior to exam start time. Any subsequent late download in any course for any exam that semester will result in a 10% deduction to the exam which was downloaded late. The Office of Curricular Affairs (OCA) will notify students of their late download and copy the IOR.

Per Semester

First Late Download – Grace Download with NO point deduction

Subsequent late downloads (in any class) – 10% deduction for each occurrence in any course

Missed Exams and Makeups:

Students who are unable to take an exam at the scheduled time must notify the Instructor of Record (IOR) before the exam begins; a time stamped email is considered acceptable notification.

Students are required to submit a legitimate reason for the missed exam (e.g., illness or an approved professional obligation) prior to the scheduled exam time. If a student is incapacitated and unable to provide notice in advance, documentation must be submitted as soon as possible, but no later than 24 hours after the scheduled exam time. Personal travel on University class days is not considered an acceptable reason for missing an exam.

If appropriate documentation is not provided, the student will receive a zero for the exam, and a makeup exam will not be offered.

The following conditions apply to makeup exams:

- Exams are never administered early
- Makeup exams are taken only after the originally scheduled exam
- The time and place of the makeup exam are determined by the IOR and Office of Curricular Affairs (OCA)
- The format and/or questions on a makeup exam are determined by the IOR and may differ from the original exam

When an absence is approved in advance (e.g., approved professional leave), the absence from class is excused; however, the student will still be required to complete the exam as a makeup exam after the scheduled exam date.

Students who are uncertain whether their circumstances qualify for a makeup exam should contact the IOR as soon as possible.

Attendance Policies

Students are responsible for all content, discussions, announcements, and other course-related materials presented during class sessions. Attendance will be randomly tracked, faculty may use the iclicker® response system, in-class activities, and/or sign-in sheets throughout the course. *Students are responsible for a properly functioning device to use iclicker Cloud®. Failure to participate in class activities will result in forfeiture of any associated points or credit.* All sessions will be recorded, and lecture capture videos will be posted on the course Moodle page. In addition to the college-wide policy on remediation, students are **required to attend a minimum of 80% of class sessions for which attendance is tracked** in order to qualify for the remediation exam(s).

Calculations Key Assessment (CKA) Policy

Doctor of Pharmacy students need to demonstrate competency in performing pharmaceutical calculations for success in the curriculum (didactic and experiential), licensing board examinations, and in future professional practice.

All P2 and P3 students must complete the College-wide formative CKA each Fall semester. The goal is a score of $\geq 80\%$. The formative CKA is completed in order

to prepare students for the Spring summative CKA. All P1, P2, and P3 students must complete the College-wide summative CKA each spring semester with a minimum score of 80% to successfully complete the applicable spring Aspects of Patient Care course. For more specific information pertaining to the CKA, please see the Calculations Key Assessment Procedure document posted on the class Moodle page.

If required, remediation is limited to one attempt each year and will be offered within 4 weeks of conclusion of the Spring semester. Students who are not successful with remediation will receive a grade of zero for the CKA for that contribution to the Special Skills pillar (see below). In addition, those students will be required to complete the Calculations Learning Plan arranged by the COP Learning Specialist. The summative CKA is cumulative through the curriculum with students responsible for calculations covered during each year of the curriculum (e.g., P1 students for P1 courses, P2 students for P1 and P2 courses, P3 students for P1, P2, and P3 courses). For more specific information pertaining to the CKA, please see the Calculations Key Assessment Procedure document posted on the class Moodle page.

Office of Experiential Education (OEE)

The OEE oversees the experiential education components of the curriculum. Experiential education comprises approximately one-third of the curriculum and is an integral component in transitioning classroom and laboratory learning to real world application. Pharmacy Practice Experiences (PPEs) begin in the summer following completion of the first year of study, and are required, unpaid experiences for which students receive academic and intern hour credit. Each experiential course will be scheduled by the OEE. Incoming students will receive accounts in Core ELMS, a cloud-based rotation management program and database: <https://corehighered.com/login-elms.php>. Core ELMS is used to document and track experiential activities and student compliance during the professional program.

The experiential portions of the curriculum are briefly outlined below:

Introductory Pharmacy Practice Experiences (IPPEs)

- Community Pharmacy IPPE (Post First Didactic Year):
Students are required to successfully complete a 4-credit hour **Community Pharmacy** IPPE course typically completed during the summer following completion of the first didactic year. The primary emphasis is on prescription intake, processing and dispensing; obtaining a patient history (drug and medical), and communicating drug and health prevention information to patients. Students are expected to complete all course requirements during a minimum of 160 unpaid intern hours.
- Institutional Pharmacy IPPE (Post Second Didactic Year):
Students are required to successfully complete a 3-credit hour **Institutional Pharmacy** IPPE course typically completed during the summer following completion of the second didactic year. This IPPE takes place in a hospital or other healthcare institutional setting. The objective of this experience is to introduce students to the essential skills and tasks in this setting such as interpreting and entering medication orders, drug distribution within the institution, pharmacy administration, and observation/participation of sterile product preparation to the extent allowed by law. Students are expected to complete all course requirements during a minimum of 120 unpaid intern hours.
- Direct Patient Care Experience (DPCE) IPPE (During Third Didactic Year):
Students are required to successfully complete a longitudinal **DPCE** IPPE course during the Fall and Spring semesters of the third professional didactic year. This experience focuses on patient transitions of care, medication reconciliation, and patient-focused assignments. Students are expected to complete all course requirements during a minimum of 40 unpaid intern hours each semester (Fall and Spring) for a total of 80 unpaid intern hours.
- The IPPEs in combination with didactic coursework prepares the student to enter the Advance Practice Experiences (APPEs).

The IPPEs in combination with didactic coursework prepares the student to enter the Advance Practice Experiences (APPEs).

Advanced Pharmacy Practice Experiences (APPEs)

Students must successfully complete nine 4-credit hour APPEs. Students complete a minimum of 160 unpaid intern hours for each APPE which comprise the entire fourth year of study and are designed to provide advanced and specialized pharmacy practice experiences. Students will have the opportunity to experience pharmacy practice in a variety of settings. Students are required to complete the following APPEs

- Ambulatory Care

- General Medicine
- Advanced Community
- Advanced Hospital
- Indirect Patient Care
- Patient Care (x2)
- Elective Choices (x2):

One APPE must be completed in a rural New Mexico setting. The rural setting must be within the state of New Mexico, excluding the greater Albuquerque, Bernalillo, Los Lunas, Edgewood, or Rio Rancho areas. Expenses associated with this rotation are the responsibility of the student, including but not limited to: travel, lodging, and food.

