

PH 556: 2026 UNM SUMMER INSTITUTE IN COMMUNITY BASED PARTICIPATORY RESEARCH (CBPR) FOR HEALTH

Community Based Participatory Action and Research: Indigenous, Decolonizing and Critical Methodologies

Nina Wallerstein, UNM, COPH (Coordinator)
Michael Muhammad, Community Partner
Prajakta Adsul, UNM, SOM
Alfredo Ortiz, Univ. of Incarnate Word
Lorraine Halinka Malcoe, UW Milwaukee
Shannon Sanchez-Youngman, UNM, COPH

Lorenda Belone, UNM, COPH
Elizabeth Dickson, UNM, COPH
Ethel Nicdao, CSU, East Bay
Doreen Bird, UNM, OCH
Vince Werito, UNM, COEHS

Center for Participatory Research, College of Population Health (COPH) with Center for Native American Health; Community Engagement CTSC; Center for Advancing Dissemination and Implementation Science; Center for Social Policy; HSC Offices of Diversity & Community Health.

2026 SUMMER DATES (17TH ANNUAL INSTITUTE)

Dates: June 3: 12-5:30 on-line; June 8-12, 8:00-5:00 in-person

PH 556: 2 or 3 graduate credits. Please contact Arely Unger now at arunger@salud.unm.edu to join the class waitlist. Official UNM registration opens in March, but places fill up by early February.

INVITATION TO PARTICIPATE:

For graduate students, post-doc fellows, faculty, researchers, staff, community partners/researchers, academic-community teams, health professionals, scholar-activists, and others. This is an intensive co-learning institute to explore how CBPR intersects with indigenous and critical methodologies, including the challenges for academics and community members to co-construct knowledge for improved health equity. Masters students enrolled for 2 credits are expected to participate in readings, discussions, and journal-writing; for 3 doctoral credits, requirements include a CBPR methodology or theory paper. Enrollment is limited to 70 participants. For credit, UNM tuition (or tuition waivers) plus \$50.00 fees. If not enrolled for credit: \$1800 for faculty/researchers; \$800 for research staff or health/social service professionals; \$600 for non-credit students/fellows; \$300 for community members.

CBPR, and related-Participatory Action Research (PAR) and Community-Engaged Research (CEnR), is defined as a "collaborative approach that equitably involves all partners...with the aim of combining knowledge and action for social change to improve health and eliminate health disparities" (Kellogg Foundation). Not simply a set of research methods, CBPR or community-engaged research fundamentally changes the relationship between researchers and researched.

Our definition of **Indigenous** is Native knowledge, an "exercise in self-determination" (Doxtator, 2004), referring to values, beliefs, traditions, and environmental relationships embedded within historical and local economic, political and cultural-social contexts (Ball & Simpkins, 2004; Briggs, 2005). **Indigenous methodologies** are "approaches to research that privilege indigenous knowledges, voices, and experiences" (Smith 2005). **Critical methodologies**, grounded in Paulo Freire's liberatory education, are approaches to inquiry that are socially-constructed, emancipatory and empowering (Freire, 1970). **Decolonizing methodologies** seek to break domination of western research methodologies to co-construct science by incorporating local traditions, narratives, and knowledge (Tuwhai-Smith, 2021).

STRUCTURE OF INSTITUTE:

Our goal is to weave CBPR/CEnR/PAR theory and practice with indigenous and critical methodologies through articles, presentations by community-academic partners, discussion, and self-reflection on our own research and practice. Participants will gain appreciation for CBPR/CEnR/PAR advantages & challenges, and skills necessary for partnered research.

Readings: Wallerstein, N., Duran, B., Oetzel, J., Minkler, M. (eds). Community Based Participatory Research for Health: Advancing Social and Health Equity, 3rd edition, S.F. Jossey-Bass, 2018 (**NOT earlier versions**); and articles on-line.

Previous Participants:

I learned:

"Trust is built slowly through self-reflexivity, shared experience & action."

"How to get started and build partnerships."

"The importance of applying the CBPR principles when working with communities"

"How interventions can be conducted in a CBPR setting."

"The panel session on researcher identity was very intriguing and caused me to reflect on my roles with doing research & community engagement work."

"I gained confidence to participate in CBPR."
