When Should I Seek Help?

- When you have discussed your feelings with family and/or friends and they/you do not feel they can help.
- When you choose not to discuss your feelings further with family and/or friends for fear of “burdening” them.
- When you feel isolated and believe that you have no one who cares about how you feel.
- When you don’t spontaneously snap out of feeling badly within a few days to several weeks.
- When you feel stuck in a behavior, thoughts, or feelings that you want to change but can’t change on your own.
- When you want the perspective of a trained professional.
- When you believe your work and/or relationships may be compromised by how you are feeling, thinking, or behaving.
- When you want to learn a specific coping skill, i.e. relaxation, biofeedback, assertiveness, etc.
- When you and your partner want help communicating better (couples counseling).
- When your self-esteem seems to be draining away and/or you feel overwhelmed with responsibilities.
- When you don’t necessarily feel you have a problem, but would like to think “preventively” about your emotional health and personal growth.
- When you feel you are using alcohol or illicit drugs to “self-medicate” or to make yourself feel better
- When you feel burned out and/or emotionally exhausted
- When you are thinking about self-harm or about suicide
- When you are engaging in self-harm or self-destructive behavior
- Whenever you think it would be helpful to you
Selecting a Mental Health Professional

Just because someone calls him/herself a counselor or mental health professional is no guarantee of quality. Consider the following:

- **CONNECTION**
  Trust your intuition when you speak with any counselor. If you do not feel safe or comfortable, choose a different counselor or mental health professional.

- **EDUCATION**
  Ask when and where degree was earned, along with subsequent relevant training, if any.

- **EXPENSE**
  Hourly fee, charge for introductory session, sliding fee scale, covered by insurance.

- **EXPERIENCE**
  Counselor’s work experience (i.e. public or private sector, clientele).

- **PHILOSOPHY**
  Philosophical approach taken (Freudian, Jungian, Rogerian, existential, etc.).

- **TIME COMMITMENT**
  Number of sessions considered appropriate as a normal intervention.

Sexual Harassment and Assault
The University of New Mexico is committed to maintaining a campus environment that is free from sexual harassment and assault. To ensure that the best and most effective services and process for handling sexual assault on campus are available, UNM has created a Sexual Misconduct and Assault Response Team (SMART).