UNM Health Sciences Center/College of Pharmacy Compliance Requirements

All UNM College of Pharmacy students must be in compliance with the requirements listed below. It is the student's responsibility to ensure that all records are current with all College, HSC, and rotation site requirements year-round, including breaks between semesters. In cases of non-compliance prior to the due date for any compliance requirement the student may be subject to consequences up to and including: registration hold, earning a failing grade or No- Credit (NC) for the block, and/or loss of rotation site.

Please note: All costs associated with the requirements listed below, including, but not limited to, housing, reliable transportation, and living expenses related to rural rotations, are the responsibility of the student. Students should contact the HSC Financial Aid Office to discuss any financial aid resources that may be available to help offset these costs.

HIPAA (Patient Privacy) and Bloodborne Pathogens Training Requirements

The Health Insurance Portability and Accountability Act (HIPAA) requires all health care organizations to ensure privacy and security of patient information. Patient information must be guarded against all inappropriate disclosures. When in doubt, students should ask a faculty member or preceptor before disclosing any information. UNM Health Sciences Center requires HIPAA training courses to be completed annually through the online training modules available in UNM Learning Central. Students will need to log in to Learning Central to complete the training modules (directions below).

Incoming students will initially complete HIPAA on entry to the College, and then again in January of every subsequent calendar year.

The "Bloodborne Pathogens Training for HSC" (ONLINE ANNUAL COMP HSC 2382) module is an approach to infection control that applies to blood, all body fluids, all secretions and excretions, non-intact skin and mucous membranes and items contaminated by the same for all patients and patient specimens, regardless of diagnosis. Standard precautions will be the minimum standard of practice throughout the University of New Mexico Health Sciences Center. All human blood and body fluids will be handled as if they are infectious.

Incoming students will initially complete the Bloodborne Pathogens Training on entry to the College, and then again in January of every subsequent calendar year.

Students must upload all certificates of completion into their Core ELMS profile under the "Requirements" tab.

To complete the HIPAA and Bloodborne Pathogens training modules, follow the instructions listed below:

Log in to <https://learningcentral.health.unm.edu> using your UNM or HSC Net ID and password and complete the following training modules:

- “HIPAA and HITECH training”
- “HIPAA Security Training”
- “Bloodborne Pathogens Training for HSC” for most students
or “Infection Prevention and Control” for UNMH employees

Each January HSC trainings are updated and titles may change. Check with the Office of Experiential Education for current requirements each year

Immunization Requirements for UNM Students in Healthcare Programs

Healthcare students must complete all required immunizations, per UNM Student Health and Counseling (SHAC) before they engage in patient care activities.

Once registered at UNM, students should upload their immunization records to the [SHAC Health Portal](#) and use the messaging feature to schedule an appointment with the UNM [SHAC Allergy & Immunization \(A&I\) Clinic](#) for review and verification of records. The College of Pharmacy will only accept the SHAC immunization record as proof of compliance. First-year students must include the SHAC Student Compliance Progress Report detailing estimation of completion. First year students will need to upload both documents to their account in Core ELMS in the “Requirements” tab, under “Immunizations”. All subsequent immunizations need to be updated on the SHAC immunization record and uploaded to Core ELMS.

Students at the College of Pharmacy will complete SHAC’s requirements for immunizations for healthcare programs: <http://shac.unm.edu/services/allergyimmunization/hsc-clinical-students.html>

Intern Licensure

Students will be eligible for a pharmacy intern license after successful completion of the first semester of pharmacy course work. An active Intern license is a College requirement after the first semester. Students must obtain and retain an active New Mexico intern license to complete any PPE. Failure to comply will result in forfeiture of academic credit (for IPPEs or APPEs); and/or forfeiture of accrued intern hours. Students apply for and renew their license at the state website:

<https://www.rld.nm.gov/boards-and-commissions/individual-boards- and-commissions/pharmacy/>

Students enrolled in any IPPE or APPE outside the state of New Mexico must adhere to the intern licensing requirements of the state the PPE is located to receive credit. This includes both direct and indirect patient care experiences. Students enrolled in any remote PPE that is based in a state outside of New Mexico must adhere to the intern licensing requirements of the site as communicated by the preceptor or as outlined in the affiliation agreement. It is the financial and administrative responsibility of the student to gain the additional intern licensure and provide documentation of the license to OEE by uploading the license into CORE ELMS.

Cardiopulmonary Resuscitation (CPR) Certification

UNM Health & Health Sciences and the COP require all student pharmacists to maintain current CPR certification throughout the program. Incoming students must complete either the “BLS for Healthcare Providers” or “CPR Pro” training course, and the course must have an in-person component. Certification must be renewed every two years.

Incoming students who are not certified must obtain certification as soon as possible and before participation in Community Outreach Day. Students need to upload proof of certification to their account in Core ELMS under the “Requirements” tab, under “CPR”.

If you have any questions regarding CPR requirements, contact OEE

Other UNM HSC and College of Pharmacy Requirements for Pharmacy Practice Experiences (Note: the list below is subject to change)

- 10-panel Drug Screen from College approved vendor
- Background Checks with fingerprints from the NM Department of Health
- Health Insurance
- Professional Liability Insurance (in the 4th year for APPEs)
- Immunizations including annual influenza vaccination
- Site specific requirements may include, but are not limited to; Covid and booster vaccinations or approved waiver, additional documentation, background check updates, more frequent TB testing or drug screens within specific timeframes, and Fit testing for N95 Respirators

More information will be provided regarding specific requirements throughout the curriculum

Pharmacy Practice Experiences courses (rotations) Important Information

Scheduling PPEs

All PPEs (rotations) will be assigned by the Office of Experiential Education (OEE), taking into consideration: site availability, rotation type, and each student's career goals and personal circumstances. The majority of these experiences must be completed in New Mexico, with at least one APPE completed in rural NM. Grades below "C" in didactic courses may delay or affect eligibility for experiential placements.

Experiential Education Scheduling and Academic Progression

Participation in Introductory Pharmacy Practice Experiences (IPPEs), Direct Patient Care Experiences (DPCEs), and Advanced Pharmacy Practice Experiences (APPEs) requires students to meet all applicable progression requirements and successfully complete prerequisite coursework as outlined in the PharmD curriculum.

