Accountability & Community Healing: Restorative and Transformative Justice Workshop

Presented by:

Justin Bullock, MD and
Hannah Anderson, MA, PhD

RSVP HERE

In this interactive workshop participants will:

- Learn about the restorative justice tiers (harm acknowledgment, repair, re-integration) and transformative/abolitionist approaches to justice
- Together with LEO team, we will practice a microaggression pre-brief framework for responding to harm in real time and evaluate how different accountability processes support community re-integration vs exclusion.

This series features cumulative learning, so we encourage participants to attend all sessions for the full experience. If you miss a session, recordings will be available to ensure you can stay engaged.