To support student success and minimize disruption to experiential sites and preceptors, the College may consider academic standing and progression risk when assigning experiential education schedules. Students on academic probation, students with one or more deficient course grades, or students identified through the College's academic success processes may be assigned to a later experiential block to allow sufficient time for academic remediation and progression review.

Students whose progression to the subsequent professional year is not dependent upon the outcome of a remediation activity may remain in their assigned experiential block, provided they comply with all remediation requirements and remain otherwise eligible to participate in experiential education.

Students whose progression eligibility is dependent upon successful completion of remediation, academic review, or other progression determinations may have their experiential schedule modified pending final progression decisions. In these circumstances, participation in an experiential education experience may be delayed until eligibility is confirmed.

The Office of Experiential Education, in consultation with the Office of Student Affairs and the Office of Curricular Affairs, retains the authority to assign and modify experiential schedules to ensure compliance with academic progression requirements and to support the effective operation of experiential education programs.

Didactic/Lab Remediation and Experiential Scheduling Policy

Students who are required to remediate a didactic or laboratory course must prioritize completion of remediation requirements. As a result, experiential scheduling may be adjusted to accommodate remediation timelines.

While students are permitted to request one off-block during the summer IPPE schedule and one off-block during the APPE year, these preferences cannot be guaranteed if remediation is required

- Students completing didactic or lab remediation may be scheduled during their originally requested off-block.
- Approved off-block requests will become void if they conflict with remediation scheduling needs.
- Experiential rotations will be scheduled based on remediation timelines and preceptor/site availability, not student preference.
- Students should expect limited flexibility in scheduling while completing remediation requirements.

Students are responsible for understanding that the need for remediation may impact experiential scheduling and could affect overall progression if delays occur.

Practice Site Affiliation Agreements:

The Site Affiliation Agreement (SAA) is a legal document between the UNM College of Pharmacy and individual practice institutions. The OEE is required to have executed a fully signed SAA before students are eligible to begin experiences at scheduled practice sites.

- Students are not involved in the affiliation agreement process. The OEE strives to ensure a SAA is in place at least two months in advance of each student's scheduled rotation. If the agreement is not fully in place two months in advance, the rotation may be cancelled. In the event of cancellation, the OEE will arrange for another comparable rotation.
- There are several pre-approved sites outside the state of New Mexico. Requests for non-listed, out-of-state APPEs should be submitted to the OEE at the beginning of the fall semester of the third year of study. If affiliation agreements are completed and approved, the student pharmacist requesting the site must complete the experience and will not be allowed to drop it.
- The College of Pharmacy shall be responsible for completing the SAA of the program, including facilitating site-specific student requirements.

Student Rotation Change Request Policy and Procedure:

All assignments are made based on preceptor/site availability and student preference.

- IPPE rotations will be assigned by the OEE after consideration of student preferences and educational needs.
- APPE site preferences are submitted by students in February of the third professional year. Students will receive their assignments for APPE sites in early spring and will have an opportunity to request changes (except extraordinary out-of-state experiences as described above) based on requirements and availability until the deadline.

Schedule adjustments requested after the deadline will not be granted unless there are extreme circumstances, such as illness or significant life event. Each change request will be evaluated on a case-by-case basis. Change requests due to non-extreme circumstances, including changing professional interest, will not be permitted.

Students must not approach established preceptors to arrange or modify practice experiences. All

requests related to experiential education placements must be directed to the Office of Experiential Education (OEE).

It is not appropriate for student pharmacists to contact preceptors regarding any changes to an assigned rotation, including changes to site or scheduled dates. Any changes not initiated and approved through the OEE will not be permitted. "This restriction does not apply to routine communication with assigned preceptors related to onboarding, scheduling logistics, or rotation expectations after assignments have been finalized.

If a change is believed to be necessary, the student must first discuss the request with the OEE. Due to the complexity of scheduling and site coordination, the OEE does not allow student pharmacists to independently communicate with preceptors regarding rotation changes.

If a student-initiated rotation change has been approved and finalized, it may not be changed again due to reconsideration by the student.

Students who wish to identify a new potential preceptor or site may make initial contact solely to determine interest and facilitate an introduction to the OEE. All subsequent evaluations, approval, contacting, and onboarding of the preceptor/site will be managed by the OEE

Contacting Preceptors: Student Policy

At least two weeks before the PPE begins, students must contact their IPPE/APPE preceptor by email for the following purposes:

- Introductions: Introduce yourself and remind them that you are scheduled to complete a rotation at their site in two weeks
- CV submission: Share a copy of your CV (also upload into CORE ELMS requirements tab)
- Logistics: Confirm when and where to report for first day
- Specifics: Ask if there are articles/guidelines to review in preparation for the rotation
- Setting of goals: Share your personal SMART learning goals for the PPE.

If the student has not received a response from the preceptor after two or three e-mails, the student should then try reaching the preceptor by telephone. If the student is not able to reach the preceptor after these attempts, contact the OEE for assistance.

Onboarding and Compliance Requirements Policy

Students are responsible for completing all required onboarding materials, compliance documentation, and site-specific training by the stated deadlines. This includes, but is not limited to, health requirements, background checks, site onboarding modules, and any documentation required by the experiential site.

Failure to complete onboarding requirements in a timely manner may result in removal from the assigned rotation site. If a student loses a rotation due to non-responsiveness, incomplete documentation, or failure to complete required onboarding or training, the following will apply:

- The student will receive a grade of F (APPE) or No Credit (NCr) (IPPE).
- The student will be required to repeat the experience at a different site.
- Placement in a replacement rotation is not guaranteed and is dependent on preceptor and site availability.
- Any previously approved schedule preferences, including requested off-blocks, will be null and void.
- The student will be rescheduled into the next available rotation, regardless of prior scheduling preferences.
- Students are expected to monitor communications and respond promptly to requests from the Experiential Education team and assigned sites. Failure to do so will be considered

unprofessional conduct and may impact progression in the curriculum.

IPPE (community and institutional) and APPE Hours

Each student is required to spend a minimum of hours over each rotation:

- Community IPPE: 160 hours over a 4-week period
- Institutional IPPE: 120 hours over a 3-week period
- Direct Patient Care Experience IPPE: 4 hours per week - 10-weeks during Fall and Spring semesters of P3
- In addition to the 10 days on site, other activities, such as patient case and drug information presentations, are conducted on campus as arranged by the IOR
- APPE: 160 hours over a 4-week period

Students are expected to spend a minimum of 40 unpaid hours in the practice site weekly. Breaks and additional hours may also be scheduled. It is suggested that this time be divided into five 8-hour days, though preceptors may design different student work schedules that best suit their practice or to ensure students are having the best learning experiences. Practice sites may require students to work more than 40 hours per week. Students should adopt the same work schedule as their preceptor or the co-preceptor to whom they are assigned. This may include evening, night or weekend hours.

If rotation days fall below the minimum equivalent of 20 days (or 15 days for the institutional IPPE) due to holidays, the preceptor will attempt to build in extra rotation time to ensure students complete the required minimum of practice experience (equivalent of 20 days, or 15 days for the institutional IPPE). Based on what works best for the site/preceptor, examples could be longer rotation days, extra shifts on evenings/weekends, etc.

The preceptor may also require attendance at local professional society meetings and/or CE programs.

The P3 DPCE IPPE courses are concurrent with the fall and spring semesters for 1 afternoon a week (1-5pm) for 10 weeks. In addition to the 10 days on site, other activities, such as patient case and drug information presentations, are conducted on campus as arranged by the IOR

Any need for alterations in the daily schedule, either by the student or the preceptor, should be addressed during the first days of the practice experience.

Students at the UNM College of Pharmacy who successfully complete all 13 PPEs (4 IPPEs + 9 APPE courses) will be certified for a minimum of **1,800** intern hours, meeting licensure practice requirements of the New Mexico Board of Pharmacy.

Grading PPEs

Students will be evaluated by preceptors who are either Volunteer Clinical Assistant Professors or COP faculty, for all PPEs. The preceptor will complete an evaluation of each student which forms the basis for academic credit.

IPPE courses are evaluated by preceptors and grades will appear on students' transcripts as "Credit or No Credit". Grades of "No Credit" are considered a failing grade and will require the IPPE be repeated typically at a different site with a different preceptor.

APPE courses are evaluated by preceptors and letter grades will appear on students' transcripts. If a student is asked to leave a site for performance or for professionalism issues, a grade of "F" will be earned. Grades less than "C" are considered failed APPE rotations. Failed courses will have to be repeated at comparable but usually different sites.

All failed grades will be handled according to the UNM COP remediation guidelines and Experiential Progression Policy.

Students will be required to complete evaluations of preceptors for every IPPE and APPE course. Academic credit cannot be earned without completed evaluations of preceptor.

Assignment Submission and Grading

Unless otherwise specified by the Office of Experiential Education (OEE) or the individual preceptor, all required assignments, evaluations, and documentation must be submitted no later than 11:59 p.m. MST on the final day of the assigned practice experience block.

Failure to submit assignments by the stated deadline, submission of incomplete work, or failure to complete all required experience activities may result in a reduction of the final grade for the practice experience and/or require the student to repeat the Pharmacy Practice Experience (PPE). The determination of any grade reduction or repeat experience requirement will be made by the Office of Experiential Education in consultation with the preceptor.

Students are responsible for monitoring assignment requirements and deadlines.

Attendance, Bereavement, Residency Interviews Policy

Preceptors acknowledge that extenuating circumstances occasionally occur that prevent attendance. Students should contact the preceptor as soon as possible if a sudden "excused absence" (see list below to see what qualifies) is expected. The absence should be made up to ensure the objectives of the rotation are met. Any unexcused absence (without prior notification or extenuating circumstance as listed below) during the course of a rotation month may result in a grade of "No Credit" (for IPPE rotations) or grade reduction(s) (for APPE rotations).

Failure to make up missed hours will result in a grade of "No Credit" (for IPPEs) or a reduction in the final grade (for APPEs).

Excused Absences

Planned or unplanned absences are excused only under the following circumstances, which are beyond the control of the student. All absences, including excused, will have to be made up to meet the objectives of the PPE.

Health/medical issues

Medical necessity refers to unpredictable or serious illness of the student or an immediate family member. Documentation such as a physician letter may be required at the request of the preceptor. Routine medical or dental visits **do not meet** this criterion. Students should schedule routine medical or dental visits at the end of the day to avoid missing a full day of rotation. Medical leave requests follow COP policies. Direct inquiries to the Associate Dean for Student Affairs.

Bereavement Policy

An absence may be excused due to the death of a student's immediate family member (parent, child, spouse, grandparent, or sibling). Associated absences should not exceed a total of 3 days during the rotation month.

Participation in pre-approved college or professional activities

Participation in pre-approved college or professional activities (i.e., admissions interviews, activities of local, state, or national pharmacy organizations): This constitutes an excused absence only when the student receives permission from the preceptor of the planned absence no later than 30 days prior to the start date of the PPE. Documentation of the professional activity is required. Note: planned professional activity absences of four (4) or more days, may result in rescheduling and loss of the effected PPE.

Work as an employee does NOT constitute participation in a professional activity and is NEVER

considered an excused absence from PPEs.

Participation in Residency Interviews

Students seeking post-graduate training may have multiple interview dates from mid-January to the first week of March, with the majority occurring in February. The student must inform the preceptor of any planned interview(s) during first contact with the preceptor prior to the start of the APPE. If not possible to notify during first contact, then the student should notify the preceptor immediately at the time the interview is scheduled. When possible, especially if more than 2 interviews are anticipated, students are encouraged to schedule interviews to occur over several APPEs, to minimize the disruption of each APPE. For interviews during the same APPE month, students should attempt to consolidate interview days and combine/arrange travel to minimize time away from rotation (for example, departing **after** the workday on rotation). An absence of two days (2) during one APPE may be allowed as Professional leave without need for make-up time at the preceptor's discretion. Additional days or hours taken for residency interviews will be made up at the convenience of the preceptor. Documentation of scheduled interviews is required: an email to the preceptor copied to the OEE noting the location and dates required for the interview, and any additional documentation per the preceptor's request.

Other extenuating circumstances

The preceptor may, at their discretion, approve a request for an excused absence for other reasons. When possible, such requests should be made in writing at the beginning of the PPE.

Unexcused absences are absences from rotation for any reason not listed above.

Procedures for Absence Notification

The student must contact the preceptor of an anticipated absence as early as possible prior to the absence. If circumstances prevent the student from providing prior notification, the student or his/her designate should contact the preceptor by telephone first thing in the morning of the absence. Messages should include the student's name, a brief summary of reason for absence, and anticipated date of return. The preceptor will determine whether the absence is excused or unexcused.

Inclement Weather Policy

In the event of inclement weather, students should call their preceptor and follow the instructions of their preceptor. If there is concern about the preceptor's instructions, students should contact the OEE immediately. If a student does not feel that it is safe to travel, the preceptor should allow them to make up the time missed.

Steps to Take in the Event of Other Emergencies

In the event a student requires first aid or emergency care for an illness or injury that occurs while the student is performing practice experience responsibilities, the preceptor should call the Director of the Office of Experiential Education (OEE) immediately at (505) 272-4121, or OEE staff at (505) 272-5319 or (505) 272-8945. The student should seek medical care as appropriate and will be responsible for the cost of care. Students are required to carry medical insurance while enrolled in the PharmD program.

Blood & Body Fluid Exposure/Needle-Stick:

Student should obtain immediate medical care. Review SHAC's link for more information.

<https://shac.unm.edu/services/allergy-immunization/blood-body-fluid-exposure.html>

College of Pharmacy Student Affairs

Following is a list of available services; please see the following pages for more detailed descriptions.

Advisement

The College of Pharmacy Advisement Center is currently located at 1011 Las Lomas during College of Pharmacy renovation. The Advisement Office should be notified immediately of any name changes. The Advisement Office telephone number is (505) 272-3241, please call for an appointment.

Academic Support

The College of Pharmacy Learning Specialist is currently located in the SURGE building during College of Pharmacy renovation. The learning specialist is available to assist students in strategies, tools, and concerns to assist in student success. Students may make an appointment with the learning specialist through the front desk or by calling 505-272-3241.

Individual tutoring sessions may also be arranged through the learning specialist as required for students. Tutors are selected from upper-level pharmacy students who have achieved academic excellence in their course(s). Students' attendance at tutoring sessions will also be tracked and used to evaluate the effectiveness of the tutoring program.

Personal Support Services

College of Pharmacy students with personal, financial or emotional concerns can make an appointment with any member of the Student Affairs Office. The Office of Student Affairs strives to help students function successfully in their academic lives. Appointments can be made by calling (505) 272-3241 or by stopping by the front desk at the College of Pharmacy.

Financial Aid Office

College of Pharmacy students apply for financial assistance at the UNM Health Sciences Center Financial Aid Office. Questions regarding financial aid may be directed to Janell Valdez (javaldez@salud.unm.edu) or via phone at (505) 272-2954. Information on state and federally funded grants, scholarships, and loan resources can be obtained through her office. Additional questions on College of Pharmacy-level scholarships or questions can be directed to the COP Office of Student Affairs, (505) 272-3241.

Scholarships/Loans

For the most up to date information on scholarships, loans, and other financial aid information, please see the Health Sciences Center's website (<http://hsc.unm.edu/academicaffairs/financialaid/>).

Residency

Students are classified according to their residency status for tuition purposes. Students wishing to change from nonresident to resident classification must submit a residency petition. Information on residency can be found on the Registrar's website <http://registrar.unm.edu/residency/index.html>

College of Pharmacy Student Policies

Excused Absence and Leave of Absence (LOA) Policy (Didactic curriculum)

Personal Excused Absences

Students may need to miss class for a variety of legitimate reasons. For illness-related absences lasting fewer than three days, students are encouraged to contact their instructor directly. While such absences may be noted, short-term acute illness does not qualify as a college-level excused absence.

For absences related to significant personal circumstances, including medical, legal, family, or other serious matters, students should contact the Associate Dean for Student Affairs. The Associate Dean will assist students in providing any required documentation and coordinating arrangements for missed coursework and other academic obligations.

*for information on absences in Pharmacy Practice Experiences, please refer to the Office of Experiential Education section of the handbook

Professional Leave/Co-curricular Activities Absences

Students may participate in co-curricular activities and professional development opportunities as part of their educational experience. To support these activities, the College may grant excused absences to students who are in good academic standing.

All co-curricular and professional leave requests must be submitted through the designated request form and are subject to review by the Associate Dean for Professional Education.

Students may be granted professional leave to attend up to two (2) professional conferences, meetings, or similar events each semester. Requests for professional leave must be submitted at least two (2) weeks before the event. This advance notice allows time to verify the activity, make appropriate academic arrangements, and notify relevant faculty and offices.

Students may also receive up to two (2) excused absences per 8-week course block for participation in approved co-curricular activities. Excused absences will not be granted for activities that conflict with scheduled course assessments or Aspects of Patient Care laboratory sessions.

Requests for co-curricular absences must be submitted at least one (1) week before the activity to allow time for review and faculty notification. Students are responsible for communicating with course faculty regarding missed coursework and completing all course requirements associated with approved absences.

Leave of Absence (LOA)

Students who require a longer LOA, greater than 3 days, from the PharmD curriculum for personal or medical reasons will need to receive approval from the Associate Dean for Student Affairs. Requests for a LOA require a written request and conversation to determine the best course of action for the student. Once approved, the Associate Dean for Student Affairs will coordinate communication with other administrators and faculty regarding the LOA. The Associate Dean for Student Affairs will be the liaison for the beginning and ending of the LOA.

Please note, LOA requests that exceed more than 2 weeks during the didactic phase may result in the student being required to take a LOA for one year. The PharmD curriculum is a lock-step curriculum with an 8-week block schedule, as such, missing more than 2 weeks of one course is equivalent to missing a quarter of a semester for the blocked courses.

Travel

Travel Support

Students may request partial financial support to attend professional meetings through their student organization affiliation. Funding is limited and thus prioritized based on the type of activity: (a) representing the College in a National Competition; (b) poster or platform presentation; (c) National Committee representative; (d) College activity (e.g., attending a meeting); and (e) other.

Travel Eligibility

In order for a student to be eligible for College of Pharmacy or student organization funding for student professional travel, the student must be in good academic standing. In addition, in order for a student to be approved for professional travel, the student must be in good academic standing. "Good standing" indicates the student is not currently on academic warning or academic probation during the time period in which the professional travel will occur. A student who has completed all requirements of a previous academic warning or probation are eligible for student travel, as long as they have returned to good standing. Further information on the requirements for good academic standing can be found in the Student Handbook in section of Academic Progression Guidelines for Doctor of Pharmacy Students.

Transportation

Reliable Transportation

Students are required to have reliable transportation available to them by the beginning of the first (P1) year, to facilitate travel to experiential training sites. Transportation-associated expenses, including the cost of gasoline and parking fees where necessary, are the responsibility of the student.

College of Pharmacy Technology

All student pharmacists will be required to have a personal notebook (laptop) computer with wireless networking capability and software that meets a minimum set of specifications. These specifications can be found in **Appendix 3:Technology Requirements**.

Outlook

Outlook is the official e-mail system for the Health Science Center. Every student will be assigned an HSC email account. All correspondence from the College of Pharmacy will be sent to your HSC email account. We will not send correspondence to any other account. It is the student's responsibility to check this account daily.

Change of Name/Address/Phone Number

Name Change

Name changes are processed only for currently enrolled students. Students will need to process a name change request with the College of Pharmacy Office of Student Affairs and with the UNM Registrar's Office. Students need only submit a copy of their driver's license to College of Pharmacy Office of Student Affairs. Students are required to provide at least two types of identification for UNM Registrar as well as complete a demographic update form. Examples of such documentation are driver's license, marriage certificate, birth certificate, social security card or court order for legal name change. The forms and documents can be submitted through the Student Affairs office, who will then process through to the UNM Registrar's office.

Change of Contact Information

Any changes in contact or emergency contact information must be immediately updated in CORE Elms. To change contact information with UNM's system, students must access the demographics section in

my.unm.edu with a UNM Net ID and password. Please note that changes must be made in both systems.

Display of UNMH Security ID – All students are required by hospital policy to wear hospital photo identification badges issued by University Hospital Security while in University patient service facilities. The Health Sciences Center requires students to wear the University Hospital identification badge at all official clinical duties, as well as all activities within the UNM Hospitals system which include Lovelace, Presbyterian, and the VA. Wearing the photo identification badge enhances building security and decreases the risk of imposters posing as health care personnel in patient service facilities. A student without a Hospital badge may be refused contact with patients.

Among the major concerns of the College of Pharmacy is maintenance of student health and ready availability of quality health care for pharmacy students. Several sources of medical care are available to students.

Student Health & Counseling (SHAC) is a comprehensive outpatient health care service for UNM students. SHAC is located on the main campus just north of Johnson Center and across the mall from the Student Union Building (SUB). SHAC provides medical care, counseling and therapeutic services, and health education. SHAC is open Monday through Thursday, 8:00 am to 5:30 pm, and Friday, 9:00 am to 5:00 pm. Hours are subject to change; check website (shac.unm.edu) for updates. Medical students are encouraged to contact SHAC early in the academic year to establish a primary care provider.

Student Organizations

General Description of a Chartered Organization

Chartered Student Organizations (CSOs) are formed to further the common interest of the members of the group and the University community. The role of CSOs is an essential part of the co-curricular program at the University. Open to all eligible students and facilitated through faculty and staff resource persons, these organizations develop many opportunities for learning which supplement and reinforce the classroom activities for students. Students serving as leaders in the student organizations must be in good academic standing.

Privileges of being a Chartered Student Organization

- Access to some University resources and facilities such as equipment, meeting rooms and display tables, often at no cost to the organization.
- Pharm.D. program CSOs may receive their organizational mail in the COP Office of Student Services.
- Eligible to request funding from the Graduate and Professional Student Association (GPSA).
- Eligible to receive advice and assistance in organizing events, fund raising and recruitment from the Student Activities Center and GPSA.
- Listed in the Campus Guide to Chartered Student Organizations, published every fall semester.

Chartering

Student organizations that charter through the Student Activities Center, located in the Student Union Building (SUB), leads to official recognition of the student organization by The University of New Mexico. An organization can be chartered at any time of the year, but, organizations that charter within the first four weeks of fall semester will be listed in the annual publication "Campus Guide to Chartered Student Organizations." Chartering does not constitute an endorsement of an organization, its program or purposes by the University of New Mexico or the College of Pharmacy. Student groups that wish to be chartered through the College of Pharmacy must comply with the Student Pharmacists Council guidelines and complete the College of Pharmacy chartering form. Information can be obtained on the guidelines for chartering in the College of Pharmacy and approval of new student groups the Student Pharmacist Council.

College of Pharmacy Student Organizations

Academy of Managed Care Pharmacy

A student organization for those who are interested in managed care pharmacy. Managed Care Pharmacy is organized health care delivery systems designed to improve both the quality and the accessibility of health care, including pharmaceutical care, while containing costs. As managed care pharmacy works to forge innovative, comprehensive programs that deliver effective pharmaceutical care, it also improves outcomes and overall quality of life for the patient.

American Pharmacists Association - Academy of Student Pharmacists (APhA-ASP)

The University of New Mexico College of Pharmacy holds membership in the Academy of Student Pharmacists through its local chapter. Membership is open to all students in the College of Pharmacy. The University of New Mexico Chapter holds regular meetings and sponsors various social and professional activities. Members also receive the monthly issues of American Pharmacy and Pharmacy Student as well as other materials and are eligible for special rates on various forms of insurance.

Industry Pharmacist Organization (IPhO)

The UNM Chapter of the Industry Pharmacist Organization is dedicated to promoting the roles of industry pharmacists & demonstrating their indispensable value. IPhO offers many opportunities to advance students in their pursuit of an industry career such as: career and interview coaching, professional development workshops, CV reviews and many other valuable experience opportunities.

Kappa Psi (KY)

Kappa Psi is one of several National Fraternities in Pharmacy. Gamma Rho Chapter of The University of New Mexico was chartered in 1948. Gamma Rho chapter annually undertakes a number of professional and social activities.

Network for Collaborative Oncology Development & Advancement (NCODA)

NCODA is addressing the growing need for medically integrated dispensing cancer clinics to improve operations at the pharmacy level in order to deliver quality and sustainable value to all members involved in the care of cancer patients receiving oral chemotherapy. We provide students with a variety of opportunities including research in industry, exposure to the oncology profession, and philanthropy events such as Be the Match.

Phi Delta Chi (PDC)

The Phi Delta Chi Fraternity develops leaders to advance the profession of pharmacy; it is a *lifelong experience*, promoting scholastic, professional, and social growth in its Brothers

Phi Lambda Sigma (PLS)

Phi Lambda Sigma promotes the development of leadership qualities, among pharmacy students. By peer recognition, the Society encourages participation in all pharmacy activities. Members are selected by peer recognition. For a student to be eligible for membership, they shall be of high moral and ethical character, shall have successfully completed at least one professional year of scholastic work applicable toward a recognized pharmacy degree, and shall have a cumulative grade point average of 2.50 on a 4.00 grading scale.

Rho Chi

Rho Chi is the National Honor Society of Pharmacy, open to students with high scholastic achievement. Gamma Beta Charter at the University of New Mexico was chartered in 1968. Membership invitations are normally extended annually to those pharmacy students who have achieved a designated GPA and have met other requirements for membership.

Student Pharmacists Council (SPC)

The Student Pharmacists Council (SPC) of the University of New Mexico College of Pharmacy, is committed to serving the needs of the pharmacy students, promoting academic and professional excellence and providing an efficient forum for student involvement and representation.

Student Pharmacists Research Interest Group (SPRIG)

SPRIG provides an opportunity for students with an interest in research to connect with similar students as well as gain knowledge about potential research opportunities. Connections with faculty completing research within the College of Pharmacy provide an additional opportunity for students to learn more about research and engage in active research.

Student Society of Health-System Pharmacy (SSHPP)

The Student Society of Health-System Pharmacy is the student chapter of the American Society of Health-System Pharmacists. ASHP provides leadership and support to its 30,000+ members in all areas of healthcare delivery systems including managed care organizations, home care, and long-term care facilities. Through this forum, pharmacy students are provided the perfect arena to prepare for future career opportunities.

University Student Resources

Loboweb

LoboWeb is the portal with most information necessary for students to successfully function on campus. You can use LoboWeb: to search course descriptions and class schedules, pre-register for classes using LoboWeb (online), to view your registration status and holds and check UNM business functions such as checking your Bursar account, making payments online, and running degree audits.

UNM Pathfinder

<http://pathfinder.unm.edu/>

The University of New Mexico publishes a general information handbook for university students. This publication contains information on Academic Support Services, Athletics and Recreation, Career Services, Cultural Resources, Entertainment, Financial Assistance, etc. In addition, the Pathfinder is an excellent reference for University of New Mexico policies and procedures. The handbook is published by the Student Activities Center, sac@unm.edu.

UNM Health Sciences Library and Informatics Center

The Health Sciences Library and Informatics Center supports the educational, research, and clinical activities of the north campus and University of New Mexico Hospital. Reference and information services include assistance in locating materials, information literacy and database searching, citation management, and more through instruction, virtual assistance, and personalized consultations. With a collection of over 150,000 books, journals, audiovisuals, and computer software the Library also offers a reserves collection and interlibrary loan to help users access the resources they need to meet their goals.

Resources

Contact HSLIC:

Website: <https://hslic.unm.edu/>

Virtual Assistance (Chat, Email, Booking Appointments, and more): <https://hslic.unm.edu/library/ask-a-librarian.html>

Phone: 272-2311

Email: reflib@salud.unm.edu

Library Hours:

Please see <https://hslic.unm.edu> for the most up-to-date hours of operation

Borrowing Periods:

- Books – 4 weeks (can be renewed once)
- Media/DVDs – 2 weeks

Interlibrary Loan: HSLIC provides Interlibrary Loan service to obtain research materials not available at UNM by requesting them from other libraries. These resources include but are not limited to journal articles and books. Requests are taken through the library's website and there is no fee to students for this service. If you are having trouble locating materials you need through the library, please reach out to HSLIC via chat, Ask a Librarian, or phone for help searching.

Printing: HSLIC (and the entire UNM campus) offers wireless printing provided by WEPA.

This system allows you to print from your own laptop or mobile device – as well as HSLIC's student computing – to any WEPA printer on campus. You can even send your print job from home and pick it up from the printer of your choice when you get to campus. Full-time HSC students receive a \$10 print credit per semester for use on WEPA printers.

Computers: Student computing is located on the second floor of the library. Sign in with your HSC Net ID to use the desktop computers to access library resources, use Microsoft Office products, Adobe Creative Suite, check email, browse the web, etc.

Other University Libraries: HSC students may use all University of New Mexico Libraries, in addition to the Health Sciences Library and Informatics Center (HSLIC). These include Zimmerman Library (the main library on campus), Centennial Science and Engineering Library, and the Fine Arts and Design Library.

Tobacco and Drug Campus Use Policy

Smoke Free Health Sciences Center Campus

The University of New Mexico is committed to wellness, prevention, and providing a healthy environment in which to learn, work, and visit; therefore, effective August 1, 2009 smoking and the use of tobacco products are prohibited on all University property except in a small number of designated outdoor areas authorized by the University President. This policy applies to cigarettes, cigars, pipes, smokeless tobacco, all other tobacco products, and other legal smoking preparations, including but not limited to, hookahs, electronic cigarettes, and clove cigarettes. This policy applies to all vehicles on University property, including privately owned vehicles, and all property owned, leased, operated, or under the control of UNM except for branch campuses. For smoking cessation resources please go to <http://hsc.unm.edu/about/smokefree/>

The success of maintaining a tobacco-free campus requires thoughtfulness, consideration, and cooperation between smokers and nonsmokers. Members of our campus community are empowered to respectfully inform others about this policy in an ongoing effort to enhance awareness and encourage compliance. Enforcement of this policy will depend upon the cooperation of all faculty, staff, students, and visitors not only to comply with this policy, but also to encourage others to comply with the policy, in order to promote a healthy environment in which to work and study. Repeated and/or serious violations by students and visitors can be referred to the Dean of Students for review and action under the Student Code of Conduct and the Visitor Code of Conduct. Repeated and/or serious violations by faculty and staff should be referred to the cognizant dean, director, or department head. Students, faculty, and staff violating this policy are subject to disciplinary action.

Drug Free Campus

The University of New Mexico is committed to an environment for the pursuit of its educational mission free of drugs and the illegal use of alcohol. The unlawful manufacture, distribution, dispensing, possession or use of controlled substances or alcohol on UNM property or as part of any of its activities by any member of the University of New Mexico community, faculty, staff, or student, is strictly prohibited. As a condition of enrollment all students must abide by the Policy on Illegal Drugs and Alcohol. If you are concerned about another student's, or your own alcohol or other drug use, contact the Student Health Center's Student Assistance Program or Crossroads, a medical student advocacy and support group, for consultation. Additional information concerning the Policy on Illegal Drugs and Alcohol is found in the UNM Pathfinder Student Handbook available through the UNM Student Activities Center and the COP Office of Student Services.

Appendix 1: APhA Code of Ethics

Code of Ethics for Pharmacists

Retrieved from <https://www.pharmacist.com/Code-of-Ethics> on July 15, 2026 unaltered

PREAMBLE

Pharmacists are health professionals who assist individuals in making the best use of medications. This Code, prepared and supported by pharmacists, is intended to state publicly the principles that form the fundamental basis of the roles and responsibilities of pharmacists. These principles, based on moral obligations and virtues, are established to guide pharmacists in relationships with patients, health professionals, and society.

I. A pharmacist respects the covenantal relationship between the patient and pharmacist.

Considering the patient-pharmacist relationship as a covenant means that a pharmacist has moral obligations in response to the gift of trust received from society. In return for this gift, a pharmacist promises to help individuals achieve optimum benefit from their medications, to be committed to their welfare, and to maintain their trust.

II. A pharmacist promotes the good of every patient in a caring, compassionate, and confidential manner.

A pharmacist places concern for the well-being of the patient at the center of professional practice. In doing so, a pharmacist considers needs stated by the patient as well as those defined by health science. A pharmacist is dedicated to protecting the dignity of the patient. With a caring attitude and a compassionate spirit, a pharmacist focuses on serving the patient in a private and confidential manner.

III. A pharmacist respects the autonomy and dignity of each patient.

A pharmacist promotes the right of self-determination and recognizes individual self-worth by encouraging patients to participate in decisions about their health. A pharmacist communicates with patients in terms that are understandable. In all cases, a pharmacist respects personal and cultural differences among patients.

IV. A pharmacist acts with honesty and integrity in professional relationships.

A pharmacist has a duty to tell the truth and to act with conviction of conscience. A pharmacist avoids discriminatory practices, behavior or work conditions that impair professional judgment, and actions that compromise dedication to the best interests of patients.

V. A pharmacist maintains professional competence.

A pharmacist has a duty to maintain knowledge and abilities as new medications, devices, and technologies become available and as health information advances.

VI. A pharmacist respects the values and abilities of colleagues and other health professionals.

When appropriate, a pharmacist asks for the consultation of colleagues or other health professionals or refers the patient. A pharmacist acknowledges that colleagues and other health professionals may differ in the beliefs and values they apply to the care of the patient.

VII. A pharmacist serves individual, community, and societal needs.

The primary obligation of a pharmacist is to individual patients. However, the obligations of a pharmacist may at times extend beyond the individual to the community and society. In these situations, the pharmacist recognizes the responsibilities that accompany these obligations and acts accordingly.

VIII. A pharmacist seeks justice in the distribution of health resources.

When health resources are allocated, a pharmacist is fair and equitable, balancing the needs of patients and society.

* adopted by the membership of the American Pharmacists Association October 27, 1994.

Appendix 2: Honor Council Hearing Procedures

- A.** No later than ten University business days before the hearing, the accused student, the Student Affairs Administrator and the Honor Council Investigators must submit to the Honor Council, in writing, all documents that each party would like the Honor Council to consider and a list of all relevant witnesses whom they would like to have submit testimony before the Honor Council. If the accused student intends to have a personal observer accompany him or her, as outlined in subparagraph (G) below, the accused student must submit the name of the observer and must state whether the observer is an attorney.
- B.** No later than five business days before the hearing, the chair of the Honor Council will provide each party with a packet that includes all documentation that has been submitted for review by the Honor Council, the list of witnesses to appear, and information about the hearing, including the names of the Honor Council members who will be present.
- C.** In addition to hearing testimony from the witnesses identified by the student and the investigators, the Honor Council may, at its discretion, hear testimony from any other party whose testimony it deems relevant to the proceeding, including other witnesses and, even if not a witness, or the instructor of the course. The Honor Council may also review any other documents or evidence that it deems relevant to the proceeding.
- D.** The accused student will have an opportunity to appear before the Honor Council to present his or her case and remain present while all testimony and information is presented to the Honor Council. The accused student may review all documents considered by the Honor Council and may question witnesses who appear before the Honor Council. The accused student may also present his or her own evidence and witnesses.
- E.** The Honor Council may conduct the hearing even if a party is absent and will make its findings and recommendations based on the information presented to the Honor Council.
- F.** The Honor Council may limit any testimony based on redundancy or lack of relevance.
- G.** The accused student may be accompanied at the hearing by a personal observer, who may be an attorney. The observer may not participate directly in the proceedings, but may only advise the accused student. If the observer is an attorney, a University attorney must be present at the hearing.
- H.** The hearing will be closed to the public and will be recorded. A party to the proceeding may request a copy of the recording. The Honor Council will deliberate in private. There will be no recording of the deliberations.
- I.** All recordings of proceedings will be controlled by the College of Pharmacy. No court reporters, stenographers, videographers, or other recordings are permitted

without the prior consent of the College of Pharmacy. Records and documents that are available in advance to all parties may be redacted to protect the privacy rights of individuals not directly involved in the hearing process.

- J.** The chair of the Honor Council will prepare a written report containing factual findings including the decision as voted on by the members of the Honor Council.
- K.** After finding that the accused student is responsible for an alleged violation a Discipline Subcommittee with members from the Honor Council will be formed. The Discipline Subcommittee will be composed of three faculty honor council members and two student honor council members as appointed by the Student Affairs Administrator. Sanctions will be determined by the Discipline Subcommittee. Possible sanctions are:

 - 1. "Verbal warning" means an oral reprimand.
 - 2. "Written warning" means a written reprimand.
 - 3. "Disciplinary probation" means the establishment of a time period during which further acts of misconduct may result in more severe disciplinary sanctions depending on the conditions of the probation. Conditions of probation can include community service, attendance at workshops and/or seminars including but not limited to alcohol, drug or safety workshops and/or seminars, mandatory mental health evaluation and/or counseling or other educational sanctions.
 - 4. Grade reduction or transcription notation
 - 5. "Suspension" means losing student status for a period of time specified in the terms of the suspension. A suspension may commence immediately upon a finding of a violation or it may be deferred to a later time.
 - 6. "Dismissal" means losing student status for an indefinite period of time. Readmission may not be sought before the expiration of two years from the date of expulsion, and it is not guaranteed even after that time.
- L.** The Student Affairs Administrator will communicate in writing the (a) findings of the honor council and (b) the sanctions to the student both by e-mail to the student's University e-mail account and by the U.S. postal service to the local address on file in the College of Pharmacy's Student Services office, with copies to the student's file and appropriate faculty member. This will complete the process unless the student appeals the decision.

The decision of the Discipline Subcommittee is effective immediately. If an appeal is planned, the student has the option of asking the Student Affairs Administrator for a delay in implementation of the sanction until the appeal process is completed. The decision of the Student Affairs Administrator regarding a request for a delay is final.

Student computer requirements				
		Minimum	Recommended	Notes
Processor	Windows	Intel Core Ultra 5 Series 1	Intel Core Ultra 7 Series 2	No Arm®-based processors for Windows, such as Snapdragon, N1X, etc..
